3 too much about the unknowable.)
interest and curiosity are
equivalent to two things -
either it is a quick feeling of
unfairness (of doing something
you don't want to do) or the spark
of interest, an involvement, of
intricacy (in listening to Schmidt's
lecture while writing this, so it
might not be coherent).
Acid is pure awareness, but it
does not supply interest - which
is what causes hallucinations and
freaking out. Pleasure is the
decreasing of awareness, but
if interest is not kept up with
the level of awareness, then that's
boredom. And boredom makes
awareness painful, so you seek
a lower level of awareness and
that spirals down to clumsiness,
dullness, and general decay.

Different levels of awareness between
cause uneasiness between people
meeting eyes - the lower level
is made nervous by the upper, and
the upper senses that nervousness
and goes higher himself. The
higher the awareness, the more
sensitivity to another's thoughts -
and if both are bored, that gets
very annoying. This level of
awareness also determines the
rate of maturity (sexual, physical),
but actual aging is caused by
too high a level of awareness
and too low a level of interest.
Not to just ramble on, all
tie all this back to the Robe, Drinking
causes decreased interest, but
Marcellus was not allowed to
sleep by his own sense of duty.
The Robe brought all this
awareness to a peak, all his
memories were collected in it, and
he went into shock

I've got a theory, and some time that needs to be killed with my mind being occupied while it's being wasted (or like my mind gets wasted too), so I'll write you about something.

I started Robe last night this isn't some sort of rehashing of past viewpoints - its human, not religious). Marcellus, the Tribune who crucified Christ, got drunk and had been all day) that night at the meal, one of the guests demanded Christ's Robe, & it all ended with M. putting it on. And something changed in him ("saved his soul") and though he was drunk and tired he couldn't get the crucifixion out of his mind. His slave, Demetrius, could handle the Robe easily, and it gave him strength and comfort — somehow knowing the courage he had seen in Christ's eyes when he came to Jerusalem and was mobbed by the zealots as a king.

Anyway, from his description of what happened, it sounded very much like my freaking out on acid (more than just sounded like — I'm sure of it). I'll find out tonight how he got over it, but for now I have some idea which, though it doesn't help me, explains some things. Awareness and interest are two separate things. Intense awareness without interest is like a state of shock. The mind can function in responses, but cannot create new thought patterns. That is what Marcellus mind was in - continual awareness. (It killed the time, but it's worth continuing since I'm organizing into thoughts what I've merely felt since last night. Maybe that is what I should do - as Marcellus said, you can know

Dear Carmeda,

I received seven letters from Jack today - the first for what seems like ages and he says he may be in in June. Wan't that be nice? But we won't say definitely until we see him, will we? He again asked me to write you and said he had heard from you. I know you're hearing tas and he's probably telling us the same thing. He said in one letter he hadn't heard anything out of one ear since it'd been infected but I don't know just how he meant it. It'd be awful if it were a permanent thing.

Hear you're planning to return to teaching. Nice in one way but H(C C K) (epcuse please) in another. I hope you aren't blessed with 40 as I have been this year. That's really too - too many for comfort.

I wanted to come down Easter but we had so much company

I couldn't run away. Maybe I can make it. June 14 when school is out — if I came to S.F. I don't know for sure what this summer holds in store for me. Guess you'll be at U.S.C. I fell that I should be there since I have for so many summers but I won't. May go to the U. here, may work or may loafe in S.F.

Went to the Cherry Blossom Festival this week and and decided me'd, (Ruth & I) see a newsreel to see what it was all about. We did see some Indians, the prangs on the queen's crown & a helicopter, but we strained our necks & toes to do that. Wasn't hardly worth the effort. The blossoms were beautiful but no more so than our plum blossoms in our back yard. Don't appreciate nature, do ya?

So long. Gotta' grade some papers. Miserable moments — & I will it to upon next year.

Love, Lenore

SECTIONS OF THE GENERAL CODE OF OHIO RELATING TO SUPPORT OF INMATES OF STATE INSTITUTIONS

SECTION 1815. (101 O. L., v. 157). All persons now inmates of, or hereafter admitted into, a benevolent institution, except as otherwise provided in this chapter, and except as otherwise provided in chapters relating to particular institutions, shall be maintained at the expense of the state. They shall be neatly and comfortably clothed and their traveling and incidental expenses paid by themselves or those having them in charge.

SECTION 1815-1. (102 O. L., v. 63). When any person is committed to a state hospital for the insane, to the Longview Hospital, to the Ohio Hospital for Epileptics, or to the Institution for Feeble-Minded, the judge making such commitment shall at the same time certify to the superintendent of such institution, and the superintendent shall thereupon enter upon his records the name and address of the guardian, if any appointed, and of the relative or relatives liable for such person's support under Section 1815-9.

SECTION 1815-2. (111 O. L., v. 80). The maximum rate for the support of inmates of such institutions shall be five dollars and fifty cents per week. Less amounts may be accepted by the * * * (department) when conditions warrant such action, or when offered by persons not liable.

SECTION 1815-3. (101 O. L., v. 158). The * * * (Department of Public Welfare) shall appoint an agent * * *. Said agent shall investigate the financial condition of the inmates now in the aforesaid institutions, or hereafter committed or admitted thereto, and of the relatives liable for the support of such inmates, in order to determine the ability of any inmate or such relatives to make payment in whole or in part for the support of the said inmate; provided, that in all cases due regard shall be had for others who may be dependent for support upon the estate of said inmate.

SECTION 1815-4. (106 O. L., v. 504). Such agent in making investigation shall have power to subpoena witnesses, take testimony under oath and to examine any public records relating to the estate of an inmate or of a relative liable for his or her support. All his information, conclusions and recommendations shall be submitted to the * * * (Department of Public Welfare). The * * * (department) shall determine whether such relatives shall be required to pay for the support of such inmate or whether such charges shall be made against the estate of such an inmate. An order shall be issued to the persons who are determined liable for such payments, requiring them to pay monthly, quarterly or otherwise, as may be arranged, to the state such amount as it or the committee shall deem proper, but no order shall be issued compelling payment for the care of an inmate prior to May 2, 1910.

SECTION 1815-5. (101 O. L., v. 159). Any person who has been ordered to make payment for the support of an inmate may petition the * * * (Department of Public Welfare) for a release from, or modification of such order, and said * * * (department), after an investigation by the agent, may cancel or modify such former order. The * * * (department) shall at any time for due cause have the power to increase the amount previously ordered paid.

SECTION 1815-6. (101 O. L., v. 159). The superintendents of the state institutions shall submit to the * * * (Department of Public Welfare) such information as they may obtain concerning the financial condition of any inmate or of relatives liable for his or her support.

SECTION 1815-7. (101 O. L., v. 159). In case the estate of any inmate is sufficient for his or her support, without hardship to any others who may be dependent thereon, and no guardian has been appointed for such estate, the agent shall petition the probate court of the proper county to appoint a guardian.

SECTION 1815-8. (103 O. L., v. 879). In order to facilitate the investigation of the financial condition of the inmates in such state institutions, and of persons liable for their support, the * * * (Department of Public Welfare) may employ assistant agents not to exceed five in number * * *.

SECTION 1815-9. (101 O. L., v. 159). It is the intent of this act that a husband may be held liable for the support of a wife while an inmate of any of said institutions, a wife for a husband, a father or mother for a son or daughter, and a son or daughter or both, for a father or mother.

SECTION 1815-10. (102 O. L., v. 64). Upon the death of a person who is an inmate, or has been an inmate since the passage of this act, of any of the aforesaid institutions and who is possessed of property, it shall be the duty of the executor or administrator to ascertain from the * * * (Department of Public Welfare) whether the deceased person was supported while an inmate, and if not, the * * * (department) may present a claim for support, or for the balance due in case less than the maximum rate has been paid. Such claim shall be allowed and paid as other lawful claims against the estate; provided that the * * * (department) may waive the presentation of any claim when in their judgment an otherwise dependent person will be directly benefited by the estate. It shall be lawful for the * * * (department) to accept from a guardian or trustee of an inmate a contract agreeing to pay to the state from the property of his ward before or at the death of his ward a fixed annual amount for the support of such ward while an inmate, and with interest at four per cent per annum. A copy of such contract shall be filed in the probate court of the proper county, and duly entered as a part of the records concerning such ward.

SECTION 1815-12. (108 O. L., v. pt. 1, 554). The county from which an inmate of an institution for the feeble-minded was committed shall be liable for such inmate's support provided the same is not paid otherwise as provided by this act. The treasurer of each county shall pay to the treasurer of state upon the warrant of the county auditor the amount chargeable against such county for the preceding six months for all inmates therefrom not otherwise supported, upon the presentation of the statement thereof. When any person committed to an institution under the control and management of the * * * (Department of Public Welfare) other than an institution for the feeble-minded, is transferred or removed, as provided by law by said * * * (Department of Public Welfare) from such institution to an institution for the feeble-minded, the county from which such person was committed shall be liable for the support of such person while in said institution for the feeble-minded, as hereinabove provided, and to the same extent as if such person had been originally committed from said county to said institution for the feeble-minded.

SECTION 1974-1. (111 O. L., v. 80). The provisions of law applicable to the payment of charges for their support by inmates committed to state hospitals shall apply to persons received on voluntary application * * *.

Said agent shall investigate the financial condition of the inmates now in the aforesaid institutions, or hereafter committed or admitted thereto, and of the relatives liable for the support of such inmates, in order to determine the ability of any inmate or such relatives to make payment in whole or in part for the support of the said inmate; provided, that in all cases due regard shall be had for others who may be dependent for support upon the estate of said inmate.

SECTION 1815-4. (106 O. L., v. 504). Such agent in making investigation shall have power to subpoena witnesses, take testimony under oath and to examine any public records relating to the estate of an inmate or of a relative liable for his or her support. All his information, conclusions and recommendations shall be submitted to the * * * (Department of Public Welfare). The * * * (department) shall determine whether such relatives shall be required to pay for the support of such inmate or whether such charges shall be made against the estate of such an inmate. An order shall be issued to the persons who are determined liable for such payments, requiring them to pay monthly, quarterly or otherwise, as may be arranged, to the state such amount as it or the committee shall deem proper, but no order shall be issued compelling payment for the care of an inmate prior to May 2, 1910.

SECTION 1815-5. (101 O. L., v. 159). Any person who has been ordered to make payment for the support of an inmate may petition the * * * (Department of Public Welfare) for a release from, or modification of such order, and said * * * (department), after an investigation by the agent, may cancel or modify such former order. The * * * (department) shall at any time for due cause have the power to increase the amount previously ordered paid.

SECTION 1815-6. (101 O. L., v. 159). The superintendents of the state institutions shall submit to the * * * (Department of Public Welfare) such information as they may obtain concerning the financial condition of any inmate or of relatives liable for his or her support.

SECTION 1815-7. (101 O. L., v. 159). In case the estate of any inmate is sufficient for his or her support, without hardship to any others who may be dependent thereon, and no guardian has been appointed for such estate, the agent shall petition the probate court of the proper county to appoint a guardian.

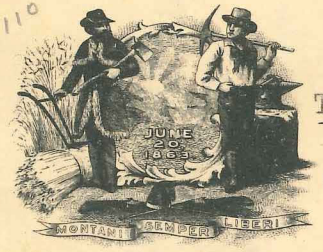

SECTION 1815-8. (103 O. L., v. 879). In order to facilitate the investigation of the financial condition of the inmates in such state institutions, and of persons liable for their support, the * * * (Department of Public Welfare) may employ assistant agents not to exceed five in number * * *.

SECTION 1815-9. (101 O. L., v. 159). It is the intent of this act that a husband may be held liable for the support of a wife while an inmate of any of said institutions, a wife for a husband, a father or mother for a son or daughter, and a son or daughter or both, for a father or mother.

SECTION 1815-10. (102 O. L., v. 64). Upon the death of a person who is an inmate, or has been an inmate since the passage of this act, of any of the aforesaid institutions and who is possessed of property, it shall be the duty of the executor or administrator to ascertain from the * * * (Department of Public Welfare) whether the deceased person was supported while an inmate, and if not, the * * * (department) may present a claim for support, or for the balance due in case less than the maximum rate has been paid. Such claim shall be allowed and paid as other lawful claims against the estate; provided that the * * * (department) may waive the presentation of any claim when in their judgment an otherwise dependent person will be directly benefited by the estate. It shall be lawful for the * * * (department) to accept from a guardian or trustee of an inmate a contract agreeing to pay to the state from the property of his ward before or at the death of his ward a fixed annual amount for the support of such ward while an inmate, and with interest at four per cent per annum. A copy of such contract shall be filed in the probate court of the proper county, and duly entered as a part of the records concerning such ward.

SECTION 1815-12. (108 O. L., v. pt. 1, 554). The county from which an inmate of an institution for the feeble-minded was committed shall be liable for such inmate's support provided the same is not paid otherwise as provided by this act. The treasurer of each county shall pay to the treasurer of state upon the warrant of the county auditor the amount chargeable against such county for the preceding six months for all inmates therefrom not otherwise supported, upon the presentation of the statement thereof. When any person committed to an institution under the control and management of the * * * (Department of Public Welfare) other than an institution for the feeble-minded, is transferred or removed, as provided by law by said * * * (Department of Public Welfare) from such institution to an institution for the feeble-minded, the county from which such person was committed shall be liable for the support of such person while in said institution for the feeble-minded, as hereinabove provided, and to the same extent as if such person had been originally committed from said county to said institution for the feeble-minded.

SECTION 1974-1. (111 O. L., v. 80). The provisions of law applicable to the payment of charges for their support by inmates committed to state hospitals shall apply to persons received on voluntary application * * *.

Mr. U. G. Moore,

West Virginia.

Dear Sir:

On May 6th, 1933, you wrote us in relation to the account of J. L. Moore et al., J. L. Moore, attorney in fact, which account is credited with a 1/16 royalty interest in the South Penn Oil Company's wells on the Arnold Moore farm, Glenville District, Gilmer County, W. Va., tank No. 99295, and you gave us the address of Lillian Moore Hall as Hinting, W. Va.

On June 5th, 1933, we wrote to Lillian Moore Hall at Hinting, W. Va., and it is evident that this letter was delivered to her at that address as it has not been returned here. However, we wrote her again at the same address on June 15th, 1933, and this morning the letter was returned to this office marked "Unclaimed and Unknown". If possible will you kindly furnish us with the present address of Lillian Moore Hall for which we thank you in advance.

Yours very truly,

D. L. Thomas

Hello Jack,

I've been sort of neglecting you of late, haven't I? as I told you we've had sickness. They all seem to be on the mend now, if I can just keep them from taking cold. Mom was a little better Friday, tho when I heard last.

We were very proud of your shooting average. It was excellent. You were in the fourth group and with that many it was good. What kind of guy is that Barlow with a 200 record. He must be a western gunman we read about. I shall keep the score sheet. I like to read the names and try to guess their nationality. Guess they are all Americans though.

I had a letter from Basil the other day. He is still in Baltimore. Guess he is going to work there. He never mentioned coming home. He had left a pair of his paratroop shoes all muddy on the porch and he wanted me to clean them for him. Betty cleaned and shined them up nice. She wouldn't do that for you would she? I think she would now, because she

Dear Ramsey:

Got your letter yesterday Nellie forwarded here. We looked and looked for a letter from you, couldn't imagine what was wrong, but we never got any answer from the last letter we wrote.

I can't understand why you couldn't write any time, or anything. What you say shouldn't make any difference to them if you are in the condition they say you are. &c. Probably their opinion is all.

Pad took quite a laugh

over what you pulled about tracking animals tricks. You know him, alright, and his opinions are stronger than ever.

We can't get one word from South Carolina. Looks like there's something wrong. Dad said for you to give him some of the men's names who were working there with you, not the officials &c. and he will try to gain some information in that way. He believes there's the place to start.

Dad & Mother both wants you transferred near home and wrote out there asking

about it, but they never mentioned it when they wrote, only saying you needed treatment yet, so you see just how it is, can't do much. you take care of yourself, and try and get your physical health gained back, and as to your mental condition, I believe that will take care of itself, according to your letters you write. I can't find any defect in them. ha. Oh well, we only live once, and we never know what we might have to endure, but as long as theirs

life their's hope, so try and be patient, and dad will do every thing he can for you, as he has always done for us all. In sickness or trouble he has always come to our rescue. I'm with him now, but aiming to help mother out all I can, and my family is small, just the one. Bill is out again trying for work, but without a political pull every thing seems in vain, but we are still hoping.

We have a pretty nice snow on this morning, and quite a freeze with it.

I'm afraid fruit is gone for they were in full bloom. It has rained since the last of March. Verle has been trying to get his potatoes planted and his clearing done, but has been too wet. Dad says he has a fine clearing. He was always good with an ax you know. He and Arden both are making great musicians. La. Do pretty good. Verle plays any string instrument, and Arden picks the guitar and has a fine voice now.

Well I will have to close

and go up to Viviams to wash. She is all knocked out. Looks terribly bad. Dr. Sloan from Clarksburg is doctoring her. She isn't doing any good at all.

I hope you will be able to get a letter sent here, soon, for we are all anxious to hear from you. Be good and take care of yourself and if you want to give dad a hearty laugh, just crack a few more jokes ha.

Hope this finds you still improving. Love, your sis, Violet

AMERICAN RED CROSS

Hello,

How is Sand Fork & everyone there? Haven't heard from you but once since I got here & that was over a week ago. Guess they haven't been able to keep track of me as I've been moving pretty often lately.

This turned out to be a pretty nice place. We pull guard three hours & get off fifteen days for a little drill & a few classes on military courtesy. Never had it so easy since I was in Belgium.

We got our rations today. I got six packs of cigs & one pack bar of soap to last two weeks. If you don't mind I would like a carton of cigs about every week or so. Just in card something like this

Hello Mom.

Received a couple of your letters yesterday. Im glad that you are all well & wish I could be there with you. They keep me wandering now about when we are coming home. They say now it may be until Aug. Sure hope they don't wait that long. One thing dis pleased about the army. When they say they are going someplace you can't be sure they will get there until you are on your way.

Went gigging last night. Got one rainbow trout. There aint so many fish here & the water is too swift to do much good. To top it all trout are post & we only have a one prong gig (spear) made me think of home a lot. Two things were

Was glad ever talked in favor of a garage. Hope he decides to put one in. Hope he decides to-as I would like to help when I get out. Don't know anything else & when he is finished with it could buy his car & run it myself.

Minnick never from here you don't read about in the papers. Am well & like the Out Post duty fine. Don't mind pulling guard when there is something important to guard.

April 12, 1933.

Mr. U. G. Moore,
R. D. 1,
Orlando, West Va.

Dear Sir:

In going through our unfinished business, we find that under date of February 2, 1933, we wrote to you in relation to the estate of J. L. Moore, who, according to our records, is interested in the account of J. L. Moore et al, which account is being credited with a 1/16th royalty interest in the South Penn Oil Company's wells on the Arnold Moore farm, Glenville District, Gilmer County, West Va., tank No. 99295. In the above mentioned letter we stated that in order that we would know to whom the interest of J. L. Moore in the account of J. L. Moore et al should now be credited, it would be necessary that we be furnished with certain papers in the estate of J. L. Moore, and for your information and guidance we enclosed a printed form showing the requirements of The Eureka Pipe Line Company in settling estates, which would fully direct you in the matter. Up to the present time, however, we have not been furnished with the necessary papers in the estate of J. L. Moore, nor have you favored us with a reply.

If J. L. Moore left a will, we should be furnished for our files with a certified copy of his will with a certificate of probate attached, and we should also be advised the exact date of his death. If, however, J. L. Moore did not leave a will, but died intestate, we should be furnished with an affidavit, made by someone familiar with the facts, to the effect that J. L. Moore died intestate, giving the date of his death, leaving to survive him a widow, naming her, or no widow, as the case may be, and the following children, naming each of them, as his only heirs at law and the only persons entitled to inherit any part of his real or personal estate under the Intestate Laws of the State of West Virginia. If any of the children are minors, the affidavit should note the exceptions, and it will be necessary for the appointment of a guardian for them, and we should also be furnished with a short certificate of the guardian's

appointment.

On receipt in this office of either the certified copy of J. L. Moore's will or the affidavit, we will then prepare the necessary division order crediting the interest of J. L. Moore in the account of J. L. Moore et al as directed, and will mail it to you for execution.

The oil in the account of J. L. Moore et al is being held awaiting receipt here of the above mentioned papers, and the value of the oil is slowly being eaten up by delayed shipment charges which are charged monthly against the oil.

As stated in our letter of February 2, 1933, the account of J. L. Moore et al, J. L. Moore, Attorney, is composed of J. L. Moore, U. G. Moore, Nathaniel Hefner, Sarah Tomblin, Thermutis Mich, Sibyl Devol, Lona Cox, Archie Cox, Elizabeth Cox, Lillian Moore, Clem Cox and Mable Cox. The division order whereby J. L. Moore et al certified to their ownership of the above 1/16th royalty interest was filed in this office on December 16, 1908, and it is possible that some of the other persons composing this account are now dead. If so, we should be so advised, and it will also be necessary that we be furnished with the above mentioned papers in each estate.

Thanking you for your kind attention to this matter, we remain

Hello son,

Everyone is on the mend and I got a nights sleep last night and it looks favorable for another tonight. The children are all in bed now anyway.

See Jack you are heavy. Dont get fat now. Grow an inch or two taller wont you? Of course I didnt, but you can do things your mom cant do. You know this Heinline boy from Burnsville that came down here with Andy when I took him to Clarksburg to get his suit? Anyway I believe it was Heinline. He grew 6 inches taller while he was in the army. Thats true too, for he was to see Clarice and Basel and they told me. I guess the chow must be good anyway nourishing.

I'm thinking you wont get a whack at Bob or Massy either. Massy wasnt called, none of this bunch were, and they are going to put him in College as soon as they can and ask for a deferment. I doubt if Massy passes anyway. You know he faints everyone in a while now. Bob Marshall says he enlisted but I wouldnt be afraid to bet a lot that he wont go either. He'd blow the whole works up anyway with his gab. I forget whether I told you about his little fuss at B-ville

or not. I'll just outline it again for fear I didn't and it was too good to miss. He called a boy from B— team a Son——— and he jumped off the floor and grabbed Bob before he could get away. He jerked him and said, "Will you take it back", and just then the B-ville coach & players started after the boy to make him get back in the game and Bob thought they were after him. He said "Yes I'll take it back, I didn't say anything but I'll take it back." At last the gang pulled the player back on the floor and Bob beat it. He got loose and took after him again but Bob got down in the basement and through a window and went out & laid down in the truck. Fine Soldier, he'd make wouldn't he? Well that's Bob, anyway. Nothing to back up his blow. He'd better show up or shut up it looks to me.

I'm glad the army is teaching you to fight and now since you can, I hope it teaches you that in a world at peace you seldom have to. In war the beast that is in you is brought out & fed, but in normal life the beast in man is best asleep. Lying dormant will not kill the fight in man of good breeding. When the need arises it comes out as strong as ever. Look at the trees in winter. Just a little sun & rain in spring and they are ready to come out and do battle with the elements. Man is like that too. It takes only a necessity to arise and he is ready for battle. Let the army change you physically if it will Jack it but don't let it change your good heart.

This sounds like a book since I read it. But dead & never copied it.

Protect your rights & pride of course, but don't settle old scores with fights when it will do no one any good. If Glen D. tries again since you are grown to pick a fuss why accomodate him, but I don't think he will unless everything is to his advantage. Just forget that. But I don't care if you do punch Bobs nose a little. Dont hurt him you know, just punch him.

Eight weeks will soon roll around if you are doing work you like, and I believe you are liking it some now. That will be sometime in March. Yes, I know you will get to help me plant potatoes. Chee hee

No, Jack I haven't received any bonds, they will probably mail them when they make up your pay. Don't they take the money for them from that? I think you were wise, and you can rest assured they will be yours when you come home. If it became necessary for me to cash any, it will only mean a loan from you to me. and I don't think the necessity will arise, you will need some money when you leave the army, and as you say that will be the only way you can save. I hope to have some kind of business for you to look after when you come in, but I don't know, son, whether I can handle it or not. It seems as if your dad never does anything but build mental pictures. If I were so I could push him a little kid

be O.K. but I can't get away on time to help him.

Sutton plays at Sand Fork to-morrow after-noon. They are having the game in daytime so the school children who ride the bus can go. Jimmie wants to go.

Well I must go fasten my chickens and go to bed. See I wish you were here to do it as it is blowing and snowing to beat everything. And then you liked to so well you know. ? ? ?

Don't worry about Boyd marrying. You ought to hear him preach about the others. Andy especially. He says a sane man won't get married. Wouldn't surprise me if he doesn't pick up some girl and make a fool of himself. He hasn't come home yet.

Jack, Wanda & Beck are the happiest two people I have seen in a long time. I'll just bet they make a happy life for themselves. I do hope so.

Good-night son,

Love,

Mom.

June 15, 1933.

Mr. U. G. Moore,
Orlando,
West Va.

Dear Sir:

We have your letter of the 10th inst., continuing our correspondence in relation to the account of J. L. Moore et al, J. L. Moore, Attorney in Fact, which account is credited with a 1/16th royalty interest in the South Penn Oil Company's wells on the Arnold Moore farm, Glenville District, Gilmer County, West Va., tank No. 99295. In your letter you state that the division orders we prepared and sent out for execution are not correct, as the above 1/16th royalty interest should be divided up into seven separate accounts instead of six accounts. You further state that Lillian Moore Hall is the only heir of R. M. Moore and has a full share of the oil and gas in the above farm. This is the first intimation we have had that Arnold Moore had seven children, and when we sent out the division orders for execution we were of the opinion that Arnold Moore had only six children.

It now appears that you are the owner of 1/7th of the above 1/16th royalty interest, or 1/112ths royalty interest, and we have prepared and are enclosing herein a new Eureka Pipe Line Company's division order, including oil in lines, whereon you may certify to your ownership of a 1/112th royalty interest in the above farm. If you find this division order correct, please sign it yourself on the line where we have penciled for your signature and return it to this office for our files, and this 1/112th royalty interest will then be credited to your account. It is only necessary for you to sign this division order as we are sending out division orders whereon the other persons whose names appear on this division order may certify to their interest, with the exception of Thermutis Mick, as we have not been furnished with papers in the estate of Thermutis Mick. Dear Sir:-

It seems fitting in these times of economic distress, with the resulting low and inequitable prices that farmers are receiving for their products, that we should indicate our attitude toward our borrowers.

We wish to express our appreciation to and admiration for those farmers who have had the will, the ability and the skill to operate their farms successfully and who have met their obligations to this Bank. The great majority of our borrowers have done this but some have not and, since the success of the Bank and of its future operations hinges on the ability of its borrowers to pay, it would be a source of considerable concern if the number of delinquent borrowers should increase.

The Bank's collection policy does not favor a moratorium or general extension of time on all maturing and past due obligations, but it recognizes that it is not always desirable to take advantage of those provisions of our mortgage which enable us to foreclose a mortgagor who is unable to comply with the terms thereof.

It is the purpose of the Bank to consider each case individually on its merits, and to give every reasonable consideration to deserving farmers unable to meet their obligations. The Bank's definition of a deserving farmer is one who is making an earnest effort to meet his obligations, is giving the land and buildings good care, is using such skill in the operation of his farm that there is a reasonable prospect of his ultimate success and who is applying the production of the land to the payment of his obligations in the order of their importance; namely, the operating expenses, the necessary living expenses of himself and his family, the taxes, and the installments on the Land Bank mortgage. Where these conditions exist and this performance is had, THE BORROWER IS RECEIVING EVERY CONSIDERATION.

Dear Jack,

I received your letter the other day and decided to answer back sooner than I did the other time.

How is everything treating you? Fine, I hope.

I was over at Dan's a little while ago. She has been sick for about two weeks. Jackie didn't go to school today either, but naturally I did, why can't I get sick. Maybe I'm just too darn lucky.

I have been spending most of my time, skating, which is only natural for Dan and me to do. I am learning a few things on skates and it is a lot more fun to skate now.

Nothing much happens around here worth while writing about, same

old Clarksburg, busy as ever doing nothing.

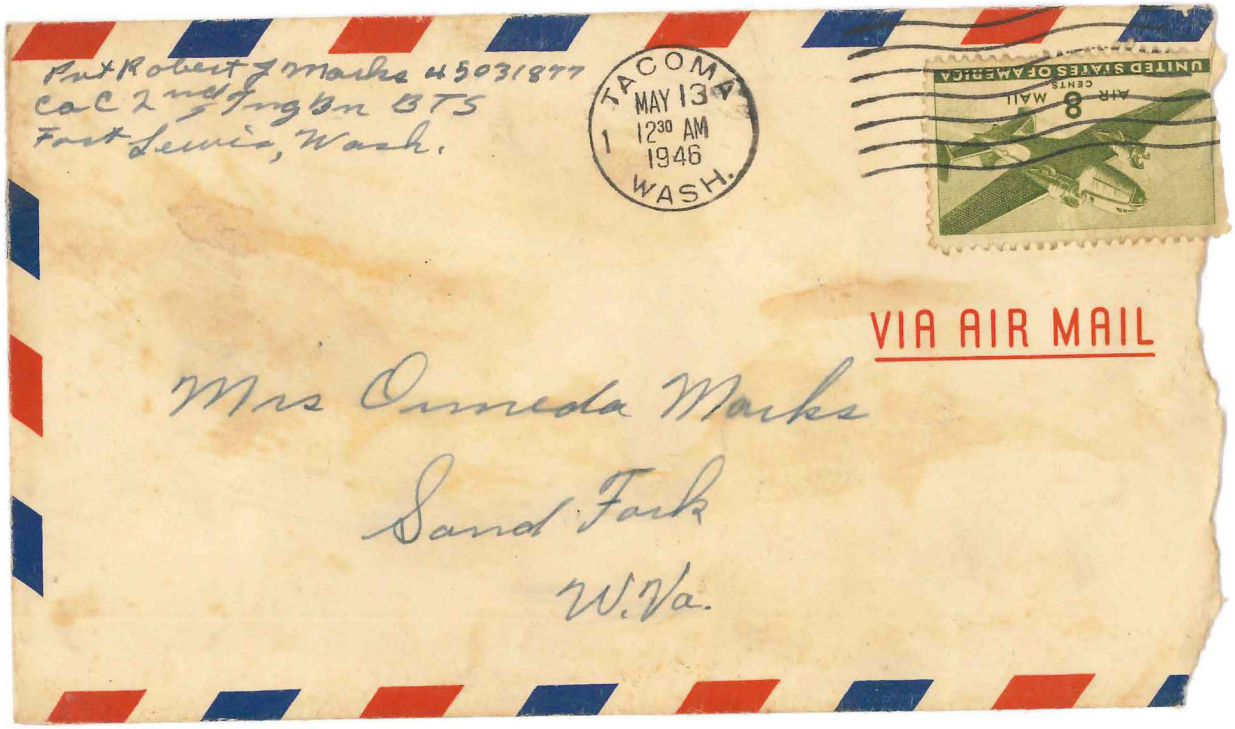

You asked me if I would date you while you are in Clarksburg - yes, I will & would like to too.

I have a test in Social Science tomorrow, and should be studying, but I would rather write to you.

Well, so long and take it easy. Write soon.

Love,
"Ja"

I haven't any pictures of myself at the present, but as soon as I get one, I'll send it to you. How about you sending me one of yourself ? O.K. ???

Dear folks

Im getting here on my bunk thinking of you all & what your doing. You are all probly in bed & asleep as it is 10:30 here & three hours later there.

I haven't heard for sure when I go to Texas but I heard a rooner that a bunch of us was leaving the 20th of May. When we do go I get 15 days delay in route & 5 days traveling time. If you think it will be a good idea to come home I would love it. If you dont have the money to spare you can let me know. The other day when we signed up to go I took the 15 days as it would be my only chance & I didn't have time to ask you all.

Is the old car in running shape. I hope so as I have some plans which involve it. I want to see Ja for one thing and another is to have a talk with Lenora. Don't worry about me being soft but I just want to get things straight.

How is fishing now Dad? I'll bet they are thick up at the farm. I would like to see Dean pulling a fairly nice one. I'll bet he would be tickled pink.

How are you doing in school Jim? I bet you learned a lot this year. When I come home I want to see you write my name so Practice, will you.

How are you Max? Think you can whip me when I see you? I'll bet you are good with that

AIR MAIL

Boy & oh boy, can't you?

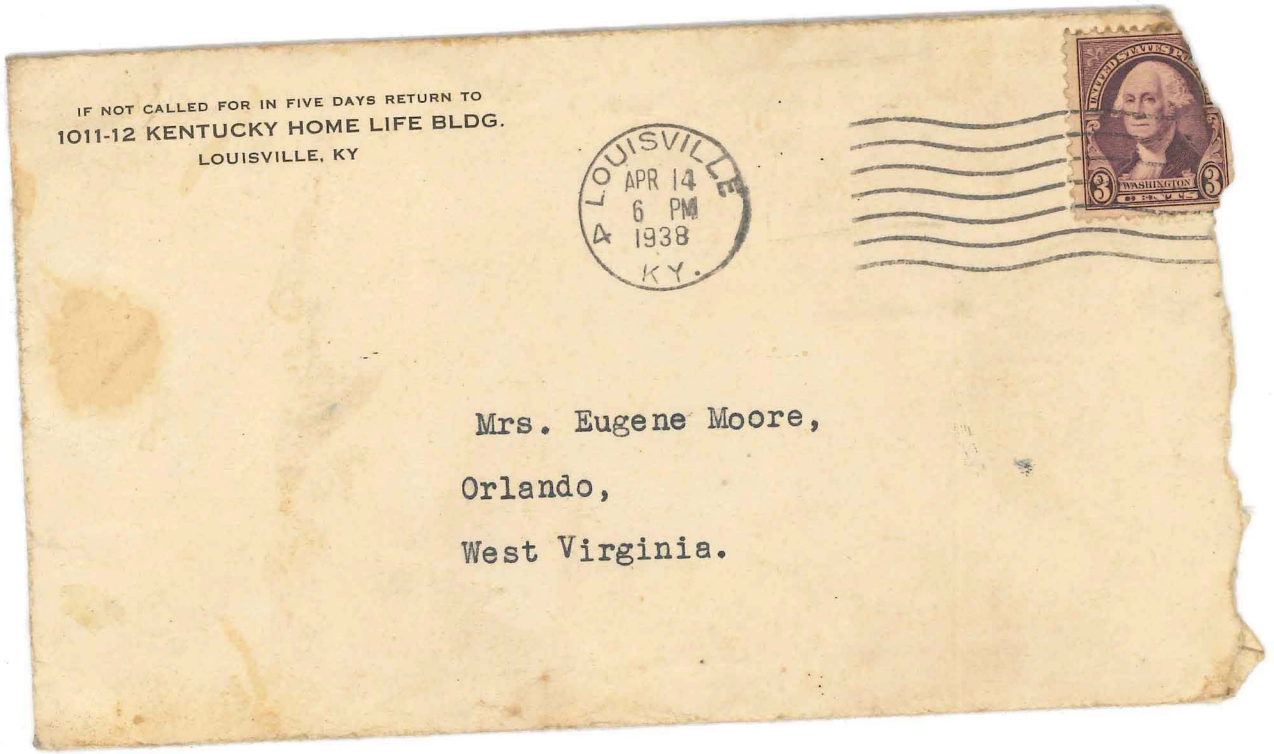

Mary I haven't forgotten Mothers Day but Pay Day was a little late this ~~Year~~ Month so Keep Wanting & I'll get you a present. I can get awfully good pens here for as much as half the price you pay there. I'm trying to get Dad an electric Razor but its going to be a hard deal. Can see the boy who has it won it by taking a chance for .50¢. It is a $40.00 Razor & I think if I catch him drunk I can get it for $10.00

Well I want an answer soon

Love

Jack

P.S. I'll wait a while longer before I see about those bonds. The Army is slow anyway

I had a letter from Basel last week. He is in Baltimore now, but he said when you came home on furlough to let him know and he was coming home to see you. I hope you can come soon.

The Basket Ball Tournament starts this week and our boys drew Normantown for the first game. Thats tough isn't it? I don't think they have any chance to do anything as their players are all weak. Rolla Ray Burk is about the best of the new ones. I think Web. is about the best of the old.

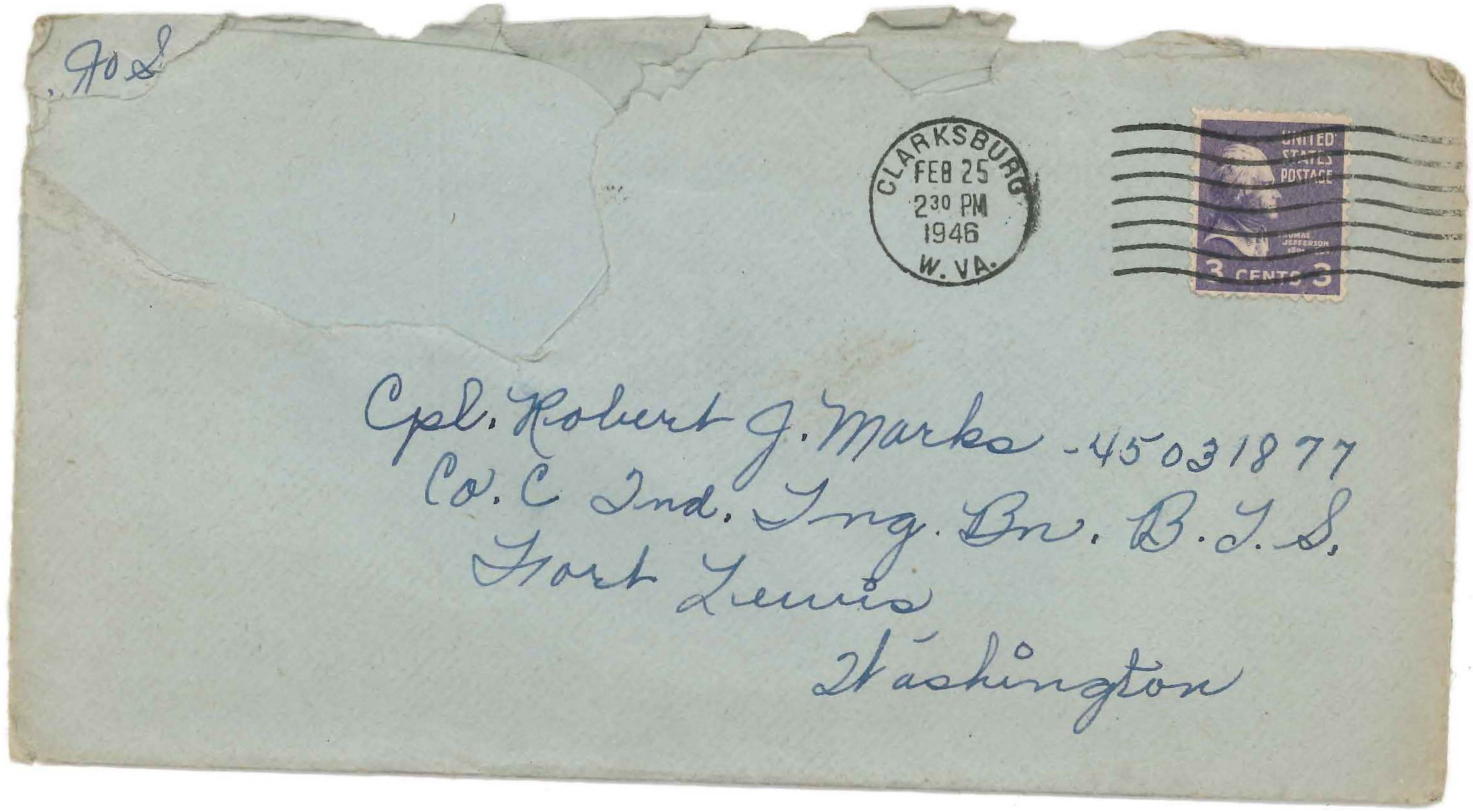

Paul Stoner is wanting to joinn the Maines as soon as his dad gets able to go sign his papers. He is only 17 you know.

Well Jack, I hear one of the boys coming down stairs. I'm guessing it is Jimmie. I want to get this in the mail as Beth goes to school as will close. It doesn't seem like you are getting all my mail. Notice if the address is correct on this one.

By the way, Helen said you owed her a letter, and she has been wondering why you didn't write to her.

Dear Jack,

Sorry I have'nt taken so long to answer your swell letter and thank you for the lovely valentine, it was sure pretty. I liked it a lot.

Well, how is Army life treating you now, fine I hope. My brother was home for 60 days, went back last Friday. I sure had a lot of fun while he was home.

It is snowing now, it is about time for it to, as we have hardly had any at all. Yesterday it was too hot for February. In fact I am hot now - had just put more coal in the furnace - no wonder, huh?

As for school and me, we are getting along as usual together, which is good

sometimes and sometimes not. We haven't got our class rings yet, we were supposed to have gotten them in Dec. sort'a odurdue - huh?

This is all for now and answer when you find time.

Dear Son,

I received your letter of the 30th today. I am sorry you are broke and have a chance to leave camp. I hope you did as you suggested, and borrowed some money to go to town on. Your dad gives me $20. a week to run the house on and I'll save what I can from that and send you each week if it will help you out until you receive your pay. I'll send you $5 or $10 tomorrow. You know your dad doesn't like for anyone in the family to spend money he makes but himself and I'm entirely broke. I doubt if I even have a dollar in the bank. Living expenses are awfully high and he isn't making so much, and saving less.

About your grandma. I'll not send for you unless she passes out, which is quite likely any time from the way the Dr. talks. He says there isn't a thing he can do but ease her suffering at times. Of course she may be with us for some time, and then again she might

Vick went by to-day and stopped to get Tip and he said if she was any worse he would drive down and tell me. He hasn't come so I'm taking it for granted she is the same.

You never told me how you made it Christmas night. I suppose you had it any trouble. I just had a sound with Betty. ~~Lelia~~ She wanted to go to B-ville to a ball game and I wouldn't let her go. She first wanted to get a bunch of girls and have Wayne Keith to take them. I vetoed that so she went to Helens and Garretts and Helen were going and of course they asked her to go. I knew they were just doing it because of Helen so I wouldn't let her go on Helens popularity. Well she threw a fit = to yours. Maybe I did wrong but she is only 14 and she can't keep up with Helen & Hannah Lou and she just as well not start it. Well we hit troubles everywhere don't we?

Helen said she saw a girl named Ann at Clarksburg, and she asked her who her boy friend was, and

Ann said she was trying to make up her mind between 3 sailors and a soldier. She said she guessed the soldier was eliminated since she had a letter from him saying he wanted to just be friends, and she guessed that was the way she wanted it too. Doris told Helen that the soldier was you.

Yes, your dad is working on the machine. Thats where some of his money is going. He spent $16.00 for some little gadgets that I believe he could have substituted until he gave it a trial. He says he couldn't, so probably I am wrong about it. Anyway he has high hopes. But he is awfully slow.

If you think of an improvement send it to him some way.

Well I hear the car horns honking in town, so I take it they won the ball game. I suppose Betty will take another cry now.

Well, Jack, I'm in a bad mood for writing a letter so will quit and try to do better next time. Write soon, and keep letting me know you are alright.

Love,

Mom

Hello Jack,

My address is Still Sand Fork, Box 85 in case you have forgotten. I thought you might be on maneuvers or sent some where else, but Doris said she was hearing from you often so guess maybe you had forgotten my address. Now that you have it again, how about dropping me a line?

Basel is home again. He and Betts and Doris are at the show. It is almost time for them to be back.

Guess what the boys have been doing to-day? Flying kites. And sure enough when I looked out through the kitchen window, there was Jim (your dad) with a kite high in the air and Jimmie and max watching. (remember about carrying string?)

Your dad is bringing in his bath room pieces a few at a time. When he gets it all he is going to lay off long enough to install it. He has the Pump, Lav. Commode and fixtures to them at home now. He expects his reception tank and Bath tubs in a few weeks.

He said to tell you he had looked

in Weston, Clarksburg, Shinnston and Fairmont to find you a Camera and could not find one like he wants to get you. Pearl is watching to see if any comes in at C-burg and is going to call him. A man at Fairmont took his name and address and the kind of camera he wanted and as soon as he gets them in he will write him. That seems to be all he can do toward getting it. He could get you a cheap Kodak no doubt, but he wanted a certain kind of folding one that you could carry with you at all times. Well lets hope he can find it soon.

Glenville High won the tournament last night. Mossy was chosen all state from this section and recd. several prizes.

Bob Marshall was in again this weekend. He went to the Tournament last night, but had to go back to camp to-day.

Your dad wants me to do some figuring for him, so will close. Hope to hear soon.

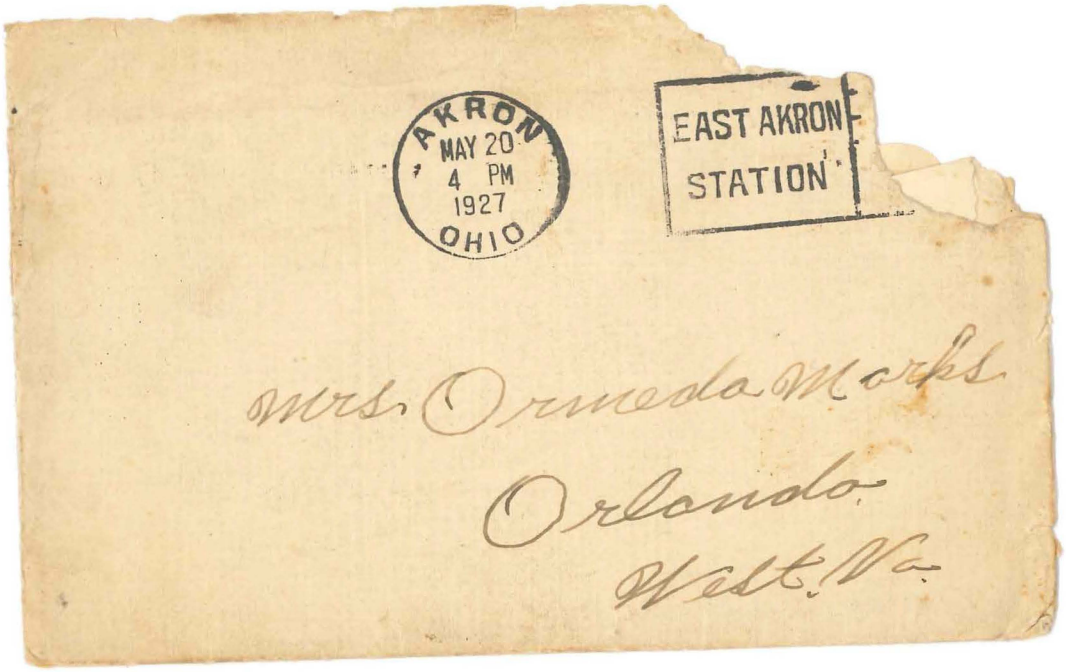

Love,

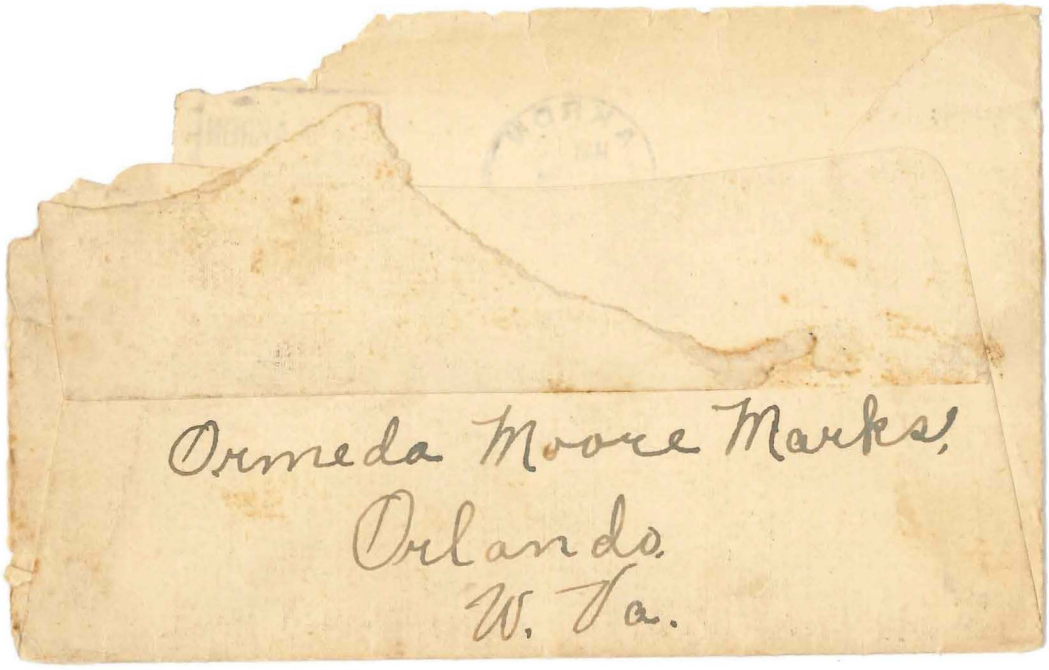

Mom.

FORM 539 A

It's Just Nature.

Ormeda Marks*

September 20, 1984

My name is Ormeda Moore Marks.

I was 81 years old Sept. 20, 1984 and I live at the mouth of Moore's Run. This small stream was called Moore's Run because my Grandfather Arnold Moore owned the land at its mouth and beyond.

Moore's run extends perhaps a half mile up a narrow valley to a small divide at the Locust Knob peak. On the other side of the divide the waters flow into Sliding Run.

Soon after the Civil War several negroes and their families settled at the very peak of this divide and established a community. They had all been slaves in Virginia and had travelled by foot to this area. The men walked over the hill to the Gilmer and Copen Creek Coal Mines and worked. These mines closed down after several years and most of the Negroes[1] left.

One family - John and Sally Kinney - bought their small farm and remained. It is of this family that I write.

John & Sally had each been married before and had several children but only one son was born to them. His name was Ross. Ross was somewhat deformed. He had a long body but very short legs. He could work however and made his living buying small pieces of copper rubber and brass. I have sold him many pieces for a penny or two. This I used to buy candy.

*transcribed from the handwritten document by Robert J. Marks II

[1]Sometimes Negro was capitalized. Other times not.

As my younger sister and I grew older, Mommy would send us to the little store on top of the hill to get some grocery items she needed and we had to pass very close to Mr. & Mrs. Kinney's home. There was no road, just a walk path. Mrs. Kinny[2] would always see us and call us down for a drink of cold water. She would always, it seemed, have cookies baked or a nice apple, or a pod of grapes. One time I remember she had some white grapes vining up a tall cherry tree. There were just a few pods left, and they were high. She called Mr. Kinny and had him climb that cherry tree and get the white grapes for us.

This, then, was my introduction of the colored race. Until this time I had never seen a negro. I got to know this family better as I got older.

Two daughters lived at Parkersburg and came often to see their parents as they grew older. The store on the hill had closed and my father had established a store and a Post Office here at the mouth of the run and they were forced to come down the run by my home to get to the store and Office. I must have followed Mrs. Kinney around like her shadow because we were washing out hands outside where mommy kept a wash basin and towels for this purpose, and after Mrs. Kinney had washed and was drying her hands I said to her "You didn't get your hands clean." She turned her hands over and they were white on that side, but the tops were dark brown. She said to me "That's just nature, honey, that's just nature."

Some years later, I was perhaps 6 or 7 yrs. old, the daughters from Parkersburg were here to visit their parents and they had brought some of their own children with them. I remember there was a little girl as black as ebony and another little girl that was blind. I was walking across the meadow toward church hand in hand with the little blond girl and I heard Rachel say, "Look Mrs. Moore, those girls' hair is exactly the same color." There was one difference in us that I noticed for my self. When we ran and got hot my cheeks would be pink, but hers would not be pink. Another thing that

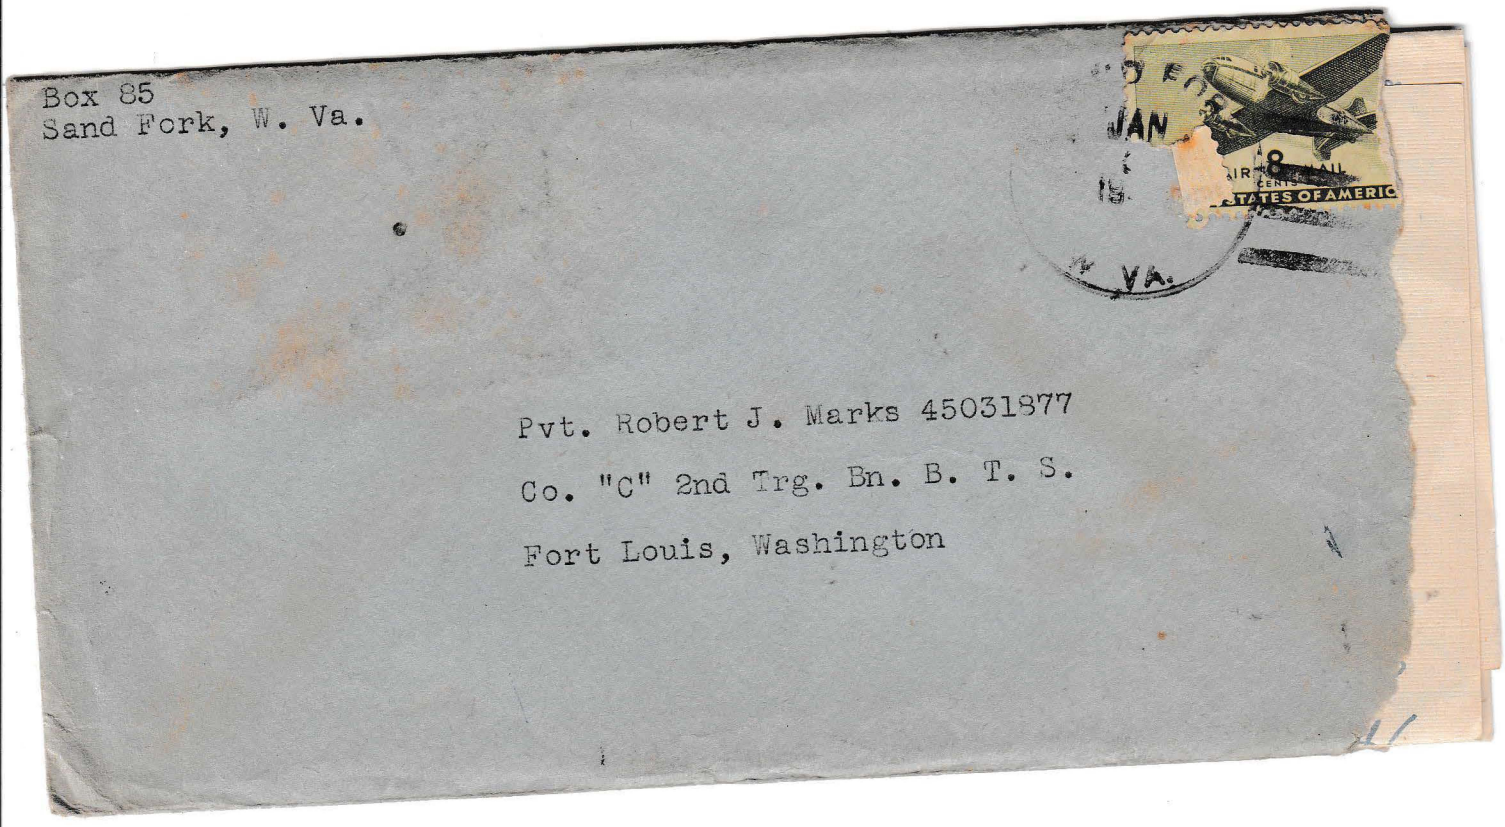

[2]The spelling of Kinney is inconsistent.

seemed strange to me was the fact that these negroes always sat together at the back of the church. I was never allowed to go back farther that the middle which I judged by the two old burnside stoves by which the church was heated. To my recollection they never took part in the services.

As time went on Sally and John grew older and less able to care for their own needs. Then one day their daughters came and took them away. The daughters lived at Parkersburg W. Va. I had a son living there too, and one day much later asked him if he knew any colored people by the name of Ogden down there. He said his sons had two friends whose name was Ogden. They went to school together and were good friends.

Later I had a back injury and was taken to the Parkersburg hospital for treatment. I had a nurse who reminded me so much of Rachel Ogden. I wanted to ask her about her people but decided the story was too long, and I never did.

Over the years I have learned of the racial inequality of the white and black races. I have seen on T.V. the work of Jessie Jackson, the assassination of Martin Luther King. Jr. I have seen many colored people who have important jobs in the Fed., State and local offices in government. Yes, the black race if our nation are now honored for their contribution to our society. Their contribution has been enormous, and I am glad I never see a black man that the words of Sally Kinney do not return to my mind, "It's just nature, honey, just nature."

Dear Son,

I received your letter of the 30th today. I am sorry you are broke and have a chance to leave camp. I hope you did as you suggested, and borrowed some money to go to town on. Your dad gives me $20.00 a week to run the house on and I'll save what I can from that and send you each week if it will help you out until you receive your pay. I'll send you $5.00 tomorrow. You know your dad doesn't like for anyone in the family to spend money he makes but himself and I'm entirely broke. I doubt if I even have a dollar in the bank. Living expenses are awfully high and he isn't making so much, and saving less.

About your grandma. I'll not send for you unless she passes out, which is quite likely any time from the way the Dr. talks. He says there isn't a thing he can do but ease her suffering at times. Of course she may be with us for some time, and then again she might not.

Vick went by to-day and stopped to get Tip and he said if she was any worse he would drive down and tell me. He hasn't come so I'm taking it for granted she is the same.

You never told me how you made it Christmas night. I suppose you had it any trouble.

I just had a sound with Betty. ~~Saturday~~ She wanted to go to B-ville to a ball game and I wouldn't let her go. She first wanted to get a bunch of girls and have Wayne Keith to take them. I vetoed that so she went to Helens and Garretts and Helen were going and of course they asked her to go. I knew they were just doing it because of Helen so I wouldn't let her go on Helens popularity. Well she threw a fit to yours. Maybe I did wrong but she is only 14 and she can't keep up with Helen & Hannah Lou and she just as well not start it. Well we hit troubles everywhere don't we?

Helen said she saw a girl named Ann at Clarksburg, and she asked her who her boy friend was, and

Ann said she was trying to make up her mind between 3 sailors and a soldier. She said she guessed the soldier was eliminated since she had a letter from him saying he wanted to just be friends, and she guessed that was the way she wanted it too. Doris told Helen that the soldier was you.

Yes, your dad is working on the machine. Thats where some of his money is going. He spent $16.00 for some little gadgets that I believe he could have substituted until he gave it a trial. He says he couldn't, so probably I am wrong about it. Anyway he has high hopes. But he is awfully slow.

If you think of an improvement send it to him some way.

Well I hear the car horns honking in town, so I take it they won the ball game. I suppose Betty will take another cry now.

Well, Jack, I'm in a bad mood for writing a letter so will quit and try to do better next time. Write soon, and keep letting me know you are alright.

Love,

Mom

Betty addressed the envelope. Pretty good even tho' she did misspell Lewis.

Hello Jack,

My address is Still Sand Fork, Box 85 in case you have forgotten. I thought you might be on maneuvers or sent some where else, but Doris said she was hearing from you often so guess maybe you had forgotten my address. Now that you have it again, how about dropping me a line?

Basel is home again. He and Betts and Doris are at the show. It is almost time for them to be back.

Guess what the boys have been doing to-day? Flying kites. And sure enough when I looked out through the kitchen window, there was Jim (your dad) with a kite high in the air and Jimmie and Max watching. (remember about carrying string?)

Your dad is bringing in his bath room pieces a few at a time. When he gets it all he is going to lay off long enough to install it. He has the Pump, Lav: Commode and fixtures to them at home now. He expects his reception tank and Bath tub in a few weeks.

He had wanted to tell you he had looked

in Weston, Clarksburg, Shinnston and Fairmont to find you a Camera and could not find one like he wants to get you. Paul is watching to see if any comes in at C-burg and is going to call him. A man at Fairmont took his name and address and the kind of camera he wanted and as soon as he gets them in he will write him. That seems to be all he can do toward getting it. He could get you a cheap Kodak no doubt, but he wanted a certain kind of folding one that you could carry with you at all times. Well lets hope he can find it soon.

Glenville High won the tournament last night. Missy was chosen all state from this section and recd. several prizes.

Bob Marshall was in again this weekend. He went to the Tournament last night, but had to go back to camp to-day.

Your dad wants me to do some figuring for him, so will close. Hope to hear soon.

Love,

Mom.

So don't worry about me. I received the cigarettes ok & they really come in handy. I sold two cartons as I was high & got $20.00 for them. That will run me until Payday.

Hello son,

Everyone is on the mend and I got a nights sleep last night and it looks favorable for another tonight. The children are all in bed now anyway.

See Jack you are heavy. Don't get fat now. Grow an inch or two taller won't you? Of course I didn't, but you can do things your mom can't do. You know this Henline boy from Burnsville that came down here with Andy when I took him to Clarksburg to get his suit? Anyway I believe it was Henline. He grew 6 inches taller while he was in the army. That's true too, for he was to see Clarice and Basel and they told me. I guess the chow must be good anyway nourishing.

I'm thinking you won't get a whack at Bob or Massy either. Massy wasn't called, none of this bunch were, and they are going to put him in College as soon as they can and ask for a deferment. I doubt if Massy passes anyway. You know he faints every once in a while now. Bob Marshall says he enlisted but I wouldn't be afraid to bet a lot, that he won't go either. He'd blow the whole works up anyway with his gab. I forget whether I told you about his little fuss at B-ville

or not. I'll just outline it again for fear I didn't and it was too good to miss. He called a boy from B— team a Son——— and he jumped off the floor and grabbed Bob before he could get away. He jerked him and said, "Will you take it back", and just then the B-ville coach & players started after the boy to make him get back in the game and Bob thought they were after him. He said "Yes I'll take it back, I didn't say anything but I'll take it back." At last the gang pulled the player back on the floor and Bob beat it. He got loose and took after him again but Bob got down in the basement and through a window and went out & laid down in the truck. Fine Soldier he'd make wouldn't he? Well that's Bob, anyway. Nothing to back up his blow. He'd better show up or shut up it looks to me.

I'm glad the army is teaching you to fight and now since you can, I hope it teaches you that in a world at peace you seldom have to. In war the beast that is in you is brought out & fed, but in normal life the beast in man is best asleep. Lying dormant will not kill the fight in man of good breeding. When the need arises it comes out as strong as ever. Look at the trees in winter. Just a little sun & rain in spring and they are ready to come out and do battle with the elements. Man is like that too. It takes only a necessity to arise and he is ready for battle. Let the army change you physically if it will Jack but don't let it change your good heart.

This sounds like a book & sing. I read it. But dead I never copied it.

Protect your rights & pride of course, but don't settle old scores with fights when it will do no one any good. If Glen D. tries again since you are grown to pick a fuss why accomodate him, but I don't think he will unless everything is to his advantage. Just forget that. But I don't care if you do punch Bobs nose a little. Don't hurt him you know, just punch him.

Eight weeks will soon roll around if you are doing work you like, and I believe you are liking it some now. That will be sometime in March. Yes, I know you will get to help me plant potatoes. Chee hee

No, Jack I haven't received any bonds. They will probably mail them when they make up your pay. Don't they take the money for them from that? I think you were wise, and you can rest assured they will be yours when you come home. If it became necessary for me to cash any, it will only mean a loan from you to me, and I don't think the necessity will arise. You will need some money when you leave the army, and as you say that will be the only way you can save. I hope to have some kind of business for you to look after when you come in, but I don't know, son, whether I can handle it or not. It seems as if your dad never does anything but build mental pictures. If I were so I could push him a little kid

be O.K. but I can't get away on time to help him.

Sutton plays at Sand Fork to-morrow after-noon. They are having the game in daytime so the school children who ride the bus can go. Jimmie wants to go.

Well I must go fasten my chickens and go to bed. See I wish you were here to do it as it is blowing and snowing to beat everything. And then you liked to so well you know. ? ? ?

Don't worry about Basel marrying. You aught to hear him preach about the others. Andy especially. He says a sane man won't get married. Wouldn't surprise me if he doesn't pick up some girl and make a fool of himself. He hasn't come home yet.

Jack, Wanda & Beck are the happiest two people I have seen in a long time. I'll just bet they make a happy life for themselves. I do hope so.

Good-night son,

Love,

Mom.

THE EUREKA PIPE LINE COMPANY

ROOM 31 - 210 SENECA STREET

OIL CITY, PA.

D. L. THOMAS
AGENT

April 12, 1933.

Mr. U. G. Moore,
R. D. 1,
Orlando, West Va.

Dear Sir:

In going through our unfinished business, we find that under date of February 2, 1933, we wrote to you in relation to the estate of J. L. Moore, who, according to our records, is interested in the account of J. L. Moore et al, which account is being credited with a 1/16th royalty interest in the South Penn Oil Company's wells on the Arnold Moore farm, Glenville District, Gilmer County, West Va., tank No. 99295. In the above mentioned letter we stated that in order that we would know to whom the interest of J. L. Moore in the account of J. L. Moore et al should now be credited, it would be necessary that we be furnished with certain papers in the estate of J. L. Moore, and for your information and guidance we enclosed a printed form showing the requirements of The Eureka Pipe Line Company in settling estates, which would fully direct you in the matter. Up to the present time, however, we have not been furnished with the necessary papers in the estate of J. L. Moore, nor have you favored us with a reply.

If J. L. Moore left a will, we should be furnished for our files with a certified copy of his will with a certificate of probate attached, and we should also be advised the exact date of his death. If, however, J. L. Moore did not leave a will, but died intestate, we should be furnished with an affidavit, made by someone familiar with the facts, to the effect that J. L. Moore died intestate, giving the date of his death, leaving to survive him a widow, naming her, or no widow, as the case may be, and the following children, naming each of them, as his only heirs at law and the only persons entitled to inherit any part of his real or personal estate under the Intestate Laws of the State of West Virginia. If any of the children are minors, the affidavit should note the exceptions, and it will be necessary for the appointment of a guardian for them, and we should also be furnished with a short certificate of the guardian's

Oil City, Pa.,

appointment.

On receipt in this office of either the certified copy of J. L. Moore's will or the affidavit, we will then prepare the necessary division order crediting the interest of J. L. Moore in the account of J. L. Moore et al as directed, and will mail it to you for execution.

The oil in the account of J. L. Moore et al is being held awaiting receipt here of the above mentioned papers, and the value of the oil is slowly being eaten up by delayed shipment charges which are charged monthly against the oil.

As stated in our letter of February 2, 1933, the account of J. L. Moore et al, J. L. Moore, Attorney, is composed of J. L. Moore, U. G. Moore, Nathaniel Hefner, Sarah Tomblin, Thermutis Mich, Sibyl Devol, Lona Cox, Archie Cox, Elizabeth Cox, Lillian Moore, Clem Cox and Mable Cox. The division order whereby J. L. Moore et al certified to their ownership of the above 1/16th royalty interest was filed in this office on December 16, 1908, and it is possible that some of the other persons composing this account are now dead. If so, we should be so advised, and it will also be necessary that we be furnished with the above mentioned papers in each estate.

Thanking you for your kind attention to this matter, we remain

Yours very truly,

D. L. Thomas

COMMITTEE ON
EDUCATION AND LABOR

Dear Friends:

Relief workers have been fired because the administration claims there is not enough money. In West Virginia, between ten and fifteen thousand workers have been discharged. My battle has always been to see these workers get a fair deal. Here is one incident:

Forty-five West Virginia W. P. A. project bosses who receive $200 or more per month had salary raises since the November election. These are charged to the projects, not to administration.

Eighteen of the forty-five were receiving $200 or more before the raises were given. Twenty-seven were boosted into th select $200 or more class.

These 45 favorites had received at the rate of $97,240 a year in November. They were boosted to a rate of $115,560 a year in May.

The raise of these 45 would pay the salaries of 44 W. P. A. workers for an entire year. Every one of the 45 bosses could still be employed at their former salary and the salary raise would have paid the wages of 44 workers for a year.

Forty-five W. P. A. project workers received $18,900 a year for a year's work (without any loss for any cause). They continued to get $18,900 a year. No raise with them.

My other letters have shown the rise of W. P. A. rolls before election and a decline afterward. The cause given to many workers was "lack of funds", yet, money was available to raise the salary of those in the $200 class.

Who has been the real friend of the W. P. A. workers? I say salaries should not be raised when thousands are begging for work to feed their families. Five hundred W. P. A. workers in West Virginia could receive their next monthly check if the salary raises had not been given. Could these raises have been caused by work in the November election? You be the judge.

Sincerely,

Rush D. Holt

TO WHOM IT MAY CONCERN:

From information at hand it appears that you are probably a near relative, or the guardian, of a patient in a State institution. For this reason the inclosed conditional order for support is sent to you. Attached to the order will be found blank forms for reply. Before answering, carefully read the law, printed on the second page, covering these matters.

We hope that the financial condition of yourself or of your ward is such that you can easily and cheerfully support this person, and that you will at once sign the "AGREEMENT TO SUPPORT;" but if you can not do so, answer as fully as possible all the inquiries under the "PETITION FOR RELEASE." Dear folks

Sit setting here on my bunk thinking of you all & what your a doing. You are all probably in bed & asleep as it is 10:30 here & three hours later there.

I haven't heard for sure when I go to Texas but I heard a rooner that a bunch of us was leaving the 20th of May. When we do go I get 15 days delay in route & 5 days traveling time. If you think it will be a good idea to come home I would love it. If you don't have the money to spare you can let me know. The other day when we signed up to go I took the 15 days as it would be my only chance & I didn't have time to ask you all.

Is the old car in running shape. I hope so as I have some plans which involve it. I want to tell ya for one thing and another is to have a talk with Lenora, don't worry about me being soft but I just want to get things straight.

How is fishing now Dad? I'll bet they are thick up at the farm. I would like to see Grace pull in a shiny nice one. I'll bet he would be tickled pink.

How are you doing in school Jim? I bet you learned a lot this year. When I come home I want to see you write my name so practice, will you.

How are you Max? Think you can whip me when I see you? I'll bet you are good with that

Mr. U. G. Moore,

Dear Sir:

We have your letter of the 10th inst., continuing our correspondence in relation to the account of J. L. Moore et al, J. L. Moore, Attorney in Fact, which account is credited with a 1/16th royalty interest in the South Penn Oil Company's wells on the Arnold Moore farm, Glenville District, Gilmer County, West Va., tank No. 99295. In your letter you state that the division orders we prepared and sent out for execution are not correct, as the above 1/16th royalty interest should be divided up into seven separate accounts instead of six accounts. You further state that Lillian Moore Hall is the only heir of R. M. Moore and has a full share of the oil and gas in the above farm. This is the first intimation we have had that Arnold Moore had seven children, and when we sent out the division orders for execution we were of the opinion that Arnold Moore had only six children.

It now appears that you are the owner of 1/7th of the above 1/16th royalty interest, or 1/112ths royalty interest, and we have prepared and are enclosing herein a new Eureka Pipe Line Company's division order, including oil in lines, whereon you may certify to your ownership of a 1/112th royalty interest in the above farm. If you find this division order correct, please sign it yourself on the line where we have penciled for your signature and return it to this office for our files, and this 1/112th royalty interest will then be credited to your account. It is only necessary for you to sign this division order as we are sending out division orders whereon the other persons whose names appear on this division order may certify to their interest, with the exception of Thermutis Mick, as we have not been furnished with papers in the estate of Thermutis Mick. Please do not execute the division order we mailed you on June 5, 1933.

We are also enclosing a standing purchase order for your account, and if it is desirous that oil credited to your account be transferred, as run, to the credit of the South Penn Oil Company, please sign this standing purchase order on the line where we have penciled for your signature and return it to this office with the above division order for our files.

In your letter of the 10th inst. you state that you

do not have the address of Ernest Mick. In your letter to us of May 6, 1933, you state that Grant Mick was the only heir of Thermutis Mick. Will you please advise us the correct name of this heir of Thermutis Mick, ~~whether it is Grant Mick or Ernest Mick, and, if possible,~~ will you please advise us to whom we could write in relation to the estate of Thermutis Mick?

The Great Imitator

This pamphlet is presented by the Metropolitan Life Insurance Company as a contribution to the campaign against venereal diseases, *and especially syphilis*, carried on by the U. S. Public Health Service, the American Social Hygiene Association, State and local Departments of Health, and medical societies.

Prepared with the cooperation and advice of
the AMERICAN SOCIAL HYGIENE ASSOCIATION

THE GREAT IMITATOR

SYPHILIS is a disease which does not respect any age, sex, race, or social class. It has inflicted misery and death for hundreds of years; in past centuries, because no one—not even physicians—knew the nature of the disease or how to cure it; and in this present age, because the knowledge which science has attained for its prevention and treatment is not generally applied.

The fight against syphilis is hampered because the nature of the disease has prevented open warfare against it. It can be stamped out only if the facts about it are known and used to prevent its spread and to secure prompt treatment for its victims. Every man and woman and every adolescent boy and girl should be acquainted with the seriousness of the syphilis menace, the manner in which this disease is spread, what its symptoms are, and how it may be cured.

The Prevalence of Syphilis

On good evidence it is believed that syphilis strikes at least one in every 20 persons—or 5 percent of all the men, women, and children in the United States. More are infected in some localities, less in others. While the preva-

lence of syphilis varies greatly with the race, age, location, and customs of the individuals studied, these figures mean that there are now, in the United States, about 6,300,000 individuals who have been attacked by syphilis. This number includes both old and new infections. Approximately 500,000 people a year seek treatment for syphilis for the first time. In addition, an unknown number of infectious cases go untreated. A large proportion of these untreated infected persons are an unrestrained menace in the community, because they are not taking precautions against spreading their infections. Many are attempting self-medication or are going to advertising quacks—measures which are useless and even detrimental to the patient and to all those with whom he comes in contact.

What Causes Syphilis

Syphilis is caused by a germ called *Treponema pallidum*, which may enter the body at any point through the skin or mucous membranes. The moist mucous membranes of the lips, mouth, nose, throat, and genital organs are particularly susceptible, and the organism can penetrate even though there is no perceptible break in these tissues.

How Syphilis Is Spread

Communicable disease germs are carried from the sick to the well in various ways. In typhoid fever the water, the milk, the housefly, or the healthy human carrier is usually responsible. In yellow fever it is a mosquito; in bubonic plague it is a rodent flea. In the case of venereal

disease the germs are spread by people who are already infected. Most cases of syphilis are acquired during sexual intercourse. However, many cases come from contact with other sources of infection.

Syphilis may be passed from one person to another by kissing. Occasionally it may be acquired by contact with an object recently soiled with discharges which contain living syphilis germs. Common drinking cups and towels, pipes, and articles which are used where sanitary precautions are not taken are among the sources of infection discovered in certain cases. Fortunately, infection from such sources is comparatively rare because, while the germ of syphilis is difficult to kill once it has entered the body of a victim, it is easily killed outside the body by drying in ordinary air, exposure to sunlight or to soap and water, and by such sanitary measures as are practiced by careful and well-informed individuals.

Congenital Syphilis

A pregnant syphilitic woman may infect her unborn child; in fact, she is almost sure to do so if she is not treated during pregnancy. A large proportion of the children of untreated syphilitic mothers are born dead, and many born alive die in early infancy. Those who survive may suffer all the destructive effects of the disease —defective bodies or minds, blindness, deafness, and other serious results—if they are not properly treated. Fortunately, through timely and adequate treatment of the woman during her pregnancy, the child can be given a 90

percent chance of being born healthy and free of the disease. Recent statistical reports reveal that if a syphilitic woman is treated by a qualified physician before the fifth month of her pregnancy, she will probably give birth to a normal and noninfected child. Every pregnant woman should insist on blood tests as part of the general examination and prenatal care given her by her physician or clinic.

There is a record of one family of six children in which every child was afflicted with what was supposed to be tuberculosis. Upon investigation, however, it was found that the mother had syphilis and that she had been infected by her husband. The children were suffering from this disease and not from tuberculosis. Under treatment the children improved. Understanding on the part of the parents might have prevented the infection of the children or at least have given them a better chance for cure through early treatment.

The Great Imitator

SYPHILIS is all the more insidious because often those suffering from it are not aware that they have it. They may be a constant source of danger to others and, because they do not know that they have been infected, they fail to get the treatment that would check the ravages of the disease or effect a cure. A person may have been infected without his or her knowledge and have no idea that the disease is entrenching itself in the body, slowly bringing serious harm to the heart, blood vessels, nervous system, and other vital tissues and organs.

It is not ordinarily possible for the lay person to detect those who are suffering from syphilis. Most people suppose that the condition of the skin is evidence of infection with this disease, but this is not always so. The skin may or may not be affected. Often those suffering from a severe attack of the disease show no skin blemish and are not incapacitated in any manner which may be detected in any way other than by a suitable medical examination which includes a blood test for syphilis.

So frequently is syphilis the cause of illnesses attributed to other diseases that many hospitals of the country and many of our leading physicians make blood tests a routine practice in the thorough examination of patients.

Dr. William Osler called this dangerous disease "The Great Imitator," for in its late stage it may be mistaken for many other diseases—as, for example, psoriasis, tuberculosis, cancer, sciatic rheumatism, arthritis, and various other diseases of the skin, heart, lungs, kidneys, and brain. Syphilis is the common cause of locomotor ataxia and of general paresis, or general paralysis of the insane.

The Course of Syphilis After Infection

The First Stage. Syphilis runs through several more or less characteristic stages. The primary stage usually begins as a local sore, called the chancre, at the point of contact with the infection. The chancre appears from 12 days to 40 days—on the average, three weeks—after exposure. It may be merely a red spot or blister or pimple, or it may develop into an ulcer of considerable size. As a

rule, the chancre is very hard and feels like a button or a piece of cardboard under the skin. It is usually painless. The lymph glands that drain the area which has become infected become markedly enlarged. Therefore, if the chancre appears on the sex organs, the glands in the groins become enlarged. If the chancre is on the lip, the glands in the neck will become swollen considerably. As a rule, these enlarged glands are not painful. A chancre on the lip may resemble an ordinary cold sore. Within a few weeks the chancre will disappear, even without treatment, leaving nothing obvious to show that the disease is present. Syphilis is a great deceiver.

The chancre stage of the disease is very infectious, although the blood in this stage does not show a positive reaction to the Wassermann test for active syphilis. However, the germ can be detected by microscopic examination. Treatment begun in the chancre stage offers the greatest chance of cure and of escaping the destructive results of the disease. Hence, early diagnosis is extremely important.

Even experts can seldom diagnose syphilis with certainty from its outward manifestations alone. Often there are no outward signs. Laboratory tests which include microscopic examination must be used as aids in diagnosis.

Comparatively few people realize the importance of consulting a physician as soon as possible after symptoms appear, or as soon as there is reason to think they have been exposed to infection. If the infected person places himself under treatment immediately after exposure, or before the blood becomes positive, he has an 86 percent

chance of cure. If he waits for only a few days or weeks the Wassermann or other tests may become positive, and then his chance of cure is reduced to 64 percent. If he is irregular in receiving treatment his chances are much further reduced. The medical care he receives *must be competent.*

The Second Stage. The secondary manifestations of the disease are often characterized by a skin eruption which may resemble the rash of measles or chicken pox. This rash may or may not be accompanied by other disturbances, such as mouth sores, fever, headache, sore throat, falling out of hair, feeling "under the weather." The skin eruptions are infectious if they are moist. Mouth sores, which in this stage may resemble canker sores or trench mouth, are dangerously infectious. The patient may infect others through kissing. The secondary manifestations also are often so inconspicuous or mild as to escape notice or the recognition of their true character. They, like the chancre, will disappear after a time, even without treatment.

The Latent Stage. The disease now tends to pass into a latent stage. During this stage there may be no symptoms for many years to indicate its presence to the patient; or skin eruptions, mouth sores, and other disturbances may come and go from time to time. But in this latent period the disease is undermining vital structures and organs so that in a period of two to 20 or more years the infected persons may become seriously crippled or completely destroyed.

The Late Stage. The more common late effects of syphilis are fatal affections of the heart and blood vessels, blindness, deafness, and tumorlike growths which may destroy any of the tissues or organs of the body. Among the most serious effects are the attacks of the disease upon the brain and spinal cord. These bring various forms of mental derangement, convulsions, and paralysis, leading on to that almost hopeless condition, paresis, or general paralysis of the insane; or, if the spinal cord is mainly involved, progressive loss of muscular control (locomotor ataxia or tabes dorsalis) and loss of other important muscular functions. These later destructive changes of syphilis constitute the last stage of the disease.

Syphilis Can Be Cured

THE terrible results which have been noted come from neglected syphilis. With early and adequate treatment none of the destructive consequences need develop and the disease can be arrested and often cured. But this cannot be achieved in a week or a month. The patient must be under the care of a competent physician for from 18 months to two years, regardless of how well he feels or of negative laboratory tests, before he can be certain of his cure. He must receive continuous treatment by his physician with certain specific remedies. He must have blood tests and perhaps spinal fluid tests at intervals in order to ascertain the state and the progress of the recovery. The physician will give him rules to follow at home to help with his cure and to prevent transmission of

the disease to other persons. The disappearance of symptoms does not mean that the germs which have penetrated the innermost parts of the body have been killed. The symptoms may recur, and in a more painful and dangerous form. Only the physician can tell when the cure has been effected.

When after a year or more of persistent treatment repeated examinations show satisfactory progress, the patient may hope that not only an arrest but a cure of the disease has been or will be accomplished. He may eventually be discharged as cured, but he will require periodic examinations by his physician for several years to make sure.

Summary of the Consequences of Untreated Syphilis

It is responsible for many children being born diseased, most of whom die in early life.

It is the cause of many abortions, miscarriages, and stillbirths (children born dead).

It is the cause of 15 percent of all blindness.

It is the cause of paresis or softening of the brain.

It is the cause of locomotor ataxia.

It is responsible for more than 10 percent of all insanity.

It is often the cause of apoplectic and paralytic strokes.

It is responsible for a large proportion of diseases of the heart and blood vessels.

It may affect the kidneys, stomach, and other vital organs.

It decreases earning capacity.

It decreases the length of life.

The Importance of Competent Medical Treatment for Syphilis

THOUSANDS of people have made tragic and needless sacrifices of life and happiness to this disease. Too often they seek treatment from the medical charlatan who advertises sure cure, or they try self-medication. There is no quick, easy way to cure syphilis. No individuals, except qualified private physicians and experienced members of hospital and clinic staffs, are competent to give the skilled treatment that is required to cure syphilis and other venereal diseases. Many of the larger cities have established free venereal disease clinics to which are attached staffs of specialists, and these clinics give treatment to individuals who cannot afford to go to private physicians. Any health officer or local medical society can give information about these clinics and about qualified private physicians.

Self-treatment and the use of medicines advertised as a cure for syphilis are worse than useless. Syphilis can be cured only by treatment with certain special drugs which are dangerous in the hands of anyone not trained in their preparation and use. They must be freshly prepared and standardized by trained persons and carefully administered by physicians. The quack does not know what the proper remedies are or how to give them. While he is giving fake remedies the disease is spreading unchecked through the body of the infected person. The patient

thinks he is being cured, but he is wasting his money, losing his health, and risking his own life and the lives of his intimate associates.

The Value of a Health Examination

EVERY person should have a competent physician look him over at least once a year. Only a physician can properly diagnose his physical condition. A thorough examination will often bring to light evidence of serious diseases such as cancer, tuberculosis, or diseases of the heart at a time when these conditions can be arrested or even cured. A blood test for syphilis included as a routine measure in the periodic health examination is a valuable precaution to take. Early evidence of infection followed by adequate treatment offers the best hope of cure.

The Control of Syphilis

Syphilis is a disease that can be conquered only when the facts about it are known to all the people and when a knowledge of these facts is used to prevent its spread. The reliable physician is the friend to whom one should go immediately for assistance upon the first suspicion of having been exposed to danger.

Further information on this subject may be secured by writing to the American Social Hygiene Association, 50 West 50th Street, New York, N. Y., or to your local medical society, or to your City or State Department of Health.

NOTE: Syphilis is only one of the group of diseases known as the venereal or sex-borne diseases. Gonorrhea is another of this group—a disease entirely distinct and not to be confused with syphilis. Gonorrhea, at first a local inflammation, is highly infectious. When it invades the internal organs it causes serious trouble, particularly in women. If the germs get into the eyes of the newborn baby during birth, blindness may ensue. Drops of a 1 percent solution of silver nitrate put in each eye as soon as the baby is born will in most cases prevent eye infections. Every mother should expect this treatment for her newborn baby. In most places it is required by law.

Gonorrhea is a difficult disease to cure, and the only wise advice which may be given to anyone infected is: "Go to a competent physician at once."

Dear Sir:

We are in receipt of your letter of recent date, and in view of the facts related and the manner in which you have heretofore met your obligations, we are pleased to advise that we are marking our records ahead to May 5th on your promise to pay on or before May 1st. If you find that you cannot pay by May 1st, please write us again.

However, we trust that you will make every effort to do so, as the Bank depends on these semi-annual payments to meet its own expenses, and pay the interest on the bonds which we sold to the public to secure the money to make your loan and other loans.

We assure you of our interest in your success.

AMERICAN RED CROSS

Hello Mom,

Received a couple of your letters yesterday. Am glad that you are all well & wish I could be there with you. They keep me wondering now about when we are coming home. They say now it may be until Aug. Sure hope they don't wait that long. One thing is for sure about the army. When they say they are going someplace you can't be sure they will get there until you are on your way.

Went digging last night. Got odd rainbow trout. There aren't so many fish here & the water is too swift to do much good. To top it all trout are post & there only have a one pound limit (apiece) Made me think of home a lot. Two things were

a little diffrent. The water was colder & I didn't have to look out for the last.

Was glad ever talked in favor of a garage. Hope he decides to put one in. Hope he decides too. as I would like to help when I get out. Don't know any thing else & when he is finished with it I could buy his part & run it myself.

Not much news from here you don't read about in the papers. Am well & like the Out Post duty fine. Don't mind pulling guard when there is something important to guard.

Write often

I'm sending you. $10 bill
Mamma sent me to get you
some stamps and Tobacco with
and I'm down with mumps and
can't go to store so I'm sending
it to you may be you can get it.
You tell Mam. that I sent it
to you.

Mom has been awful sick
some better now.

I tried to get her to stay here
this winter, and Victor wanted
her to stay but she wouldn't.
Victor stayed here 3 or 4 weeks
but headed for work again, can't
keep track of him, for he says he's
not one place long enough to
vote. I under stand. They are

letting the mortgage foreclose on the farm right now, so it looks like were all loosers. one could not keep up payments for all the rest; then all come equal with each other.

Mom talked about buying your share if you'd sell, but she has to have help from some source to run this farm she can not run it alone nor she can not keep the farm going with two or three families living off it; and making nothing in return. As far as my self I'm Interested only in her welfare. we can live, but can't save much. I've been sick now for over two weeks. wasn't well to begin with then took mumps on one side, waited a week and then took them on the other. four of us has them. Mildred is out of school now, and she has tried so hard to Graduate this year.

Well Randolph let me know, and if you can't get your tobacco, I'll manage to get it when my mumps are gone Write to Mom — if you never write me and when you get out don't get in again I'm praying for you yet to be good and quit worrying Mother. I tell you she's in bad health My love is for you and hoping you are well.

A regular payment on your loan became due and payable at this Bank on the date specified. It remains unpaid and your remittance MUST reach us without delay.

Dear Jack,

I received your letter the other day and decided to answer back sooner than I did the other time.

How is everything treating you? Fine, I hope.

I was over at Dan's a little while ago. She has been sick for about two weeks. Jackie didn't go to school today either, but naturally I did, why can't I get sick. Maybe I'm just too darn lucky.

I have been spending most of my time, skating, which is only natural for Dan and me to do. I am learning a few things on skates and it is a lot more fun to skate now.

Nothing much happens around here worth while writing about, same

old Clarksburg busy as ever doing nothing.

Ryan asked me if I would date ryan while ryan are in Clarksburg - yes I will & would like too.

I have a test in Social Science tomorrow, and should be studying, but I would rather write to ryan.

Well, so long and take it easy. Write soon.

Love,
"Jo"

I haven't any pictures of myself at the present, but as soon as I get one, I'll send it to ryah. How about ryan sending me one of ryourself ? ? O.K. ? ? ?

Orlando, W. Va.

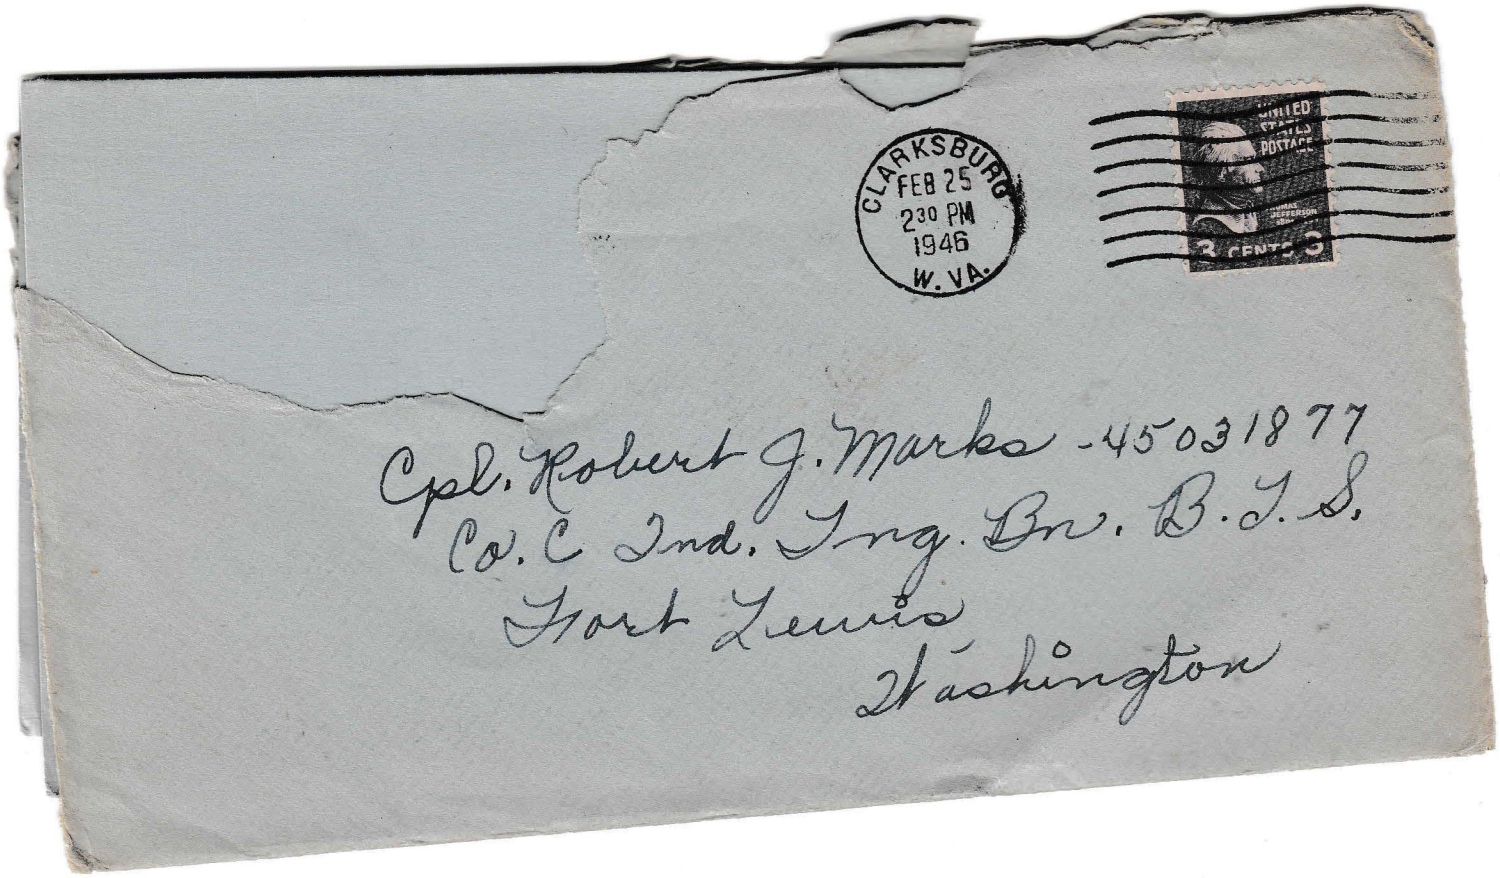

Dear Sir:-

It seems fitting in these times of economic distress, with the resulting low and inequitable prices that farmers are receiving for their products, that we should indicate our attitude toward our borrowers.

We wish to express our appreciation to and admiration for those farmers who have had the will, the ability and the skill to operate their farms successfully and who have met their obligations to this Bank. The great majority of our borrowers have done this but some have not and, since the success of the Bank and of its future operations hinges on the ability of its borrowers to pay, it would be a source of considerable concern if the number of delinquent borrowers should increase.

The Bank's collection policy does not favor a moratorium or general extension of time on all maturing and past due obligations, but it recognizes that it is not always desirable to take advantage of those provisions of our mortgage which enable us to foreclose a mortgagor who is unable to comply with the terms thereof.

It is the purpose of the Bank to consider each case individually on its merits, and to give every reasonable consideration to deserving farmers unable to meet their obligations. The Bank's definition of a deserving farmer is one who is making an earnest effort to meet his obligations, is giving the land and buildings good care, is using such skill in the operation of his farm that there is a reasonable prospect of his ultimate success and who is applying the production of the land to the payment of his obligations in the order of their importance; namely, the operating expenses, the necessary living expenses of himself and his family, the taxes, and the installments on the Land Bank mortgage. Where these conditions exist and this performance is had, THE BORROWER IS RECEIVING EVERY CONSIDERATION.

Dear Jack,

Sorry I have'nt taken so long to answer your swell letter and thank you for the lovely valentine, it was sure pretty. I liked it a lot.

Well, how is Army life treating you now, fine I hope. My brother was home for 60 days, went back last Friday. I sure had a lot of fun while he was home.

It is snowing now, it is about time for it to, as we have hardly had any at all. Yesterday it was too hot for February. In fact I am hot now - dad just put more coal in the furnace - no wonder, huh?

As for school and me, we are getting along as usual together, which is good

sometimes and sometimes not. We haven't got our class rings yet, we were supposed to have gotten them in Dec. sort'a odurdue - huh?

This is all for now and answer when you find time.

Love,

Re: Loan #10560

Dear Sir:

We are in receipt of your letter of recent date, wherein you request additional time in which to take care of your indebtedness to this Bank.

On April 14th the Board of Directors of your local Association, with a Fieldman of the Bank in attendance, will hold a meeting to pass on the delinquent borrowers' accounts. If you will attend the meeting your request will be given due consideration. Please be prepared to make a payment, or at least present a definite plan for payment.

The Association endorsed the loan, and consequently must furnish the Bank with suitable recommendation.

I love you! Hope your week is going fast - so we can hurry & be together.

Mom said she decided she didn't want us to elope. I got my car out - 65¢ worth & the brakes still aren't that great. I also got some windshield wiper blades.

I may not go to work tomorrow for I'm still sick & overwhelmed with home work.

I'm waiting outside of Psych. class to get a paper signed for my income tax. I'm going to get it. But sorry sheet & work may arise later on.

I love you a lot & miss you. Today I was really wishing you were here to rub my neck & kiss me. I feel a closeness towards you which keeps growing deeper.

Love you - don't forget to pick me up at work Sat. 9:40 Connie

Hi Honey,

I couldn't resist this card - so you get a bonus - 2 in one week - - - besides I miss & love you alot. I went home last night - Rick may or may not get our pictures ready - Mom said he is super busy right now. I'm going to spend more time at home now, if I can, for my mother needs me. She is truly starving to death! She doesn't look it because her excess water is swelling up her tissues. She isn't eating anything - one day all she had all day long was 1/2 cup of soup & some days nothing. She has lost her appetite since it's so much trouble to get something to eat. No one can fix her anything & unless she goes to the store she doesn't eat. Being emotionally upset, she burst into tears when I walked in the room & she felt I got her to eat an egg & she felt better. I'm really worried about her honey, because she could easily get in a very sick

May 9th

Dear Bob,

Hi Nancy. Here it is - another few weeks of this place and then it's the Friday after next, June 13th, is our last day. Some of the kids are leaving this week & next, but I'm sure I'll miss them.

Well, about getting our different ideas, I think the word independence has a different meaning to each of us. The way I talked about it, you gave to the conclusion that I wanted to be this island you spoke of. That's where you were wrong. I'd hate to be isolated, because I love people & couldn't live without them, & couldn't want to try to. You still didn't actually understand what I meant, since my ideas must of seemed somewhat vague. In answer to that, I don't think of independence as being cut out of life. I want to live as much as anyone else. You got the impression of not wanting a social life, etc. which isn't true. By being independent, all I want is to be able to do as my own when it comes to solving my problems. I don't want to have to put my weight on the shoulders of others, though I do lean on people for help in other situations, but why should I make myself

a bad. Nobody likes to hear a person brag & complain to them all the time, and so I try not to. But I do like to help others. Most of the people I know think of me as a happy person generally, & it isn't a cover-up. I am happy, but everyone has their troubles, really, & I prefer to keep them to myself. I don't pry into the personal affairs of others & expect to get the same, but you always think of things more serious than they are because you try to get deeply involved, & then the smallest problems start. Maybe it's the right thing for you you to do, to try & get involved in a situation in order to help, is probably one of the best ways to go about it, but there isn't any need to create more, though we all do sometimes.

When I first met you, I got definite impressions that you wanted to be that island, somewhere. You told me once, that you don't need anybody, but Saturday I guessed you saying everybody needs somebody, contradicting yourself just as I have, so evidently we both are mixed-up, but it isn't anything to be ashamed of. Well find your own way, just wait and see.

decisions, we will regret it later when it really counts. We have plenty of time (boys) to do plenty of things, only right now, our #1 one of them. Please think about it, and I hope we will be able to talk about it when you come back home. I don't think we have to be afraid to talk to each other about such things, especially if we can be truthful & trustworthy. Give also back thinking about that too property, & if we don't take care of it, or let time take care of it, then we both know what a problem it can mean.

After that that, I want you to realize, that let your mom respect for you, if you didn't ask me to go out to drive-ins, and places like that anymore. It would be showing you care & if you do, let me know. It isn't only a matter of keeping up a good reputation, but there are other reasons that play an important part. Personally, I was never the type to enjoy such places & never had any desire for them.

Also, a lot of kids pick-up to drive-ins & parks & just parking to make. They, kids & do go anywhere

they can find, except to
them. When I see a person
wearing you, I want to be found
of it without need to turn off &
hide. It's good enough for me to
sit. Have me go to a movie or
just driving around rather than
reading about. I read about
a guy at this school who hit the
dissection & they must be pretty low-
down. It's not saying there aren't
girls like that, or there is, I read,
but what good will life do them &
I do you sorry you young kids
like that, that don't read any
better. So, if you don't my respect
you must take it & I read you
will, as I'll try, may have to earn
your respect it, maybe not.

I don't want you finding
that I'm depriving you of any
"good times" by asking you to
give-up drive-ins, dolls. I don't
want you giving up anything.
If you want, you can always ask
Jeanne or Jerry to go out to
those places & I think they'd be
happy to. I wouldn't have any
hard feelings as I'm trying to
[illegible]. They may be the types

My girls who enjoy going out anywhere but I can't change for you lazy, so please don't ask me to be like them. I have to be myself & if you do enjoy their type of company, then I can't do anything about it. It hurts me to try & be like them because I simply can't be someone I am not. I didn't mean to bring up the name of grandad for arguments but only to express myself the best way I can. If you don't give me any explanations & don't attempt to play the role, you can't, and I won't try to be like someone else either. Do you understand now? If there any questions, in your mind, come out & ask me.

I think I've brought up a touchy subject now. Don't take this the wrong way, but I've noticed that Jack & Chris have been getting into it lately, & things just haven't been smooth for you recently. I know that Jack wanted to & has been taking Spanish out. If you know who I'm talking about, Robin. Don't worry - I've known & learnt to avoid since & I don't intend to. This is between you & me. So I hope

it ask me. She asked I waited until now to tell you is because I didn't want you telling Jack & getting him more upset. I know he's emotional he gets that & didn't want to worry him. I figured if he saw you Friday night like you said, that he told you about it, & I'm sure he did. I didn't want to say anything because it's his affair & he has a right to do what he wants. I do know more but I don't think I'll tell you all I know, but I didn't get any of it from Christ. Now I hardly talk anymore, only to stop & say hi. Robin is a cute girl too but also my kids don't like her attitude, but she's friendly sometimes. I do think Christ is cuter in her features. Well, I didn't mean to bother you by this, but I also thought you should know. I know all along it's your ticket & I promise to respect it. Be good & take care of yourself.

Love,

Karen

Dear Madam:

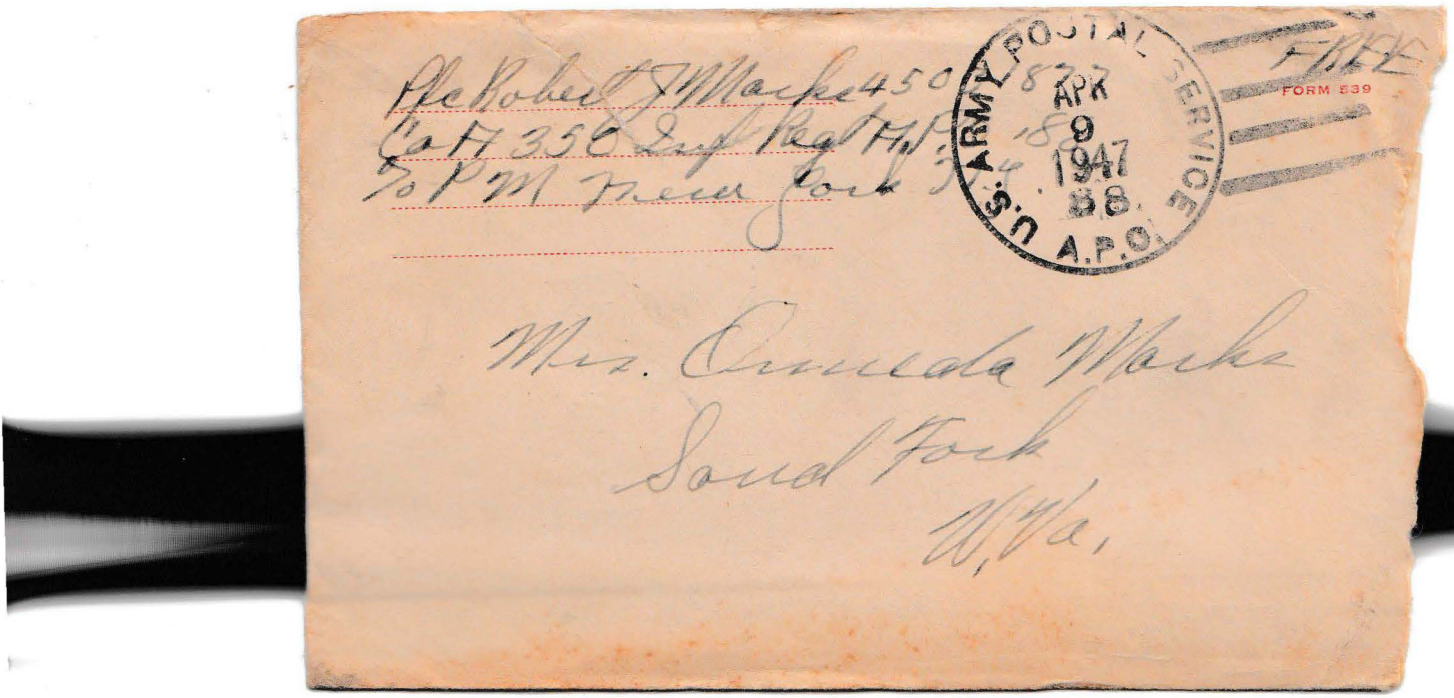

We were recently employed by the Louisville City Hospital, which placed in our hands for collection its account in the amount of $66.00 against your son, Randolph L. Moore. Hospitalization and services were rendered him following an automobile accident in Louisville in February.

Will you please advise us just how this account can be taken care of? We are quite certain that our client would be willing to settle for $50.00 cash if paid promptly.

Please discuss this matter with the proper persons, and let us hear from you favorably.

Hi Love!

I can't believe it's only Tuesday, I miss you enough for it to be Friday. Things have really been hopping around here. I registered Monday & went home to Flo'z. I have really got my work cut out for me. The class is held at Allendale, right near my grandmothers. I also didn't realize we'd have so many marathons - I have a 10-hr one on Thurs. & 10 hrs. on Friday from 6:00 - 4:00.

I just went swimming - my body feels so incoherent. I wish I could swim every day. (esp. with you, for you make it so much fun to play in the water)

I'm really excited about my class, however, for it to be of great value I'm really going to have to study. When I'll find time is something else. Tomorrow we meet straight from 8:00 - 2:00. its suppose to be for 9:30 - 12:00 - 4 3hr. classes. Probably next weekend were going

to have a 24 hr. class. I can hardly believe it. Unfortunately it will probably be next weekend.
Now for some super good news I got Sat. off from work. I told them I had a marathon. Goldie was mad, but I don't care because I really want to go with you. I love you
I met a girl in class from W. Va. She was wanting to go home. Since she lives right off the interstate & it's on the way I suggested she ride with us & it was O.K. with you. She volunteered to pay for some of the gas.
Now I kinda wish I hadn't said anything for I would really like to be with you alone. However the idea came into my head & popped out my mouth.
I hope you really don't mind too much & if you do I can find a way for her not to go with us. I haven't found out yet if we are going to go to Stunkels this Friday. However you'll probably call me before you even get this letter. I hope to find out tomorrow

afternoon.
I love you. Sunday was such a beautiful day. I felt very comfortable being with you (that is a compliment). I know our union together can be nothing but good for we have so much going for us (US) + Love

Bob,

Hi there! I'm in school & I forgot the rest of my letter; I don't have anything to do. Besides, I have to look studious for the S.K. teacher. All we been doing lately is talking! I don't feel like getting any more guys in trouble. I do enough of that the way it is. There isn't any good people up here today. In here, they come & go. You see the same old gang day in & day out. Gotta get use to it, ya can't change the looks on their faces. I'm tired of this place. You would be too, if you had to put-up with the way things are now. Oh, I guess you've been through it all before.

Judy said she saw us the last Thursday night when we were with Jack. He says you are cute. You what did I tell you? (I'm going to build up your ego. What would you do without me?)

He was telling the others too. I wonder if they were just tryin to make me feel good. Na, I doubt that. If you were ever so-called mean to me or couldn't care less, they'd do cute & attract-ive as you are, they'd warp the heck out of me. That's for sure. Me not the girls. Love 'em all. I get along O.K. with them, but I can't pick out a best friend. Many of them tell me I'm their best friend they know, but that's mostly cause the other girls in the classes look up to me. It's a good thing when they lean on me when they need help, and they expected me to come to them for help in return, which didn't work out since they found out I'm better off when I help myself. I just depend on me, & nobody else. (dealing with friends) I prefer being independent anyways.

They know what my phil-

phy of life happens to me & I
suppose they think I must have
high standards of living the
way they talk, & what gives
me self-satisfaction is when-
ever I give advice, they use
it to the letter, & it's never
let down anyone as of yet. If
my ways of thinking crack-up,
I hope its on myself. Then
I wouldn't have any guilt. Though
most of the kids consider me
independent & all, I need someone
in this all world, and Jesus, the
one I need.

Last period I had hygine.
Oh, it's not irrelevant or anything,
(as a matter of facts I like it) but
it's the way one gets bored stiff in
that class. For example, someone
will ask some question (& they can
come up with some good ones.) and
the discussion begins, but guess
who always gets to lead them on!
Me! that's right! Somehow, my name
is the one who gets to take over

the teachers place, which isn't so bad. I'll always believed you mark me from other people than you do from looks, (not that I have anything against 'em) so when I take over, it's feel free to talk. But I really do study alot, I like to; but you wouldn't believe some of this ones study habits. As the leader in here we dont really care for. I'm trying to think who she reminds me of. Wait a minute... I got it, Ricky. Thats right! They are the ultimate in repulsive. One of the main reasons you me disliking them is they act as a vent for my emotions. All the hatest too strong of a word you me? I have I take out on him. I'm tempted to just drop it, but then I'd just have extra time to get bored, endless. I then continue to write to you, of which I haven't any stamps

Did you ever write anything in a big hurry & when you re-read what you've just written, it doesn't seem to make too much sense.

I think that's what I just did. I don't think I even know what I'm saying. Fortunately, you know how I get when sleepyness overcomes me. I feel dizzy again. It's been happenin' to me all week long. I don't know what's wrong with me, probly, it's nothin.

A strange thing happened the other day. It's nothin', but we were messin around in gym on uneven bars lately & we have to climb ropes (which is funnier than...) and then there's these 5 rings hangin from the ceiling & we have to swing from one to the other. So, anyways twice, I fell to the ground & kind of passed out. You wouldn't exactly call it that, but it seemed more less a black-out. That's when you fall down on the hard ground (with no mats) & I couldn't see or hear

anyone. It was kind of like a dizzy spell when someone faints for a little while. Thank God, it wasn't anything serious. Do you think I'll live, doc? I think my memory is going to pots, tho'. I can't remember much of anything! I'm sick of it.

I tried calling Jack for you, I understand the situation, but his mom said he wasn't around; I couldn't leave any message. For various reasons. Then later on there wasn't any answer, for quite a while. I believe I haven't seen him yet today but if I do, I'll talk to him for you. I know you're the clear, your mom said so. But she doesn't know you called about it the other night, since I didn't say anything. She's pretty calm about it & very understanding. She seemed to think the whole thing was me

mistake, but it'll straighten out soon. Don't worry too much about it.

Speaking of Jack, he seems to be changing some. I noticed it, probably because I know him well, but didn't mention it, because I didn't think much of it, but quite a few people have been asking me if there's anything wrong & I haven't said anything about anything because I don't know anything! That makes sense! Dumb!

Some of his buddies said he's turned kind of cold, if you know what I mean. I guess I'll get over it! Probly growing pains! By the way, I've been getting growing pains too, but I've disappeared since I'm not growin' any. How come?

What was happened to Jack paying you a visit? He never got down, did he? What's wrong? I think he's just

having a hard time with everyone. I can understand his recent actions, considering the amount of pressure on the kid. I hope he gets what he wants. Its just that everyone hits him at one time with different situations which concerns alot of patience. He'll be alright pretty soon. Give him a few days to relax, he can use it.

I'm trying to efface my problems, though I haven't any much importance, one by one. It's the best way I might do the trick.

So you see a lot has been happening around this place, Harfield. It has its short-lived moments too, I'd only hope no one suffers.

Have you heard any word on whether or not your going out to Maryland for the summer job or not? It'll be

real nice if that's what you want. I told you before, I don't want to be in the way of any of this. I would feel terribly guilty if I was your excuse for staying home. After all it would be a vacation from home. I know you said before you weren't going but don't get any hopes up. I think your parents will want you to go for the idea behind it but spending summer vacation away would be, maybe a disadvantage.

I guess my summer is all organized. If you happen to go to Maryland or wherever, I'll probably go to D.C. for the summer. Washington that is. I usually go every summer. I went in '67 but had it better of in '68 summer. It was wonderful. I could swear we were together hours after hours, day & nite. It was fun; I loved it all.

There couldn't be anything

you me to worry about in D.C. I'll can get along (by myself if I have to, that's an advantage of being able to care of yourself, being Independent, but not totally. I would need a shoulder to cry on anymore, but should I need your comfort, I'll always turn toward you.

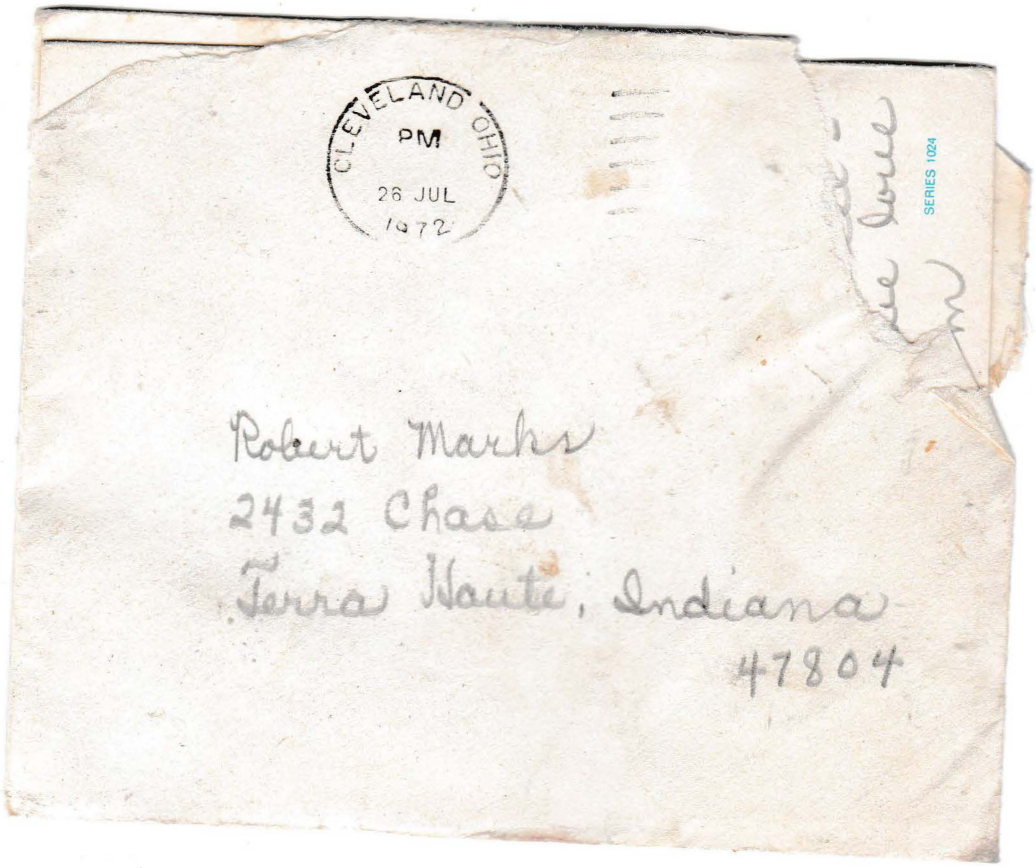

My grandmother has an aptmt in D.C. & lovely place it is, if I & I should be together if anything should happen. Nothin' could go wrong because the aptmt. is in the capital city, with lots of friends I already know there. Besides my aunts & relatives live near-by my grandmothers place in case she ever needs help or anything. You know what I mean, it's only 2 blocks away from the families. So you've got a general idea on how I will spend my time. Of course, I'll work & write you, & all the

time think of you. I do now. Every day & nite. It's a beautiful feeling to know you love, & I love you very much. I was never much of one for words, but I do miss you very much & I pray every nite God keeps you well.

And how's this for a quick letter? It took me 2 full periods of Study Hall to say little but write all. I'll get to be more careful. & I'm taking care.

2 minutes left & I need these to make up so please be good & take care of my love.

Love Always

April –

Dear Bob

Hi Larry. Thanks you for the cute cards, I really appreciated them.

It's Friday night and everyone's going out for the evening, except me. I did have some plans to go out but I cancelled them for now. I have other things to take care of.

I didn't get my temp. yet, but what do you mean I better have it before you come home & I should get it this week but why are you coming home? Is something wrong?

No thank you, I'd like to drive your car but I'd rather not. I don't have that much confidence in myself when I'm not so good at something & I think this happens to be one of those times. I'd be afraid to take out the car. Just to leave it at that until I'm good enough to know what I'm doing. (say a couple years!!)

I did what you wanted. Al came earlier and I gave him your address. Are you having any trouble making the tapes?

Als been having some trouble

2. with my brother lately. As he said, you knew about it when he talked to you about him the last time you happened to be here. Perhaps haven't been getting letters fast enough at the Jr. High last like all girls & my brothers are of them. I wish someone would take care of Ricky, he's making the family cry. Surely not purely. I realize it isn't his fault but I don't know what. Since this thing has been going on I found out (quite by accident) my mothers back ar tranquilizers. Grandmother has been on them for 3 yrs & now she needs pups at night. I understand what it must be like for her & what my parents are going through. My father developed a slight case of bad nerves about 7 mos. ago & more afraid for him & for Ricky & for whatever else. She shouldn't worry herself. But it should be ending now, those papers in a little while. Why wouldn't you mention this before & to me? It's more serious than I thought.

I hope you do good this quarter. Spring fever is no excuse. Everyone feels like that during Spring time &

3.

that shouldn't interfere with your class work. I haven't let it bother me & neither should you.

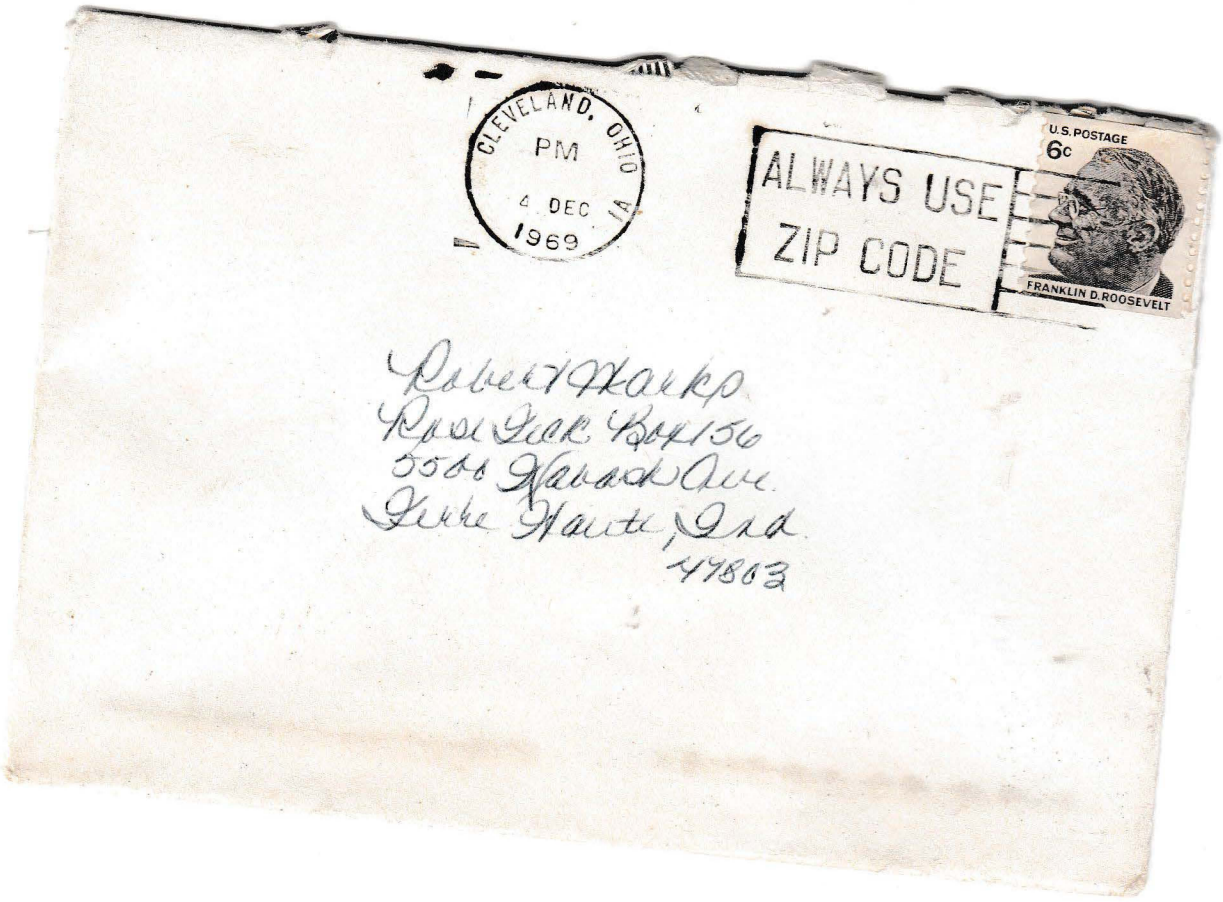

What are you going to do about the summer. As far I mean. It would be better if you tried to get one ahead of time (before summer gets here.) It is important you know, and there should be a few other matters you have to take care of. I only hope you do.

Finally, after about 2½ months I got the 25 packs of matches I ordered. Have you gone back yet? Anyway I was stuck with 25 packs & neither of us smoked so all the kids at school helped themselves to them. If the mail doesn't mess it up I might get it through to you. I'll see.

All I have to go and do some studying for now. It might help. Be good & take care.

Love, Kenyt

P.S. Stay out of trouble! ha!

Dear Bob

Hi Honey. Sorry I haven't written sooner but I haven't been doing much of anything lately. Got one I haven't sent it ahead since Tuesday so there went my week. Tomorrow Friday so I don't know if I'll get it or not.

Ya know it's 8:45 in the morning now. I won't have much time cuz the railroad passes pretty soon, but I'll try to make the most of it for now.

I was really surprised to hear how you will doing this quarter but shouldn't worry so much cuz I know you'll make it through and work up for it next quarter.

I know I'm not to get your mystery as yet as school goes. Here Indiana now it's bad but could be better so I haven't much pix and all work with any on. The week chose a lot and

glad to get quite a while.
I wish I had more time
to write any things about I
want to say about a few
things which I'll mention in
my next letter.

Did you guys get in all-
night Sunday? Epic may be
homesick, but I miss you a
lot more. It sounds quite hot
its true.

Haven't put Roxie lately.
Since the time he talked to
my mother (Saturday) about
whose ~~dd~~ name should be first, he
hasn't called once; but I do
believe he has - my mother call-
ing him; every time I go out-
no matter who with, he gets on
the phone & the other day I saw
Rose smoke in his room. I
don't know why - but I feel so bad
about what I said to him (Epic
know - deep -) Even though I was
hepatitis him - I feel I owe

time for apology. I guess I'm a positive person at times.

I'm sorry you didn't have a better time when you were here. Things could be a lot smoother & I wish they did & promise — something will make up for it next time. Anyway, the house is empty & we'll have to & I'll save every minute of it.

Finally got my certificate in Driver Ed which is ready to the Driver School that you took the course in high school. I can go do it any time now & take my driving test — but my temp. expired 2 days before I got the certificate so I have to get it again. I'm back on the road runs & now in the classroom for 7 wks — which then only 1 or 2 more wks. left to go. But since I got my certificate early I can't work but all I want now in the classroom is they can't take it back from me.

Of course it's not going
to work out. It's pretty part of
a strong A going for me now.
I'm hoping the next two
you have all that time for
a project. (a report related
to cars, etc.) Well I'm doing my
two report in 2 wks during now
I cannot be doing any of it
Anyway I'm planning to time
you in weeks like this and
I'm doing more than one
this year, that more
than any of the tips in the
book like this in two.
get as a paper I know so far
I'm working as a project I go
into great detail, while I only
a few tips all done. Well de.

Well I have to go & give
this to the mailman because
it pick around here & never
reaches you. Be good & take
care of yourself for me.

All my love, Karen

SECTIONS OF THE GENERAL CODE OF OHIO RELATING TO SUPPORT OF INMATES OF STATE INSTITUTIONS

SECTION 1815. (101 O. L., v. 157). All persons now inmates of, or hereafter admitted into, a benevolent institution, except as otherwise provided in this chapter, and except as otherwise provided in chapters relating to particular institutions, shall be maintained at the expense of the state. They shall be neatly and comfortably clothed and their traveling and incidental expenses paid by themselves or those having them in charge.

SECTION 1815-1. (102 O. L., v. 63). When any person is committed to a state hospital for the insane, to the Longview Hospital, to the Ohio Hospital for Epileptics, or to the Institution for Feeble-Minded, the judge making such commitment shall at the same time certify to the superintendent of such institution, and the superintendent shall thereupon enter upon his records the name and address of the guardian, if any appointed, and of the relative or relatives liable for such person's support under Section 1815-9.

SECTION 1815-2. (111 O. L., v. 80). The maximum rate for the support of inmates of such institutions shall be five dollars and fifty cents per week. Less amounts may be accepted by the * * * (department) when conditions warrant such action, or when offered by persons not liable.

SECTION 1815-3. (101 O. L., v. 158). The * * * (Department of Public Welfare) shall appoint an agent * * *. Said agent shall investigate the financial condition of the inmates now in the aforesaid institutions, or hereafter committed or admitted thereto, and of the relatives liable for the support of such inmates, in order to determine the ability of any inmate or such relatives to make payment in whole or in part for the support of the said inmate; provided, that in all cases due regard shall be had for others who may be dependent for support upon the estate of said inmate.

SECTION 1815-4. (106 O. L., v. 504). Such agent in making investigation shall have power to subpoena witnesses, take testimony under oath and to examine any public records relating to the estate of an inmate or of a relative liable for his or her support. All his information, conclusions and recommendations shall be submitted to the * * * (Department of Public Welfare). The * * * (department) shall determine whether such relatives shall be required to pay for the support of such inmate or whether such charges shall be made against the estate of such an inmate. An order shall be issued to the persons who are determined liable for such payments, requiring them to pay monthly, quarterly or otherwise, as may be arranged, to the state such amount as it or the committee shall deem proper, but no order shall be issued compelling payment for the care of an inmate prior to May 2, 1910.

SECTION 1815-5. (101 O. L., v. 159). Any person who has been ordered to make payment for the support of an inmate may petition the * * * (Department of Public Welfare) for a release from, or modification of such order, and said * * * (department), after an investigation by the agent, may cancel or modify such former order. The * * * (department) shall at any time for due cause have the power to increase the amount previously ordered paid.

SECTION 1815-6. (101 O. L., v. 159). The superintendents of the state institutions shall submit to the * * * (Department of Public Welfare) such information as they may obtain concerning the financial condition of any inmate or of relatives liable for his or her support.

SECTION 1815-7. (101 O. L., v. 159). In case the estate of any inmate is sufficient for his or her support, without hardship to any others who may be dependent thereon, and no guardian has been appointed for such estate, the agent shall petition the probate court of the proper county to appoint a guardian.

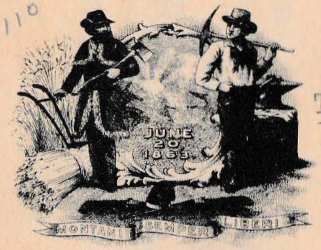

SECTION 1815-8. (103 O. L., v. 879). In order to facilitate the investigation of the financial condition of the inmates in such state institutions, and of persons liable for their support, the * * * (Department of Public Welfare) may employ assistant agents not to exceed five in number * * *.

SECTION 1815-9. (101 O. L., v. 159). It is the intent of this act that a husband may be held liable for the support of a wife while an inmate of any of said institutions, a wife for a husband, a father or mother for a son or daughter, and a son or daughter or both, for a father or mother.

SECTION 1815-10. (102 O. L., v. 64). Upon the death of a person who is an inmate, or has been an inmate since the passage of this act, of any of the aforesaid institutions and who is possessed of property, it shall be the duty of the executor or administrator to ascertain from the * * * (Department of Public Welfare) whether the deceased person was supported while an inmate, and if not, the * * * (department) may present a claim for support, or for the balance due in case less than the maximum rate has been paid. Such claim shall be allowed and paid as other lawful claims against the estate; provided that the * * * (department) may waive the presentation of any claim when in their judgment an otherwise dependent person will be directly benefited by the estate. It shall be lawful for the * * * (department) to accept from a guardian or trustee of an inmate a contract agreeing to pay to the state from the property of his ward before or at the death of his ward a fixed annual amount for the support of such ward while an inmate, and with interest at four per cent per annum. A copy of such contract shall be filed in the probate court of the proper county, and duly entered as a part of the records concerning such ward.

SECTION 1815-12. (108 O. L., v. pt. 1, 554). The county from which an inmate of an institution for the feeble-minded was committed shall be liable for such inmate's support provided the same is not paid otherwise as provided by this act. The treasurer of each county shall pay to the treasurer of state upon the warrant of the county auditor the amount chargeable against such county for the preceding six months for all inmates therefrom not otherwise supported, upon the presentation of the statement thereof. When any person committed to an institution under the control and management of the * * * (Department of Public Welfare) other than an institution for the feeble-minded, is transferred or removed, as provided by law by said * * * (Department of Public Welfare) from such institution to an institution for the feeble-minded, the county from which such person was committed shall be liable for the support of such person while in said institution for the feeble-minded, as hereinabove provided, and to the same extent as if such person had been originally committed from said county to said institution for the feeble-minded.

SECTION 1974-1. (111 O. L., v. 80). The provisions of law applicable to the payment of charges for their support by inmates committed to state hospitals shall apply to persons received on voluntary application * * *.

Dear Sir:

The insurance we carried here last year on your buildings expired on September 21, 1932, and since we did not receive a regular policy, it has been renewed.

If you are still unable to furnish us with a regular policy, a check or money order for $ 15.20, will enable us to continue the insurance we are now carrying.

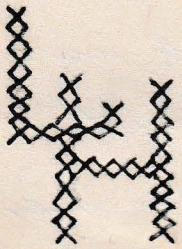

Thanking you in advance to give this matter your immediate attention, we are

Very truly yours,

Dear Ouneda.

I received seven letters from Jack today - the first for what seems like ages and he says he may be in in June. Won't that be nice? But we won't say definitely until we see him, will we? He again asked me to write you and said he had heard from you. I know you're hearing too and he's probably telling us the same thing. He said in one letter he hadn't heard anything out of one ear since it'd been infected but I don't know just how he meant it. It'd be awful if it were a permanent thing.

Hear you're planning to return to teaching. Nice in one way but H (C C K) (spouse please) in another. I hope you aren't blessed with 40 as I have been this year. That's really too - too many for comfort.

I wanted to come down Easter but we had so much company

I couldn't run away. Maybe I can make it June 14 when school is out — if I come to S.F. I don't know for sure what this summer holds in store for me. Guess you'll be at S.S.C. I feel that I should be there since I have for so many summers but I won't. May go to the U. here, may work or may loafe in S.F.

Went to the Cherry Blossom Festival this week end and decided we'd (Ruth & I) see a newsreel to see what it was all about. We did see some Indians, the prongs on the queen's crown & a helicopter, but we strained our necks & toes to do that. Wasn't hardly worth the effort. The blossoms were beautiful but no more so than our plum blossoms in our back yard. Don't appreciate nature, do I?

So long. Gotta' grade some papers. Miserable moments — & I will it to span next year.

Love, Grace

Dear Bob,

Hello there! How are you? I've been meaning to write sooner to see how you've been doin, but I guess I just never got around to it, until now. Sorry it took so long.

Well how is college coming along? Are you learning anything? What are you taking, by the way?

I haven't been up to much really. Just working mostly. I work for a printing company. I'm a press operator. You's that grab you.

I've tryed getting a hold of you a couple times when you were home but you were hardly ever there, so I keep missing you. Oh well, can't win them all. When are you planning on coming home again? Maybe,

next time, Bill pa you.

Well I really don't have anything to say, so I guess I'll close for now.

Write sometime when your not doing anything.

Dear Dad and Mom,
We are doing a lot of school work. I'm writing a book. We're leaving on Monday, and we're going the southern route.

Love

Jeremiah

The Cabin

Jeremiah, Joshua, Grandma and Grandad Jack were going to the cabin. The car was crowded with food, games and clothes. It was a bumpy, frozen road and we almost got stuck.

At the cabin we unloaded the car. It was work, but it was fun. There were two rooms, one with two beds and one with two bunkbeds. The one with two bunkbeds had pictures drawn on the wall, I wrote my name on it.

After we unloaded, I shot a rifle, my best shot was by the bull's eye. We also played risk, ate, slept and Rode the four wheeler. When I was riding the four wheeler I crashe in the creek.

It was hard work packing up the car, after we packed up, we hitched up the trailer to the

four wheeler. Then we left.

Dear Mom. How are you? I am cold. It seems it is never going to warm up here. And it is so windy. Grandma and I had to hurry before dark to get warm and I have my coat on.

Well we are expecting any time to hear Germany has surrendered. I hope it comes tonight. We got a letter today from Paul written 18 of April in Germany. I know he is anxious to come home.

Do you still think June isn't going to send

a calf? I talked to Roy something about taking care of our Cow when she is sick. I would like for the calf to be taken from her but if Roy cant do it just let them go. You arnt able to do any thing with them.

How is your garden doing? We went out to a Farm yesterday. Where Grace Foley lives. They work in a Flower hot house. They have beautiful flowers of all kind. and cabbage tomatoe and pepper plants. I bought 2 ~~glass~~ geraniums and a couple small fuschias. They have buds on them tho. and the

red geranium has one bunch of bloom out and three more bunches almost ready to bloom. The pink has one bunch blooming and more small buds. I brought them in the house tonight its so cold. I had your flower and the pot mine was in out in the yard while we were cleaning and some one took them my little dishes and all. I intended going back to Wards today but grandma isn't feeling well. So decided I would wait a while till she gets better or goes back to Akron. She talks like she wants to go back this week. Got Post to go

with her to work and sell her farm.

I haven't seen Wiants yet about their farm. As usual God is teaching me longing. He thinks it is too high. He said if his mothers farm was only worth $3000 That one was away too high. Grandma is offering hers for 3000 and there are 270 some acres. Thats her business tho.

I went over to see Mrs Smith this afternoon. They are all well. Alice is getting to be a great big girl.

I have only had one letter from Andrew since he went to N. C. last he

called me long distance and he had sent me $5.00.00 since he went down. I guess I already told you he was a pit sh. now.

Well I am getting sleepy so guess I'll close. I'll send you a clipping and you can see what happened to ~~Middleton~~ Muscatine

Dear Dad,

Hi Daddy, I hope you had a safe trip back to Kansas, and to keep you company, I put myself in the mood for a long letter. I'd appreciate it if you will take into consideration this needless continuation of our discussion Saturday, & make yourself comfortable, please.

I do want to apologize for talking back to you & while there, as you know I've not been sick & I'm trying to catch up on my daily schedules, including my rest.

In appreciation I thank you for taking me out for dinner. It was fun while it lasted, though it wasn't our place. I know how much you were looking forward to coming home, and I'm sorry it didn't live up to your expectations but things will get better. Maybe next year for our anniversary we will spend it like we should - with our friends & we will be able to celebrate & enjoy ourselves. I don't mind me going out alone, but I do like it much better when we double. I'm sorry for you that we had to end-up in a "drive in" of all places, but it was being together, with you, that was all that mattered,

and I hope you will do me one favor which is not to ask me out to a dance again since we shall resume next time to go. I said I trusted you & showed it by going out then, so there isn't any reason to go anymore. I did enjoy our "talks" most of all which served to make it easier to understand.

As I told you, I also have been thinking about us in general and so far this past year, it's been very happy & wonderful. Aboard the problems were facing concerning our interests, I don't think its so detrimentable, but I realize it's an important role in us. We've been going together a year now, and you can't say we've been together; except when time allows. After our first 3 months, the separations, we were separated & have been 2 months of the time. When you first start going together, everything goes fine, but it is later problems evolve. Through past experiences, we both know how will things go in the first months as so, compared to later on. Isn't saying that most of the couples going a yr. as so don't always placid under the circumstances of separation we happened to be, therefore

during their first years time, they have all the benefits of time, which is all they need to have but their disagreements etc. Now as you see, during our year, we either have to have serious problems through the means of mail, which isn't the best thing to do you know. A lot of times, words and feelings & thoughts are lost through the mail & I think you agree that if we have been together during our hard times, it would be easier as we know. Do you see now & realize how important time can be? I feel you do and in any future trips will be sharing our summer & communicating without mail once again. After 9 months of mail, I think we deserve it. We've settled a number of things that way as else it's a good idea when you were here or a quick weekend, which isn't necessarily the best ways of going about it. But we're getting this far considering everything & I'm proud of it. (I don't mean to sound conceited - I'm sorry)

We do have the basic knowledge and understanding of each other, though we're not that well established, which

is one thing that does take time. You might - make some math a little mixed up but things straighten themselves out too. You asked if it would help if we could help time, - well it wouldn't hurt, and in a while, you'll be home once again & will continue on the right foot.

We are a couple of teenagers making our ways now, but by the time we finish our education in the six years supplicant you both of us, I shall be 22 & you 25 yrs of age which is ideal to carry out the vital roles in life, that we are living for now. I feel that sometimes we try to crowd a lifetime of living in our teenage yrs. which is impossible according to the standards.

I get the impression at times that you are afraid of growing old. Dear, don't ever be afraid of something like that honey. I know that the younger years of ourselves is always looked back upon as the best part of the past, but think of the future. The best is yet to come, & as you mature & become an adult, you'll think of how foolish you must of been sometimes to be afraid of growing up.

Besides, God gave us this life & when he's ready, he'll take it, so it isn't wise then that we should have fears. I'm proud of you as you are, be yourself honey, because I wouldn't want you any other way. Your patient, understanding & take care kind to me ever since a yr ago, and I distinctly remember you once asking me never to change. You accepted me the way I am, as myself & that's how I want you to be. So why, why do you do your to try & change another completely unless it is my time does not will. & even though there's always room for improvement, it's better to edit & improve things gradually instead of making a drastic change all of a sudden, but if a person needs a change, though otherwise, God will show them the way. Trust and believe in him. I'm not asking you to sacrifice or pray but to take part in life as it were yours, mine and ours. That's the way things work out, I share my time & life with you & you share with me & may God make the yrs to come the best ones for us. If you'll let me be the woman

behind you. Agree with time & so shall I.

Well, I read I haven't any plans for this summer & I doubt you have any either, but do you have any ideas or what you'd like to do? I think you will be getting a job pretty soon.

I hope you enjoy yourself at the wedding coming up. I know how you feel when you see your friends around you marrying off. Someday will make it Bob, you & I and there isn't anything in the world I'd love as much as to be the little flowergirl, your wife. Then you'll be so proud of me & I'll donate myself to the happiness of you, husband, & our children. How would you like it, if we were working at the motel together up road, when you come back? Do it altright with you if we were to go looking for one, & take it a day? That if you'd like it, too. What do you say, honey?

Bad news. - I got on the scale this morning & Lord! I gained a pound under all that I had for dinner, thanks to you! I only hope you gain some weight by the time you come home again, or else I'll get

that you do this summer. Diana-bet you'll be sitting on the porch, sipping lemonade, watching T.V. and I'll be baking a cake & cooking cookies (choc. chip. ha! for you & then you can't say no. (Good Deal for ya !!!)

Of course you're going to pick up where we left off last summer on my guitar lessons. I just love the guitar & drums. Maybe I'll get pretty good with the music, although I can't sing, as you say.

Then we can look forward to going to have special talks on "our rock" at Dixie's Cove. Remember how quiet & peaceful it all was? Of course, I can't for you forget. It was so quiet & peaceful we could look up and watch the clouds drift by. I can't feel it now. You can't put your mind at ease & I'll drop the "grapes" in your mouth, that you liked so much.

Remember all the evenings we would just drive around so calmly when I was on your arm, & you got to be a pretty good ole-admirer, ~~out~~-eyed admirer. Such beautiful memories I'll never forget.

If I do get my license, I might

take you driving as a puppy Sunday afternoon.

Then there was the times we'd go to a movie & snuggle up & share a piece of liquorice at each end & meet in the middle. It's the little things in life that count just as well.

I'll always remember the day you threw me into the pool, clothes & all & then came running in to rescue me. I was so surprised & aggrivated & didn't know what to do! Hey, Hershey? There was the time we went up to Cedarbrae & how Gary stuck his neck out those gondolas. We all went with a good time but then Lou enjoyed the view a little the way home.

All those little things made our years-filled summers & how I wish they could of lasted. We'd be together practically every day & night & we had a healthy relationship, which will continue. Can we have your times such as those again this summer Lou? I sure hope so. Those were the days & may we have many more like them to come.

5.

I was cleaning out my drawers this afternoon & all the little gifts you'd sent me from Rose since you started, I have it in a glass jewelry box. The postcards, the match packs, computer print outs, glass, key chains, pens, etc & of course this red & plastic ruler, you used to pick mailing needles! Oh such great writing you all this time and while your first college year is coming to an end, I wish you the best of luck in the coming year. I know you can do it & you will, our life depends on it.

Did you get a chance to see Al or talk to him about your stuff yet? You said Jack was really having problems, drinking & everything, I feel sorry for him, & I know he could pull through if he wanted to.

Watch out for those roaches you might decide to go see. Rick took Linda (from South) to see "The Killing of Sister George" last wk. & after a long hour in that place he pulled her by the arm out of there. He said he had more respect for her than to take her to a movie like that, which means it must of been pretty bad. Bet it is.

Sometimes it's not worth it to sneak into the back of trucks, Mom! Saturday there was "Gas Kills the Wind" at Eyerly's where we went once. Why don't we go see it when it comes around this summer. Everyone tells me how good it is!

I got our yearbooks last week & the pictures came out pretty good. Christy & I didn't go that day so we had our class pics, & will get them in October as earlier. They got the pencil axes again this year with wacky blue stripes. They're nice looking.

I'm glad you weren't angry about not going to Cabot's party. If it weren't for that stuff, I'd like to go. But otherwise you couldn't drag me to a party like that & I don't think you would want to go anyways, & I'm glad you wouldn't take me there. Thank you.

I better go now & get ready for class tomorrow. Be Good & take care of yourself. Write soon, honey.

Love,

Karen, your little woman.

To the Stockholders
of the Federal Land Bank of Baltimore.

Gentlemen:

We are enclosing you a condensed statement of the Federal Land Bank, showing its financial condition as of December 31, 1926.

You will see that our loans now amount to $66,362,406.50, and have been made to 25,044 farmers. This has grown to be a vast banking business, and it demonstrates that cooperation among farmers is successful when each person does his part properly.

The last few years have been trying years for the farmers, but all of our borrowers, excepting a very small percentage have met their payments promptly; thus making it possible for the Bank to again this year set aside from its earnings a dividend amounting to $187,065.90. Those associations that have no delinquents, unpaid taxes, etc., are now receiving their share of this money.

By continuing our cooperation, we can render a great service to the Country as well as help each other. You can materially aid your Bank during 1927 if you will explain the benefits of this System to successful farmers who pay their obligations promptly, and who are in need of loans. Emphasize the fact that each borrower must meet his payment on or before the day it is due in order that the Bank may pay the interest on bonds sold to secure money for farm loans.

If you have suggestions as to how we can improve this service, do not hesitate to write us.

With kindest regards, we are

Yours very truly,

SPECIAL NOTICE - IMPORTANT

A recent amendment to Section 12 of the Federal Farm Loan Act provides that, in connection with any loan made through national farm loan associations, or through agents or purchased from joint stock land banks, outstanding on May 12, 1933, or made through national farm loan associations within two years subsequent thereto, no payment of the principal portion of any installment shall be required during the five year period commencing July 11, 1933, if the borrower shall not be in default with respect to any other condition or covenant of his mortgage.

At the present time, it appears that there is default under the terms of your mortgage, and the items causing the default are checked below:

Delinquent Payments	X
Taxes	X
Insurance	

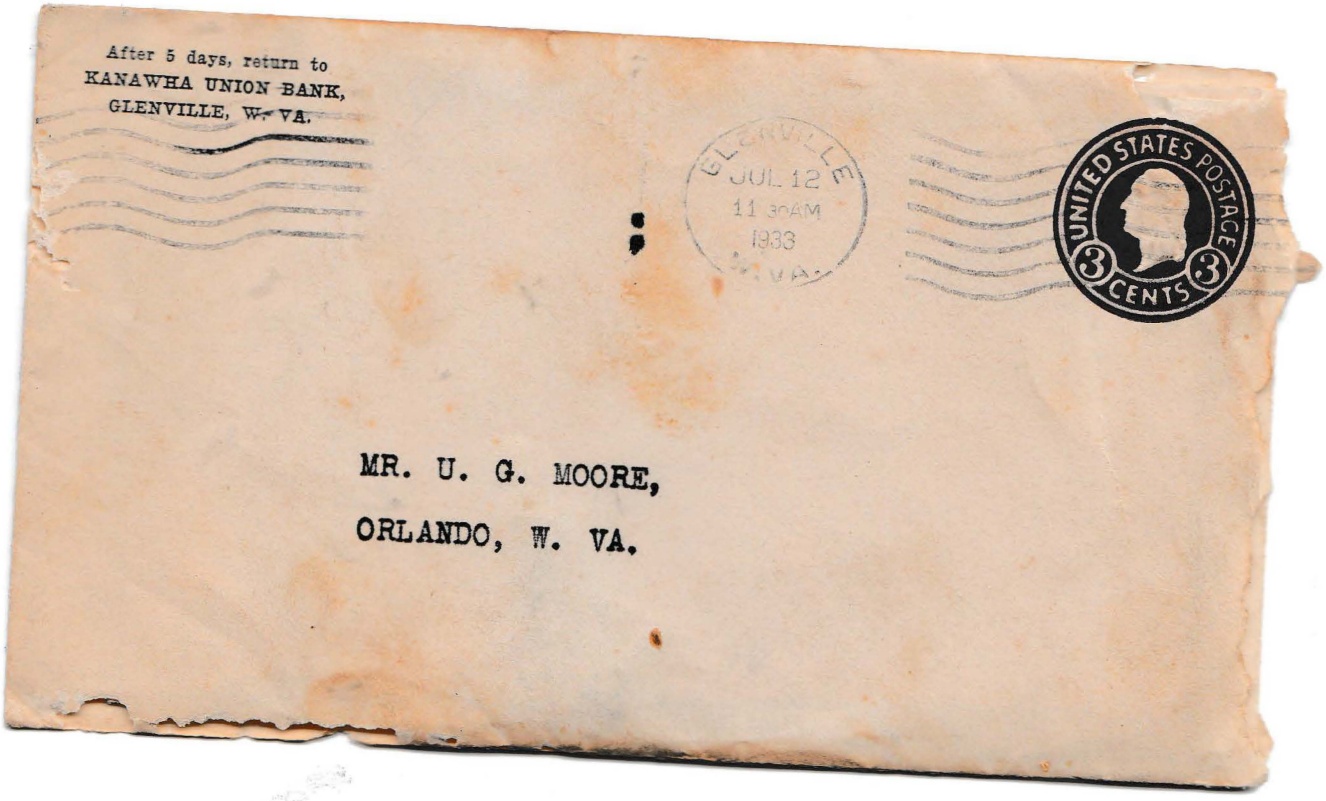

If an extension of your past due installments, unpaid taxes and insurance premiums and/or the postponement of the payment of the above stated delinquent payments, however, duly approved by the association of which you are a member, is granted by the Bank, they will not be considered as defaults and you may then file an application to defer the payment of the principal part of your installment if you so elect.

If you are unable to make payment of the above mentioned default (s), we suggest that you

Hi Bob -

The C. L. E. results came in today --- about 5/6 of them. You did O.K. on all --- except one + that was a 79. + that's O.K. too, eh?

We went to W. Va. over the Labor day week-end. Bill + Kathy went too + Bill fell in love with the state. Can't figure out why we left. Betty was to come in the day we left. Grandma + Grandpa fine.

Today we had our first teacher's meeting. Our speaker was from Cleveland State + he spoke on decision making. This isn't an easy thing to do + yet it decides so much about one's life --- such as your decision to attend Rose --- etc; etc.

Have you got someplace to live? In short --

We sent word by John for you to call--
but maybe you haven't seen John.

Jack K. is never home--- with his
jobs + school. He sleeps at the hotel job.
He seems pleased with the challenge.

Ray Alan's first day is Thursday. --
He seems eager to meet his teacher.
That's about when you'll be registering.
Let us know about your schedule as
well as about your radio station---
+ if and how much time you sold.

We miss you + are curious
as to how you're making it since
leaving home. Let's go---go---go
until Thanksgiving---+ then a
breather!

Good luck-- chin up---
and write. No- I won't send this
any until sure of
address!

Dear Bob,

Hi honey!

Hope you're both good. I know you care, I'm just kidding.

There's not much going on around here. I'm not doing much of anything anyways.

I had a pretty nice weekend. I was so happy when you called. I had so much to tell you but such little time to say anything in, but 3 minutes was long enough. I'm not complaining.

I've been keeping myself busy. There's not one time one doesn't car to drive around the any-more. Tuesday, I went downtown, Friday C. baked jelly rolls and I made 4 loaves of bread, which was terrific, and Saturday I took Kim downtown to pick-up your "birthday gift. I had to send it to

2.

Hurry pick to get started & so they came in & we went to get it, but the thing is I can't mail it. It'll have to wait until I see you, which I hope is pretty soon. There was a parade & so that made him happy Sunday, I took him to church & then with Kathy Hudak & her and boyfriend. And I think I told you about that before. Maybe but keep you posted & that's sweet.

I miss you so much also. I've been hoping busy to ~~get~~ keep you getting anxious, but it doesn't work. Sat. I made a pair of slacks & also I want to make the jacket, & don't tell probably you'll appreciate. But it's practice.

We've been doing pretty good, as far as relations ship-

cursed. She looking teacher is still threatening to kick me + Judy out but it takes a lot to get me mad. She was on me exactly waiting for me to break down or something but I will give her that satisfaction. I can only imagine what she said to the hall and [a few pictures] put up our hair. I guess she was in as sad because she has to have all long hair pinned up. And I didn't like it because we didn't even look. She read all the time.

Every year we go to my grandparents for Thanksgiving but I don't want to go to my moms going to try and get them into coming over here. You'll be coming home Thanksgiving-day night with us? If you do, I'll see there, for sure.

2

After church Sunday, I stopped over to see your family. They all look happy, like they always are. And you sure have grown a lot as much as ever! I suppose everything's the same as before.

How you called, you were down there. What's it like in the south, over there?

Oh's! I got had my picture taken. Dulce! Ha! the days go by. We're playing archery in gym outside and I can't. It's really sad by year if you want it to be.

I wish we could play tennis. That would ever be better! It was such a nice day, too.

Boo, how long have you been playing music? You read, will you start giving me what? I could give

Well I have to go now, so take care of yourself and be good.

I saw Ray's upstairs and the coin collection, I slept, ate and played computer, and my favorite games were Empire and Nuclear War. Grandad took me to the grocery store. We saw a policeman get two cars for speeding. After that we saw where Uncle Ray worked.

Carol brought a beautiful party plate. She was a young teacher and taught second grade. Carol is Grandmas best friend.

Sat. Night

Dear Bob + Connie,

You're a few days ahead of me getting back into the grind!! I have my teachers meeting Tues. (Sept. 2) + the children come a full day on Wed. I only have 19 as of now. Beautiful, eh? I'm off to a slow start this year as it's the first year I haven't gone to school ahead of time to get books out, etc., etc. but this has me convinced (maybe?) that it's only the teachers with an inferiority complex that does this. (Think this through) Well, another way to look at it is "the

early bird gets the worm."
I climaped my vacation
with last minute shopping --
in the rain --- with Ray +
John. I bought Ray tennis
shoes + pants - Jack two new
work uniforms that are
"checked" + myself four little
glass animals to stimulate
reading (I hope) about
animals. I think everyone's
on the mark --- ready to go.

Our next big project is
to get to Lane's wedding.
My brother Ray + Va. have
been so good to my boys ---
+ it's been sincere + with love.
Ray's last big thing in his life
was to get to your graduation.
Bob + then look how Va. Lane
+ Lynda came to your wedding.
all appreciated - appreciation
you don't repay --- just know
it's there.

By now you have your package + either you like - or don't like -- which really doesn't matter -- I had the fun of "doing." The things are not expensive so if they collapse in the first laundry - just say - "That's how it is nowadays. Maybe next time she'll do better.") (Maybe not. too - as I feel you're happier when you choose your own things but I remembered our talk about sales. Connie - they were on sale — which reminds me -- I bought 2 more expensive shirts which

your dad (Jack) — darn it hard
knowing what to call him
with the two relationships
involved here --- now you've
lost the trend of my tale so
go back + re-read --- now
proceed ⟶) liked + he
put one on. I said. "Jack,
it's too small. We'll send it
to Bob." — + he said, "Bob's
as big across the shoulders
as I am".
I said, "But it's across
the stomach it's too small!"

Wow!

That was the wrong
thing to say to a middle-
aged man with a "
" stomach!!

Off came the shirt!
+ the two beautiful green + blue
shirts are hanging in the closet.
(waiting for him to forget.

my unthoughtful remarks!

I just read where a person's interest is only six seconds long — really! — so I've already exploded your span of interest (right??) with my rattling — but I figure you're a little above average in intelligence so I can expand it to ten seconds, & you still maintain your sanity.

(Better be - where you are now —)

These telephone calls aren't satisfying to me at all. For example, I want to know —

What floor do you live on?
What's the color scheme of
the apt.?

Have you got everything
unpacked yet?

What's the campus +
buildings like? (profs)

Have you heard from
Dick + Mary Law?

How do you feel about
the big change - truthful
now - or is it too early?
In moving (now that's
its all over - what did you
do right? (laugh if you want)
+ what would you do
differently? (Hey - I may move
again before I
die!!)

Mr. & Mrs. Robert J. Marks
13008 OAKVIEW BOULEVARD
GARFIELD HEIGHTS, OHIO 44125

Connie, how do you feel about it all? Bob, you??

Hey - 10 seconds are up!

Darn, two mosquitos just bit me - or one two times!

O.K. now don't expect such communications from me after Sept. 1 (whee, what a word!) esp. for 3rd grade Communications? yes I see but not "ten second span" ones - shorter! (Did I hear someone say Thank goodness!)

Confess - was it you Bob - or Connie?

We love you dearly - realize the past two weeks have been difficult ones - + we're glad they're over for you. We're hoping now you're ready to move on to your goals + as Mary Lou (your mom) said, they're reached on a day by day basis.

Connie, I have great confidence that you will find your "niche" + be at least partially happy with it --- but don't expect it overnight. Sometimes it takes patience (I'm sorry I'm so slow + you know) + we'll have to use the "equal rights" approach on these telephone calls, eh.' I missed

Mr. & Mrs. Robert J. Marks
13008 OAKVIEW BOULEVARD
GARFIELD HEIGHTS, OHIO 44125

talking with you tonight -- + later wondered if you were there. Were you?

I'm going to write Dick + Mary Lou my "farewell to vacation" letter - because they will be fewer (I'm afraid) after school begins. Then Christmas won't seem so far away (if not before (to) see you!) with getting on routine

Whee - even smiled myself up!!

Write - do your best -

+ God bless - Lenore (Mom)

+ I'll do better next time - send a telegram (you say) O.K.?

Love you!! Get it "Be Brief."

Dear Mom. How are you? I am cold. It seems it is never going to warm up here. And it is so windy. Grandma must to bed before dark to get warm and I have my coat on.

Well we are expecting any time to hear when Dad surrenders. I hope it comes tonight. We got a letter today from Dad written 18 of April in Germany. I know he is anxious to come home.

Do you still think June isn't going to find

a calf? I talked to Roy
something about taking
care of our cow when she
is sick. I would like for
the calf to be taken from
her but if Roy can't do
it just let them go. You
aren't able to do anything
with them.

How's your garden doing?
We were out to a farm
yesterday. Where Grandma
Foley lives. They work in
a flower shop here. They
have beautiful flowers
of all kind. And cabbage
tomatoes and pepper
plants. I bought 2 ~~geraniums~~
geraniums and a couple
small bushes. They have
buds on them tho. And the

red geranium has one bunch of bloom out and three more bunches almost ready to bloom. The pink has one bunch blooming and more small buds. I brought them in the house tonight its so cold. I had your flower and the pot mine was in out in the yard while we were cleaning and some one took them my little dishes and all.

I intended going back to Wards today but grandma isnt feeling well. So decided I would wait a while till she gets better or goes back to Akron. She talks like she wants to go back this week. Get Post to go

with her to use and sell her farm.

I haven't seen Wanda yet about their farm. as usual Dad is bucking us buying. He thinks it is too high. He said if his mothers farm was only worth $3000 That one was away too high. Grandma is offering hers for 3000 and there are 270 some acres. Thats her business tho.

I went over to see Mrs Smith this afternoon. They are all well. Alice is getting to be a great big girl.

I have only had one letter from Andrew since he went to N. C. last he

called me long distance and he had sent me $5.00.00 since he went down. I guess I already told you he was a 1st Lt. now.

Well I am getting sleepy so guess I'll close. I'll send you a clipping and you can see what happened to ~~Miss Hand~~ Muenchinger

Hard work for Paul and write when you feel like it.

Hello Son,

Will answer two letters recd. yesterday and to-day. I'm sorry you haven't recd. mail from me for a week. Yes, I've been busy but have written you four times in the last week. I have time to write after I get the boys in bed you know. I just finished ironing to-night, since I put them in. They are pretty prompt with their going to bed. If I don't put them in by 8 o'clock they go to sleep and I have to carry them up. They are getting so big it is a job for me. Jimmie comes almost to my shoulder and Max comes to Jimmie's forehead. Betty and Gene have grown considerably this winter too.

I have been wondering since I recd. your letter to-day, how your boys stood inspection. Also wondering how the sham battles turned out. It must have been pretty difficult for you to train them since you didn't get that training yourself. I'm hoping you did alright though.

You know I wish you would get transferred to a camp nearer home. That is unless it would interfere with plans you have.

They are surveying and dividing the farm up home. Started Monday.

Bernard C- is surveying it. I'll be glad to have it fixed up right. Nellie and Frank are due in to-morrow if Frank is able to come. Hope they do so we can get our deeds fixed right.

Mom is no better. I was up Sun. & stayed with her until Clarice & Vivian went to Sundayschool.

Your Grandma Marks is O.K. She was down this evening and I addressed a letter to you for her.

I guess I get my garden harrowed to-morrow if it doesn't rain. I hope so as I haven't even planted my lettuce and onions yet.

Your dad bought a power lawn mower. It is easy to start & operate. Betty had it running this evening. The yard needs mowing now. Basel wanted to mow it the other evening, but he was pretty drunk and I was afraid he would break it, so I found excuses. Hope he comes down by Sat. and mows it for me.

You remember I told you Little Jack Marks was going to enlist in the army. Well his brother John said to-day that he couldn't pass the physical. Paul Stoner is trying to get in the Merchant Marines.

Good-night son. I will look up Jo's picture and mail it in the next letter. Lots of love - Mother.

Records should be as I have the Feb. All receipts should be keept by month and only expences that can be verified by receipts can be entered as records. This means all expences. Gas, Parts, some meals and wages of operator and other help. but be ware of Income Tax when paying help. Check laws. — I Plan to transfer Presidency and Holdings to you as soon as you find out if you can

do anything with it then, I plan to Put 75% in your name and 25% to John And you can Darkroom any other Arrangements later if you feel necessary - 25% should be incentive enough to get a lot of work from John with him receiving a wage of some sort.

The Library should have a book on Copyright Laws.

Make Photo Copy of "Code of Regulations" so John can have one.

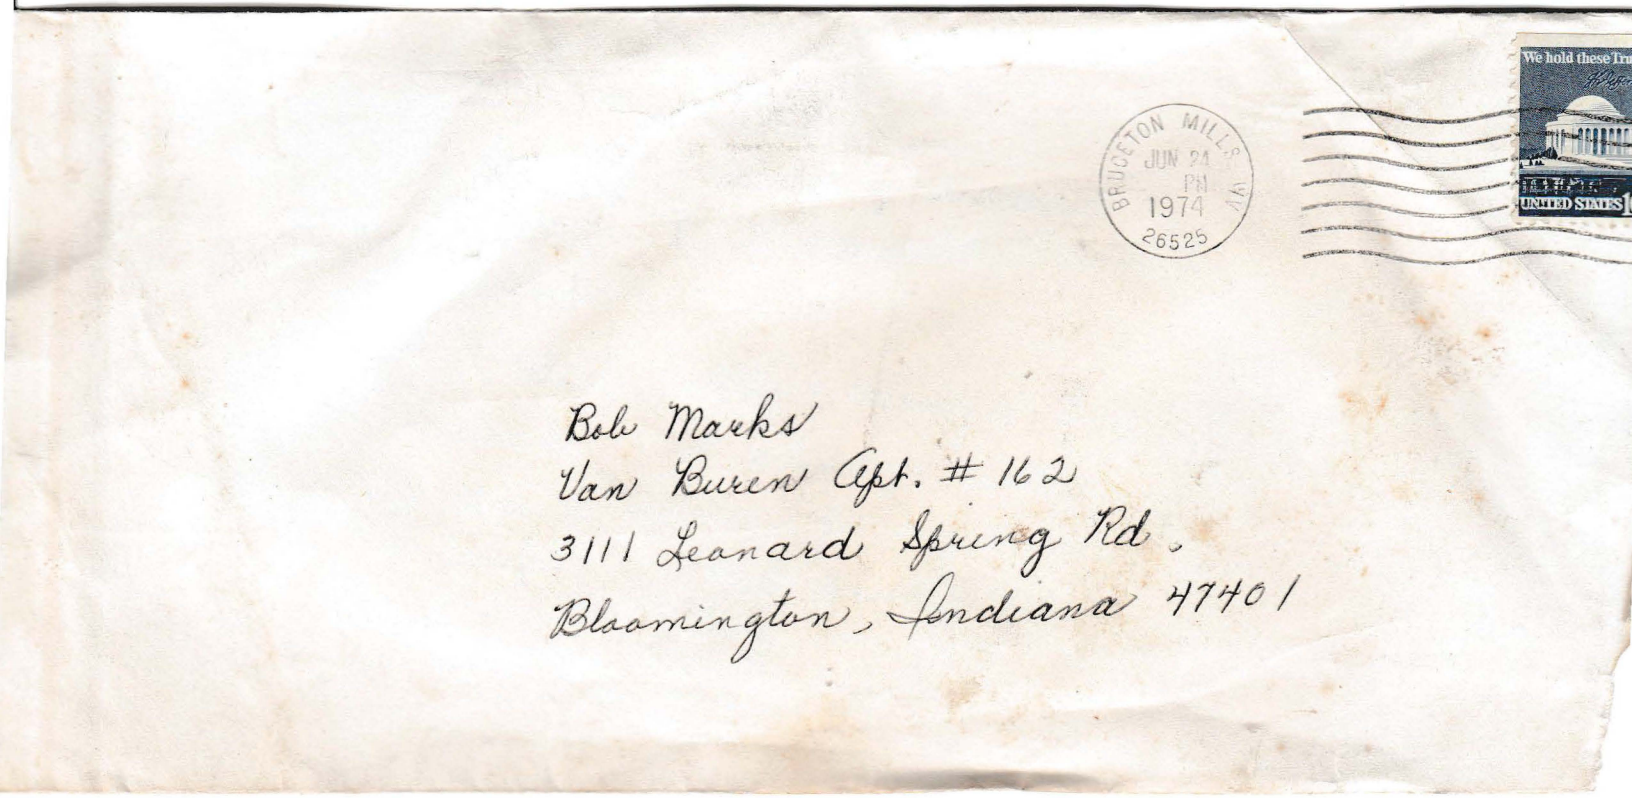

Keep a file on all Correspondence & work Done for Corp.

Read the Regulations and if you want Changes, note them and we can change at any time.

Mr. Gibson called last night and said he received many compliments from all of the people but mostly ~~and~~ from the Young class. The speaker has to wait a lot of time for response and as Gibson says they seldom get to hear the best as it is told among themselves. Bob also said about the $20.00. Don't take the pleasure of giving from Gods people as this is what they want. Their answer to why did they give was "It wasn't enough" I told him you felt that it took from your gift and he said you was one and they are the Church & wanted to give. Sooooo Maybe you can get a Moody Bible course with it or in some way Use it for Gods work.

Daily have one expression suitable for the occasion, and that is. "This is my son in whom I am well Pleased" God said that of Christ when John the Bob. Baptized him.

Love Dad.

Hi- "My Two"

Hope everythings coming along o.k. for your jobs- your wedding - your honeymoon. We'll be calling you.

I'm at the trailer with your dad. He needed a rest so we went up to visit Melba + Mat (+ Ray got to go into D.C. + see the monument) -- it ended not a rest at all, but enjoyable.

I'll be contacting Mr. + Mrs. Jewett too.

Keep yours + Connies goals in mind + work

quietly + steadily toward them. T. Roosevelt(?) once said---

"Walk softly + carry a big stick." I always interpreted this to mean (for my own benefit) --- Work quietly + patiently + keep my goals in mind + tolerate others (big stick) You decide for yourself what it means. Love. Mom

P.S. Tell Connie + parents my dress is apricot --- plain colored.

Lenore Marks

Love you!

+ We miss you!

But -- it won't be long now!

The first year he receives 70% of Eager rate the second 80% third 90% and the forth 95%. After the fourth year he is a full fledged operator and gets top pay.

Tryed to call you a couple of times today but didn't get any answers. (guess you know you didn't answer)

Ordered us a corse with Moody Bible Institute. Thought a small one would be a good pilot for getting in the know of what they expect and get me in the mood of study and learning. They have a larger one. I realy want but will try this one first.

Your tape recorder is ordered and should be here with in a week. I'll let you know when it gets here. I'll probbly play with it untill you get here to take it with you.

Jimmie Mack was sick for a couple of day and Dad isn't too well so I may go down home for a couple of week and help feed. May get a chance to work on the Cabin some.

See you.

Hi Bob.

Sunday April 9, 1972

Went to church today with Kay - He enjoied the sundayschool portion but was figity during the minister portion. I remember how I used to hate setting through preaching. Was ask by Rev. Kerby if my wife, son and myself would like to go to Jerusalem with him & the Gibsons in about 18 months from now. They are to get the reginments together and give us some Ideas of costs time and othe incidentals connected with going. I'm flattered by being ask and proud that you was included. Eighteen months gives up plenty of time to get every thing ready and desirable if we can & want to go.

Hope you have received my other letter and are proceeding to take care of any business pertaining to Chief's towing Service Inc. Don't let any opeation go astray of the law. It is a must to get educated in operating a Corporate business if we are to keep it going. Now in Indiana as well as Ohio. Be sure that John understands this also.

You left an error of uncertainty about when Graduation was going to be. Make sure we are aware of the Correct date and time as soon as you are sure.

Zack will probably be in the Union local 18 within a few weeks. He will start as an apprentis which runs for 4 years

The first year he receives 70% of Eager rate the second 80% third 90% and the forth 95%. After the fourth year he is a full fledged operator and gets top pay.

AMERICAN RED CROSS

Hello,

How is Dad, Jack & everyone there? Haven't heard from you but once since I got here & that was over a week ago. Guess they haven't been able to keep track of me as I've been moving pretty often lately.

This turned out to be a pretty nice place. We pull guard three hours & get off fifteen except for a little drill & a few classes on military courtesy. Never had it so easy since I was in Belgium.

We got our rations today. I got six packs of cigs & one pack bar of soap to last two weeks. If you don't mind I would like a carton of cigs about every week or so. Just in case something like this don't we-wam

FORM 539 A

comes up again.
As for the packing of the
others it was O.K.
Remember the grades
you sent me? They only
listed subjects that I
had completed. What I need
is a copy of the subjects
I need ~~to~~ to graduate from
I as that is the school
I chose to use. Hope this
don't get tired of putting
up with me.
Now is Basil & his
wife getting along. Tell
him if he ever get in
the army again to stay
out of the Paratroops. They
all just a bunch of kooks
now I have a very poor
reputation with those
of the army.
I'm sending a
clipping from The Divisian
Paper dated Leyte. It was the
class we trained that

went to Rome. I left
four weeks ago when
they were third classmen.
Write me often &
I'll do you all the same

Apr. 16, 1935.

Dear Ramsey:

Got your letter yesterday Nellie forwarded here. We looked and looked for a letter from you, couldn't imagine what was wrong, but we never got any answer from the last letter we wrote.

I can't understand why you couldn't write any time, or anything. What you say shouldn't make any difference to them if you are in the condition they say you are. C. Probably their opinion is all.

Pad took quite a laugh

over what you pulled about teaching animals tricks. You know him alright, and his opinions are stronger than ever.

We can't get one word from South Carolina. Looks like there's something wrong. Dad said for you to give him some of the men's names who were working there with you, not the officials &c. and he will try to gain some information in that way. We believes there's the place to start.

Dad & Mother both wants you transferred near home and wrote out there asking

about it, but they never mentioned it when they wrote, only saying you needed treatment yet, so you see just how it is, can't do much. you take care of yourself, and try and get your physical health gained back, and as to your mental condition, I believe that will take care of itself, according to your letters you write. I can't find any defect in them. ha. Oh well, we only live once, and we never know what we might have to endure, but as long as theirs

life their's hope, so try and be patient and dad will do every thing he can for you, as he has always done for us all. In sickness or trouble he has always come to our rescue. I'm with him now, but aiming to help mother out all I can, and my family is small, just the one. Bill is out again trying for work, but without a political pull every thing seems in vain, but we are still hoping.

We have a pretty nice snow on this morning, and quite a freeze with it.

I'm afraid fruit is gone for they were in full bloom. It has rained since the last of March. Verle has been trying to get his potatoes planted and his clearing done, but has been too wet. Dad says he has a fine clearing. He was always good with an ax you know. He and Arden both are making great musicians. Ha. Do pretty good. Verle plays any string instrument, and Arden picks the guitar and has a fine voice now.

Well I will have to close

and go up to Vivians to wash. She is all knocked out. Looks terribly bad. Dr. Sloan from Clarksburg is doctoring her. She isn't doing any good at all.

I hope you will be able to get a letter sent here, soon, for we are all anxious to hear from you. Be good and take care of yourself and if you want to give dad a hearty laugh, just crack a few more jokes Ira.

Hope this finds you still improving. Love, your sis, Violet

Hello Jack,

I've been sort of neglecting you of late, haven't I? as I told you we've had sickness. They all seem to be on the mend now, if I can just keep them from taking cold. Mom was a little better Friday, than when I heard last.

We were very proud of your shooting average. It was excellent. You were in the fourth group and with that many it was good. What kind of guy is that Barlow with a 200 record. He must be a western gunman we read about. I shall keep the score sheet. I like to read the names and try to guess their nationality. Guess they are all Americans though.

I had a letter from Basel the other day. He is still in Baltimore. Guess he is going to work there. He never mentioned coming home. He had left a pair of his paratroop shoes all muddy on the porch and he wanted me to clean them for him. Betty cleaned and shined them up nice. She wouldn't do that for you would she? I think she would now, because she

is missing you a lot. She said the other day she could hardly wait for you to come in. I'll bet you scrap in two hours after you get home.

Yes, we all would like to see a duplicate of your medal. The boys would enjoy it better than anything you could send them I know.

We may get the store I was telling you about. Arthur was waiting to hear from Beck Lynch (his son-in-law) and he heard and he isn't coming to take it over, so probably we will buy it. You can work on it when you get home.

Well I want to write a line to Bussel so will quit & write more next time. I have a heavy expense this week so can only spare you 2 bucks. Hope they will tide you over.

Write soon,

Love, Mom.

Sometimes you get discouraged
Because I am so small
And always leave my fingerprints
On furniture and walls.

But every day I'm growing–
I'll be grown up some day
And all those tiny handprints
Will surely fade away.

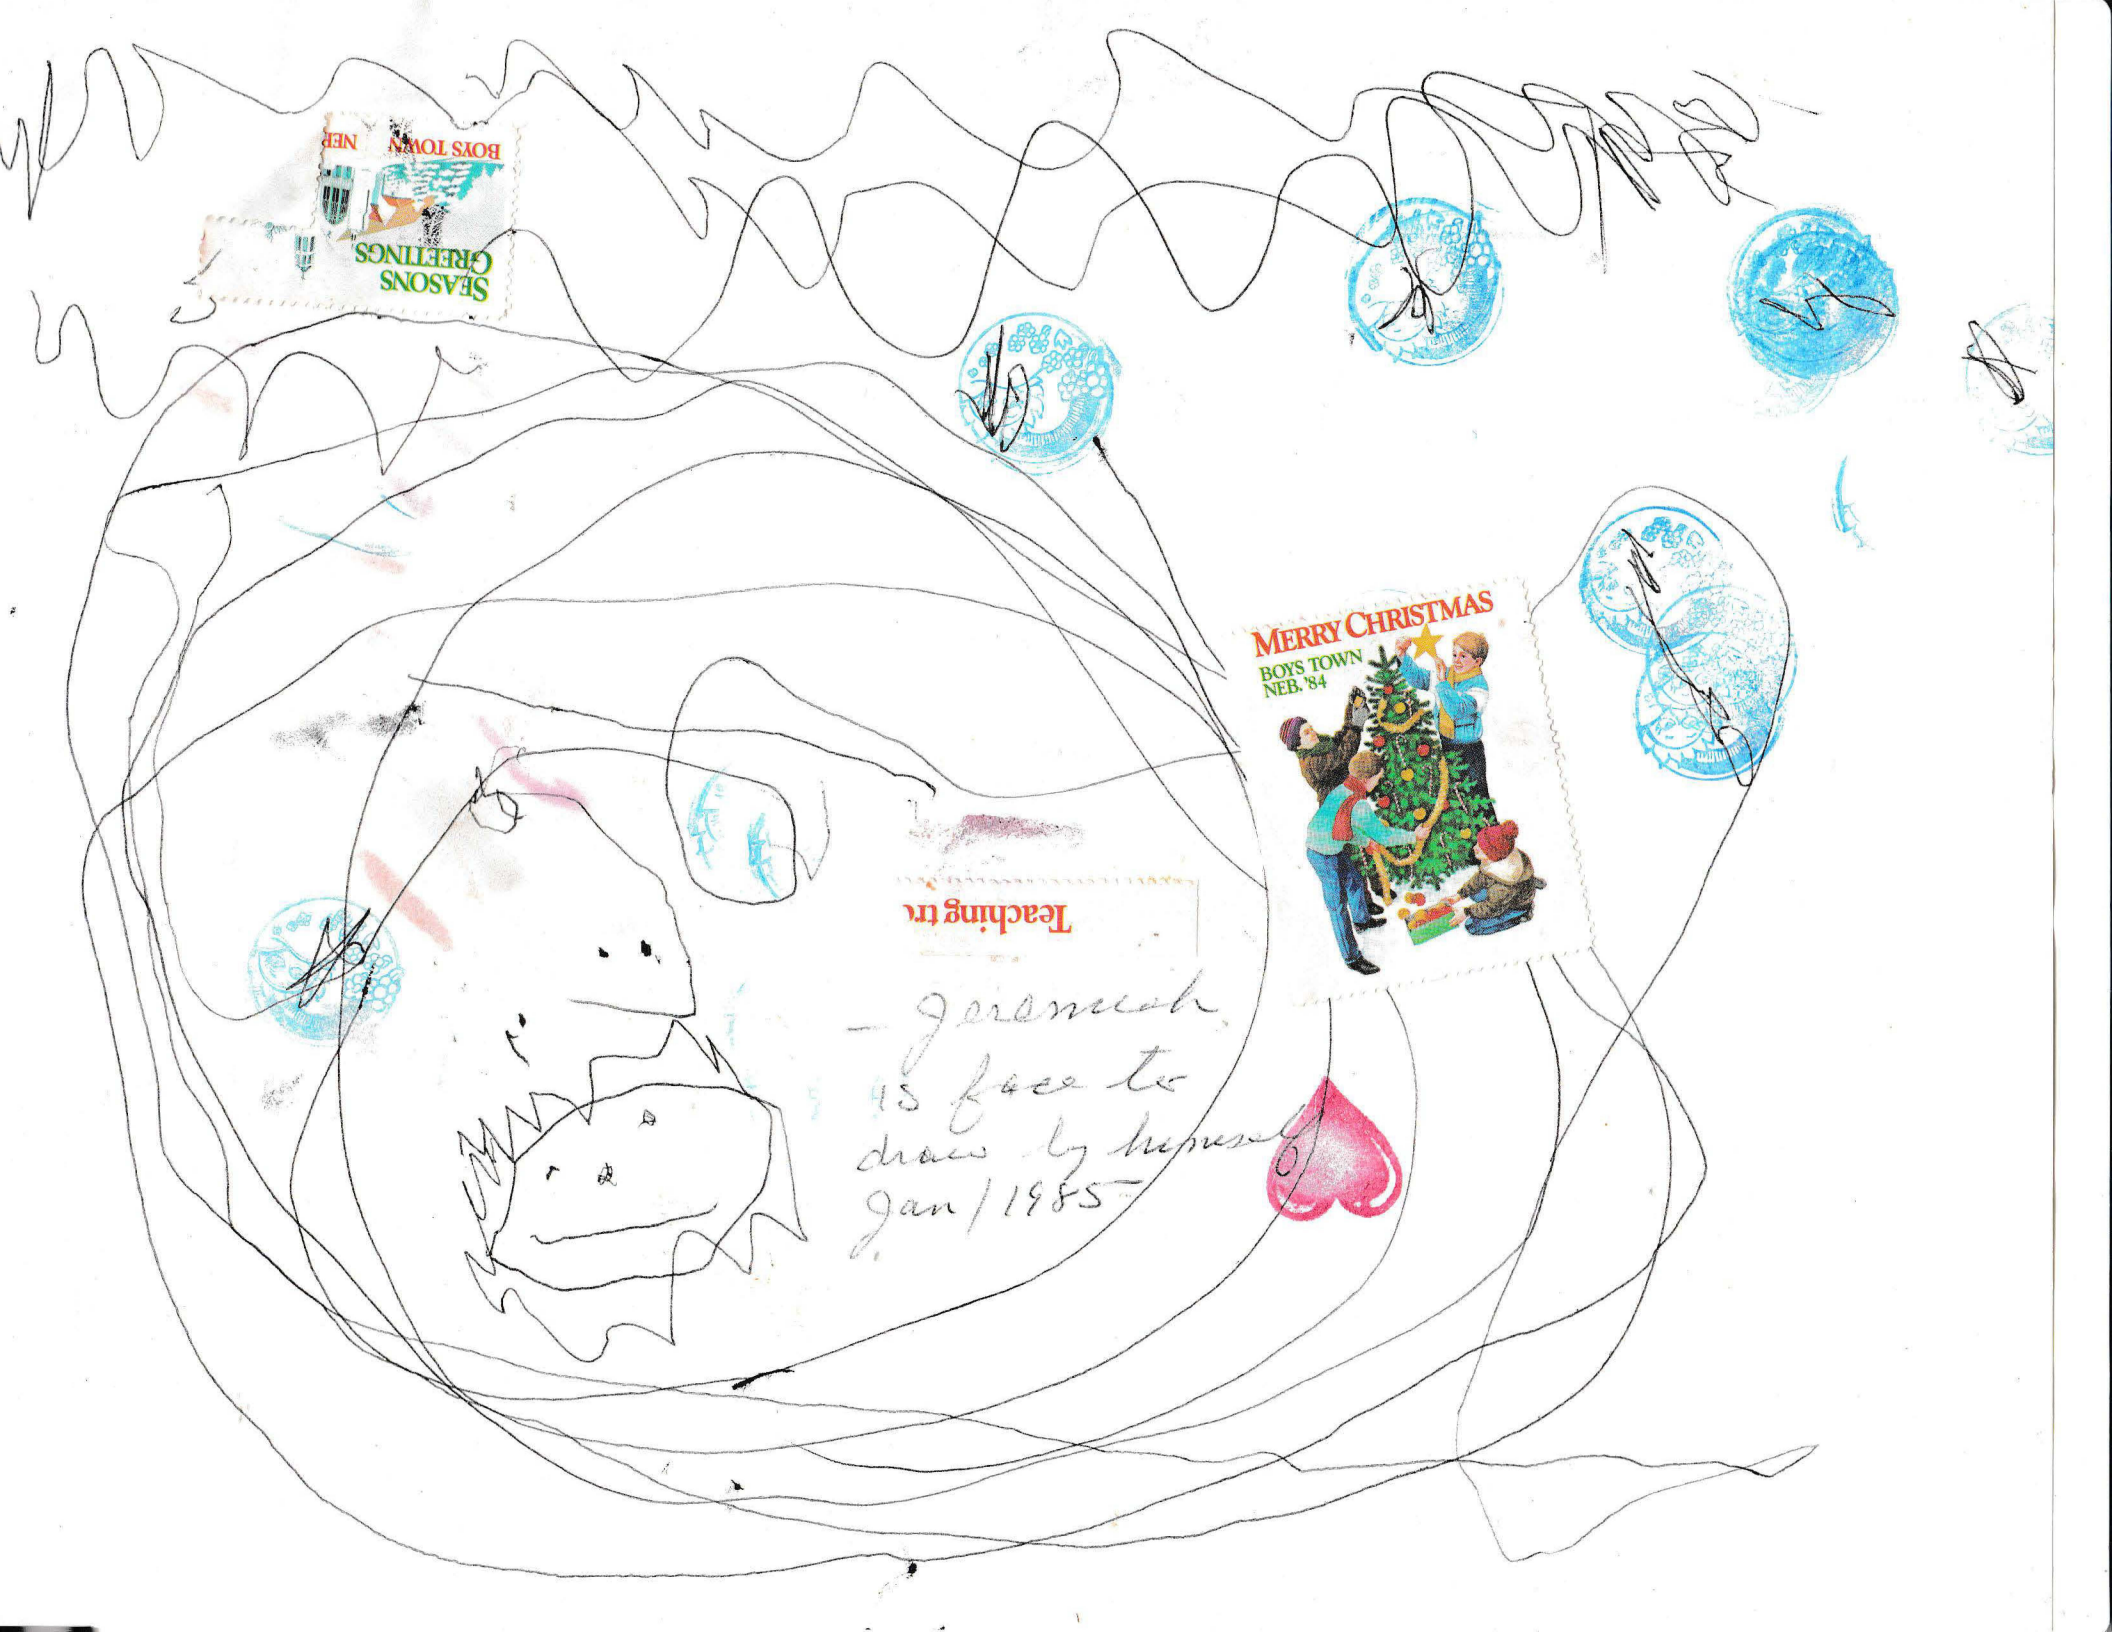

So here's a final hand print
Just so you can recall
Exactly how my fingers looked
When I was very small.

Bob, Connie, Jeremiah, Joshua & Marilee Marks

1131 199th St. S.W., LYNNWOOD, WA. 98036

Dear ~~Tom and Kathy Krile~~,

MERRY CHRISTMAS!

How are you? We hope all is well and that you won't mind our computer letter. I am practicing on our new computer and I thought my yearly letter would be a good motivator. Before the P.C., the friends who were at the first part of the alphabet got decent letters:but the friends at the end got very little news.

Here's a summary of the activities of our family this last year. Please read it carefully as we will quiz you the next time we see you.

January started out with a delightful time as we drove to California in our van with our family and we were able to meet Bob's brother, Ray, there . We had a magical time in Disney Land, and Knox Berry Farm. There were no crowds and we returned home just before the beautiful sunshine ended. Bob and Ray were able to see The Johnny Carson Show live. Connie and Ray and kids met a movie star on the beach. We were just about the only ones out there. Last week, Bob asked the boys where they would like to go for a special treat. In his mind he was thinking of something like McDonalds. Joshua enthusiastically exclaims, "Great Dad, lets go to Disney Land!"

Marilee is now 20 months old. She is such a joy to watch grow and develop. She is walking and running now and she has 2 and 3 word sentences. She tries to do everything Jeremiah and Joshua do. Jeremiah , now 6 1/2, stands on his head and then you see Marilee trying to stand on her head. Joshua bounces on the trampoline and throws beanbags into the basket and now Marilee does the same. Marilee has nicked named Joshua, age 4 1/2, Ya Ya.

Connie has a new career - Home Schooling. We have made a commitment to home school Jeremiah this year for first grade. He loves it! He says, Yeah, a math lesson!. We don't want the public schools to kill his wonderful enthusiasm. Every week, we go to gymnastics lessons 3x's ,swimming lessons 2 x's, Aikido lessons on self-defense. Also we participate in library story time. The Christian home school support group has weekly meetings, such as picnics, gym times and seasonal parties and many field trips of which we take advantage of. Connie teaches Reading, Writing, Arithmetic, Health, Science, Social Studies. Bob teaches Piano and Organ lessons,Drawing, Baseball, and he fills in any gaps that I might not get to.

Joshua also enjoys swimming and gymnastics and he goes to preschool 2 times a week. He also participates in many of the home school activities such as learning our new address by making playdough numbers and letters. He still is confused about the sun going down extra early in the winter. When he wakes up from his nap, he is angry with me, because he thinks I let him sleep through the night and he missed his play time and dinner since it is dark outside. Joshua is so huggable and sweet on the one hand and then the biggest tease on the other.

Jeremiah is very proud since he beat Bob in doing situps. Jeremiah can easily do 100 situps without stopping.

Lenore, Connie, Marilee and Bob went to Europe in June of 1988. It was the first time off of the North American continent for three of us. All three of us suffered severe jet lag for three days. We left Jeremiah and Joshua with our good friends, the Eitelbergs. They had fun pretending that Michael and David were their brothers.

We rented a car and drove down the Rhein river (Actually, beside it). The most memorable sites along the Rhein were ancient castles. One was named Marksburg. "Aha!" I thought. "I have found my roots!" No such luck. The castle was named for St. Mark who wrote the gospel bearing his name. But then again, we may be also.

At the end of our trip down the Rhein was Weisboden, the city of Connie's birth. We found the U.S. military hospital in which she was born. The drawl of the uniformed sentry was out of place in Germany. We explained our circumstances and showed him our passports. He let us in under the condition that we not trespass on any of the areas marked *RESTRICTED*. We found the building in which Connie was probably born. Connie and Marilee posed and I took a picture. We thought it would be great to take another picture at the entrance gate with *The Weisboden Military Air Force Hospital* sign in the background. Connie was posing when the guy with the drawl came rushing out of his little building by the entrance gate. "You all can't take pictures in here!". I smiled pleasantly. "Could we just take one of the sign at the entrance". He responded unpleasantly. "If you take another picture, I'll have to call the Weisboden police." We weighed the alternatives, got in our car and left. Two days later when we were leaving Weisboden, however, we drove past the installation and Connie took a picture of the sign out of our car window. I guess it was the challenge of getting in the last word.

Marilee learned to walk in Germany. It took us three months to get her to quit doing the goose step. (Just kidding).

While in the city of Cologne, we were able to participate in a Christian Holiday celebration including singing and parading in the streets. The procession ended at the awe inspiring Cologne Cathedral built in 1248 .We were able to worship GOD with the German people in a Mass service. Bob and I both had tears in our eyes as the experience was awesome and one we will never forget.

Because of a weak U.S. dollar, Helsinki was expensive . Bob met a man at the conference who was booked into the same hotel in which Reagan had stayed a few weeks earlier before going to a summit meeting at Moscow. The poor guy went down to dinner and they sent him back to his room for a tie. He returned, opened the menu and noticed that an apple cost 28 Finnish marks ($7). He closed his menu, walked to his room and decided that prudency was the best policy that night. In Europe, however, buffet breakfasts were included in room rates. We therefore typically porked out in the morning and fasted for our evening meal.

In September Connie's father, Charlie, had triple by-pass surgery.
Connie and Marilee flew down to Corpus Christi to be with him before , during and after the surgery. God answered our prayers as he has recuperated very well and says that his memory and energy levels are improved. We were so grateful for the fabulous hospital located on the beach as my father could look out his window and see the Gulf. However my father was released to go home early because of people needing to evacuate the city because of the hurricane Gilbert. Dad and Doris left right away to go to San Antonio for safety. After a few days there, they decided to go home. A few hours after they left San Antonio, Hurricane Gilbert struck just where they had been. We feel my Dad must have

more of his life to live. One special part of the trip was getting to know Doris's daughter, Diane and husband Dave, and son Cameron. My
brother, Rick, was able to visit him during part of his healing time.

We won't tell you of all our travels this year, as Bob was gone almost every month to one conference or another. However, one other trip was eventful. We were able to go with Bob on one of his business trips to Richland Wa., which is famous for its Hanford Nuclear site.
We enjoyed seeing the fall foliage as we crossed to the other side of the mountains. Our beautiful hotel was located right on the Columbia river. No one else was hardly there, so we had the river, the park, and the huge heated pool all for our family. The boys thought we should move there. Actually real estate is rather cheap there.

Since we enjoyed the pool in Richland so much, we finally decided we really might like to buy this new house we had looked at,which happens to have a pool. We prayed about our decision on Tuesday night and asked God to give us a sign as to what his will would be on this house. Surprise! The very next morning, our neighbor rang our door bell and said, I heard your house might be for sale. If it is, I definitely want to buy it before you would put it on the market. This is even more amazing, as only a very few people even new we were considering selling our house at all. Well he did buy our house and we did buy the other one. Our new , 14 year old house, has 6 bedrooms,plus 3living rooms, and 4 bathrooms and three fire places.It is about 4250 square feet. We like that it is on a cull-de-sac and that the property is almost an acre including a forest. We will really enjoy the master bedroom with french doors that open onto a huge deck that overlooks our forest. The things we don't like are that the house payment will be much bigger, so now we are broke and we may have to wait many years before we can afford to buy the furniture that the house needs. Also, Bob will have a longer drive to the U. of W. The house does need work, like a new fence around the pool to keep the kids out and there are even blackberry bushes growing right up to the house. Oh well, Bob, was looking for something else to do.

Our new address as of Jan. 7, 1989

1131 199th St. S.W.
LYNNWOOD, WA. 98036

We don't have our new phone number yet. But we have plenty of room, so we expect a lot of visitors.

Bob has been busier than ever in his engineering. He hopes to finish a graduate textbook in Jan.on the Shannon Sampling and Interpolation Theory. He is now the new Chair of the I.E.E. Circuts and Systems Technical Committee on Neural Systems and Applications. He is also the new Chairman pro-tem and secretary of I.E.E. Neural Network Committee which oversees all aspects of Neural Networks in I.E.E.He was awarded Honary membership into the Puget Sound Section of the Optical Society of America.Bob is in charge of 8 Ph'd students and 3 Master Students. His publication list is to long for me to include.

As part of his hobby,he completed his Gunsmoke Trivia Book this fall!

As part of his ministry, Bob has enjoyed becoming more involved with Campus Crusade for Christ this year .His fellowship with his own Grad. Student Bible study has been very important to him and we hope a blessing to the students, too.

Tanya,our live-in Christian friend will be moving to our new home with us. Next summer, she plans to leave and go to Russia as a tentmaker.(Missionary). She has been very deligent in learning the Russian language at the U. of W.

In case some of you are wondering who Monica is, she is Connie.Many of my friends now call me Monica, and the name seems to suit me.

Well, we have a new house, a new phone number coming, and I have a new name. However, we still have the same love for you. We hope to hear from you soon!

HAPPY NEW YEAR!

Immunization recommendations and schedules vary slightly among physicians and in special situations. They may change with development of new vaccines or new information about vaccines. Recommendations depend upon health factors, risk of exposure to disease, and completeness of previous immunization record. One can usually continue the schedule at the point where immunizations were stopped.

The Many, Many Children

The many, many children
Throughout the world so fair
Are children of our Father,
Who keeps them in His care.
No matter what their color,
He loves them one and all;
No matter where they're living,
He hears them when they call.

Let us who are His children,
Who worship Him today,
Think often of the others
Both near and far away,
And send to them the story
Of Jesus and His love,
That all may join in worship
And praise to God above.

Bob and Connie (Jewett) Marks, Seattle, Washington, announce the birth of a son, Joshua Jackson Jewett Marks, on March 2, 1984. Joshua weighed 8½ pounds. Waiting the arrival is brother Jeremiah.

The Grandparents are Mr. and Mrs. Charles Jewett, Corpus Christy, Texas, Mr. and Mrs. Jack Marks, Cleveland, Ohio. Great-grandparents are Mr. and Mrs. Jack Jewett, Terre Haute, IN.

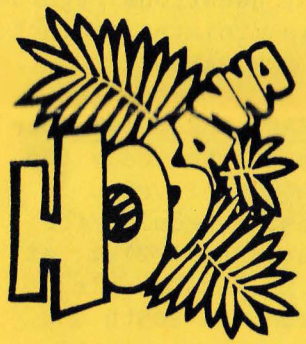

A number of people have inquired about contributing toward the purchase of a new piano. Some gifts are already being received. A "Piano Fund" has been established and you may give offerings toward that purpose by marking them appropriately in an offering envelope. We will purchase a new grand piano when monies enough to do so are received.

TRINITY BROADCASTING NETWORK is now transmitting all Christian programing on Channel 20 UHF frequencies. A UHF antennae should be used for best reception, connected to the UHF antennae terminals on your television set.

.....

PALM SUNDAY, APRIL 15TH, 6:30 P.M.

Next Sunday night it will be our privilege to have POLLY PERKINS with us. POLLY is affiliated with the 'Jews For Jesus' organization. Having found Christ as Saviour, she is able to share tremendous insight into the significance of Old Testament ceremonies. Of all Old Testament festivals, the Passover and the Passover meal are among the most graphic in their revelation of the coming Messiah. POLLY will be teaching about these truths as she reenacts a Passover meal.

.....

JOYCE LANDORF, in her book, "The Richest Lady in Town," points out that talents embrace more abilities than singing, painting, or playing the piano. Among her "whatsoever" talents (Col. 3:23) she includes the art of being cheerful and hospitable, speaking with loving tact, being dependable, being a good listener, and rearing children for God.

A source of pride and joy—
Bet both of you
are really thrilled
With your new baby boy!

How clever of you to have

Your news is just the greatest
And congratulations go
To quite the proudest parents
That one could ever know.

And although we're data conscious in
This vast computer age,
A baby's something so much more
Than weight and lineage.

For God has fashioned each new life
With wise and tender care,
And poured into each tiny frame
Love beyond compare.

And now He has entrusted
This precious one to you,
To train up in HIS glorious way
As only you can do.

JOSHUA

1. You will pass some good-sized clots and experience cramping. This is normal. You may go through 8-10 pads a day.
**Massage the fundus (top of the Uterus) 20 or more times a day.

2. Take both the baby's temperature and yours twice a day at the same time every day. Baby's temp. will be one degree higher rectally.

3. If you have stiches then NO bath only showers (not alone), until the stiches are dissolved. Also, with stiches, keep the area clean by rinsing (not douching) with betadine-warm water solution with each pad change and trip to the bathroom.

4. Apply rubbing alcohol to the cord with each diaper change.

5. No tube bath for the baby until the cord has fallen off. Sponge bathes are fine.

6. No heavy lifting other then the baby for a few days. Let someone pamper you for awhile-you deserve it!!

7. For Little Boy Babies only, sprinkle warm water over testicles and penis at first diaper change. This stimulates urination.

Call if:

1. There is an elevation of tempature.
2. The whites of the baby's eyes are yellow.
3. You have any questions

Dear Joshua, 4-26-1984

I left Cleveland, Ohio February 14, 1984 to come to your home in Seattle, Washington to be at your birth.

When I arrived, everyone was very happy. Your mother was huge, and beautiful, your father radiant with anticipation. Jeremiah was almost two. You would be my second grandchild. My arrival meant everything was ready and you could be born anytime now.

You took your time. Each day and night we thought would be [the] day or night. Your mother was as large as we thought she could be. Your mother and father were much in love, following the advice of the doctor as they waited. Jeremiah added to the joy, saying "baby."

One false alarm. You wanted to wait longer. The doctor was called again. He

told us to go back to bed. The doctor was wrong. You had decided it was your time to enter the world.

Ruth, your mother's housekeeper, helped during transition. The doctor and others were called and arrived. I knew those trained in childbirth would help.

As I watched, I wanted to give my strength and courage to your mother, even tho she was strong, courageous and determined. I knew I could not cry. I watched my son, looking like a tousled-haired boy himself, lovingly and caring show his love and concern for your mother. Ruth was encouraging.

I marveled at the way the doctor, your mother and father and you worked together to make your arrival. Your birth was quicker than I thought it would be. You pushed yourself right out,

For an instant, I felt anxiety, until I heard you cry.

My first words, I think, were "He looks like Bob" because I saw a resemblance, or maybe wanted to.

My love became stronger each time I held you or bathed you. I sensed you recognized my touch. You would quit crying unless you were hungry.

I went to your dedication at Shoreline Community Church on April 8th. I left on April 11th.

A lot of living went into the two months I was at your home, a lot of love, caring, sharing, and growing to know each other. I had a new grandson and his name was Joshua. I had gotten to know your brother Jeremiah better.

You both have been blessed with Christian parents that have "bunches" of love for you and grandparents that you can come to any time you need help or just for a friendly visit and don't forget Uncle Ray - he loves you too.

Love, Grandma

Dear Jack,

I received your letter the other day and decided to answer back sooner than I did the other time.

How is everything treating you? Fine, I hope.

I was over at Dan's a little while ago. She has been sick for about two weeks. Jackie didn't go to school today either, but naturally I did, why can't I get sick. Maybe I'm just too darn lucky.

I have been spending most of my time, skating, which is only natural for Dan and me to do. I am learning a few things on skates and it is a lot more fun to skate now.

Nothing much happens around here worth while writing about, same

old Clarksburg, busy as ever doing nothing.

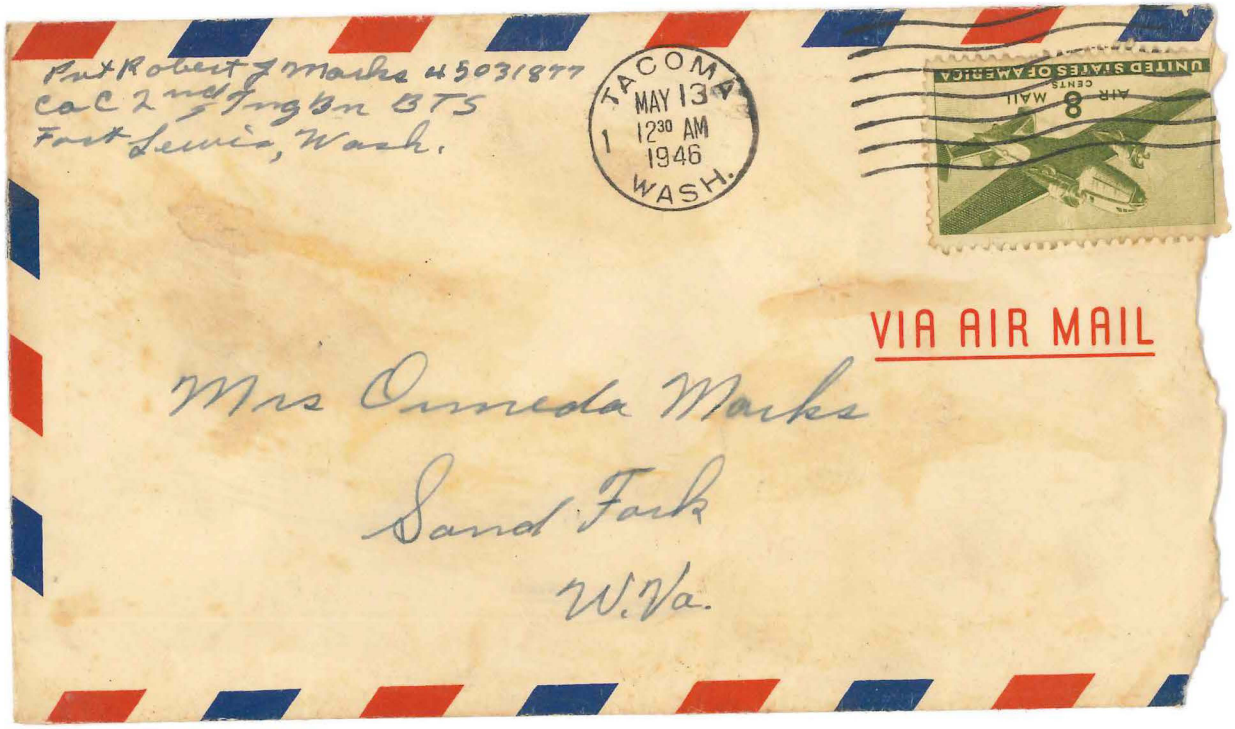

You asked me if I would date you while you are in Clarksburg - yes, I will & would like to too.

I have a test in Social Science tomorrow, and should be studying, but I would rather write to you.

Well, so long and take it easy. Write soon.

Love,
"Ja"

I haven't any pictures of myself at the present, but as soon as I get one, I'll send it to you. How about you sending me one of yourself $$$ O.K. $$$

Dear folks

I'm getting here on my bunk thinking of you all & what your doing. You are all probly in bed & asleep as it is 10:30 here & three hours later there.

I haven't heard for sure when I go to Texas but I heard a rooner that a bunch of us was leaving the 20th of May. When we do go I get 15 days delay in route & 5 days traveling time. If you think it will be a good idea to come home I would love it. If you don't have the money to spare you can let me know. The other day when we signed up to go I took the 15 days as it would be my only chance & I didn't have time to ask you all.

Is the old car in running shape. I hope so as I have some plans which involve it. I want to see Ja for one thing and another is to have a talk with Lenora. Don't worry about me being soft but I just want to get things straight.

How is fishing now Dad? I'll bet they are thick up at the farm. I would like to see Dean pulling a fairly nice one. I'll bet he would be tickled pink.

How are you doing in school Jim? I bet you learned a lot this year. When I come home I want to see you write my name so Practice, will you.

How are you Max? Think you can whip me when I see you? I'll bet you are good with that

I had a letter from Basel last week. He is in Baltimore now, but he said when you came home on furlough to let him know and he was coming home to see you. I hope you can come soon.

The Basket Ball Tournament starts this week and our boys drew Normantown for the first game. Thats tough isn't it? I don't think they have any chance to do anything as their players are all weak. Rolla Ray Burk is about the best of the new ones. I think Web. is about the best of the old.

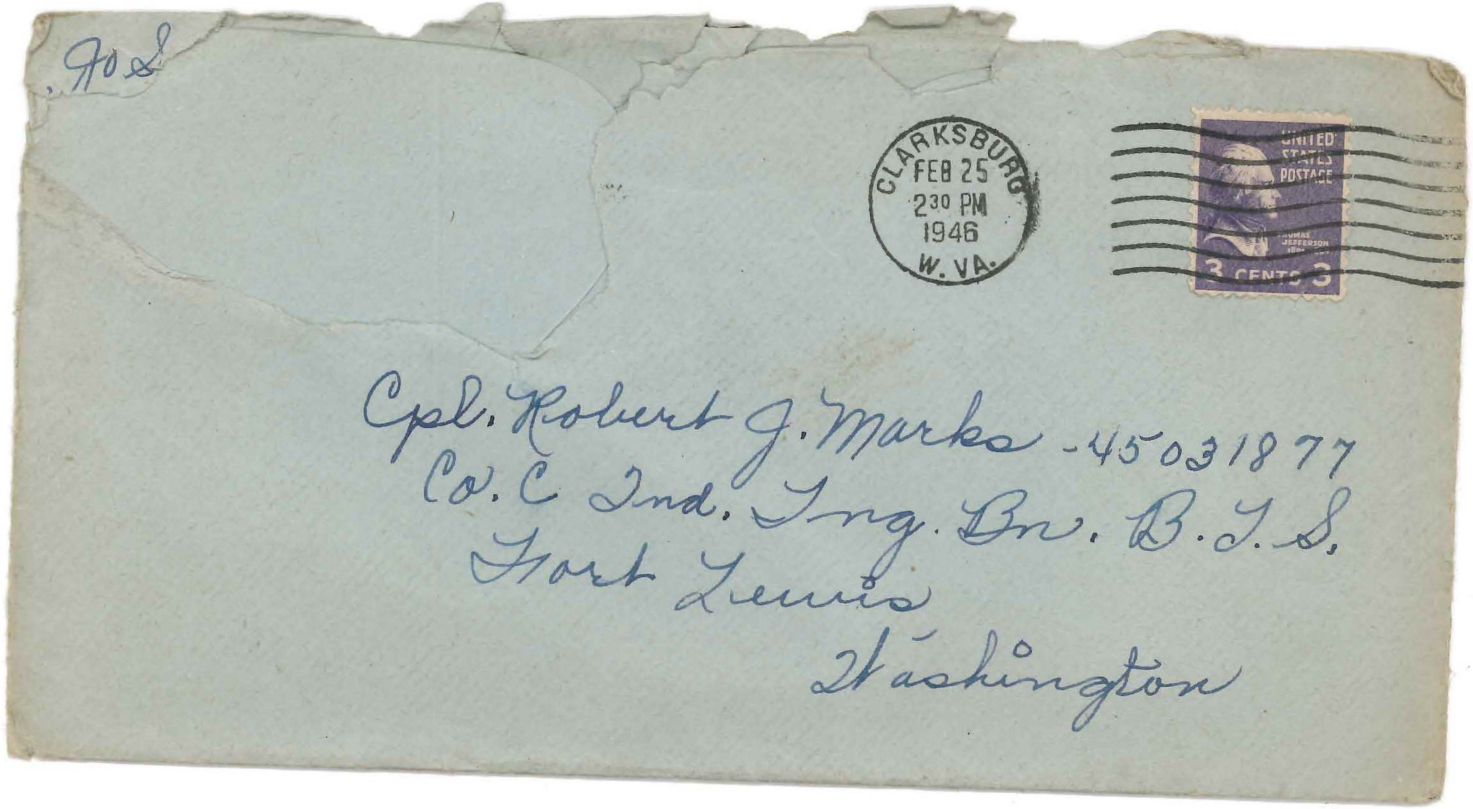

Paul Stoner is wanting to joinn the Maines as soon as his dad gets able to go sign his papers. He is only 17 you know.

Well Jack, I hear one of the boys coming down stairs. I'm guessing it is Jimmie. I want to get this in the mail as Beth goes to school as will close. It doesn't seem like you are getting all my mail. Notice if the address is correct on this one.

By the way, Helen said you owed her a letter, and she has been wondering why you didn't write to her.

Dear Jack,

Sorry I have'nt taken so long to answer your swell letter and thank you for the lovely valentine, it was sure pretty. I liked it a lot.

Well, how is Army life treating you now, fine I hope. My brother was home for 60 days, went back last Friday. I sure had a lot of fun while he was home.

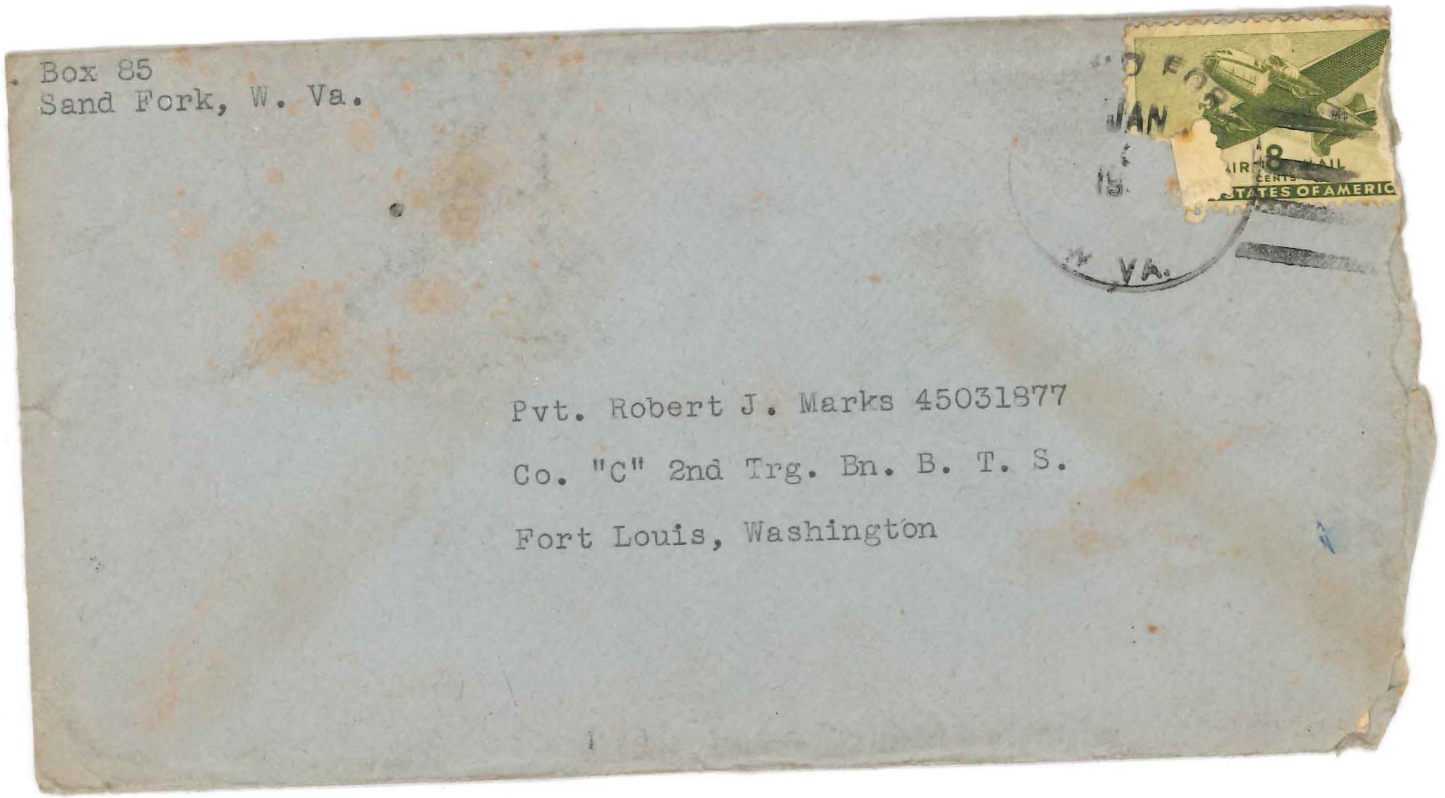

It is snowing now, it is about time for it to, as we have hardly had any at all. Yesterday it was too hot for February. In fact I am hot now - had just put more coal in the furnace - no wonder, huh?

As for school and me, we are getting along as usual together, which is good

sometimes and sometimes not. We haven't got our class rings yet, we were supposed to have gotten them in Dec. sort'a odurdue - huh?

This is all for now and answer when you find time.

Dear Son,

I received your letter of the 30th today. I am sorry you are broke and have a chance to leave camp. I hope you did as you suggested, and borrowed some money to go to town on. Your dad gives me $20. a week to run the house on and I'll save what I can from that and send you each week if it will help you out until you receive your pay. I'll send you $5 or $10 tomorrow. You know your dad doesn't like for anyone in the family to spend money he makes but himself and I'm entirely broke. I doubt if I even have a dollar in the bank. Living expenses are awfully high and he isn't making so much, and saving less.

About your grandma. I'll not send for you unless she passes out, which is quite likely anytime from the way the Dr. talks. He says there isn't a thing he can do but ease her suffering at times. Of course she may be with us for some time, and then again she might

Vick went by to-day and stopped to get Tip and he said if she was any worse he would drive down and tell me. He hasn't come so I'm taking it for granted she is the same.

You never told me how you made it Christmas night. I suppose you had it any trouble.

I just had a sound with Betty. ~~Lillian~~ She wanted to go to B-ville to a ball game and I wouldn't let her go. She first wanted to get a bunch of girls and have Wayne Keith to take them. I vetoed that so she went to Helens and Garretts and Helen were going and of course they asked her to go. I knew they were just doing it because of Helen so I wouldn't let her go on Helens popularity. Well she threw a fit = to yours. Maybe I did wrong but she is only 14 and she can't keep up with Helen & Hannah Lou and she just as well not start it. Well we hit troubles everywhere don't we?

Helen said she saw a girl named Ann at Clarksburg, and she asked her who her boy friend was, and

Ann said she was trying to make up her mind between 3 sailors and a soldier. She said she guessed the soldier was eliminated since she had a letter from him saying he wanted to just be friends, and she guessed that was the way she wanted it too. Doris told Helen that the soldier was you.

Yes, your dad is working on the machine. Thats where some of his money is going. He spent $16.00 for some little gadgets that I believe he could have substituted until he gave it a trial. He says he couldn't, so probably I am wrong about it. Anyway he has high hopes. But he is awfully slow.

If you think of an improvement send it to him some way.

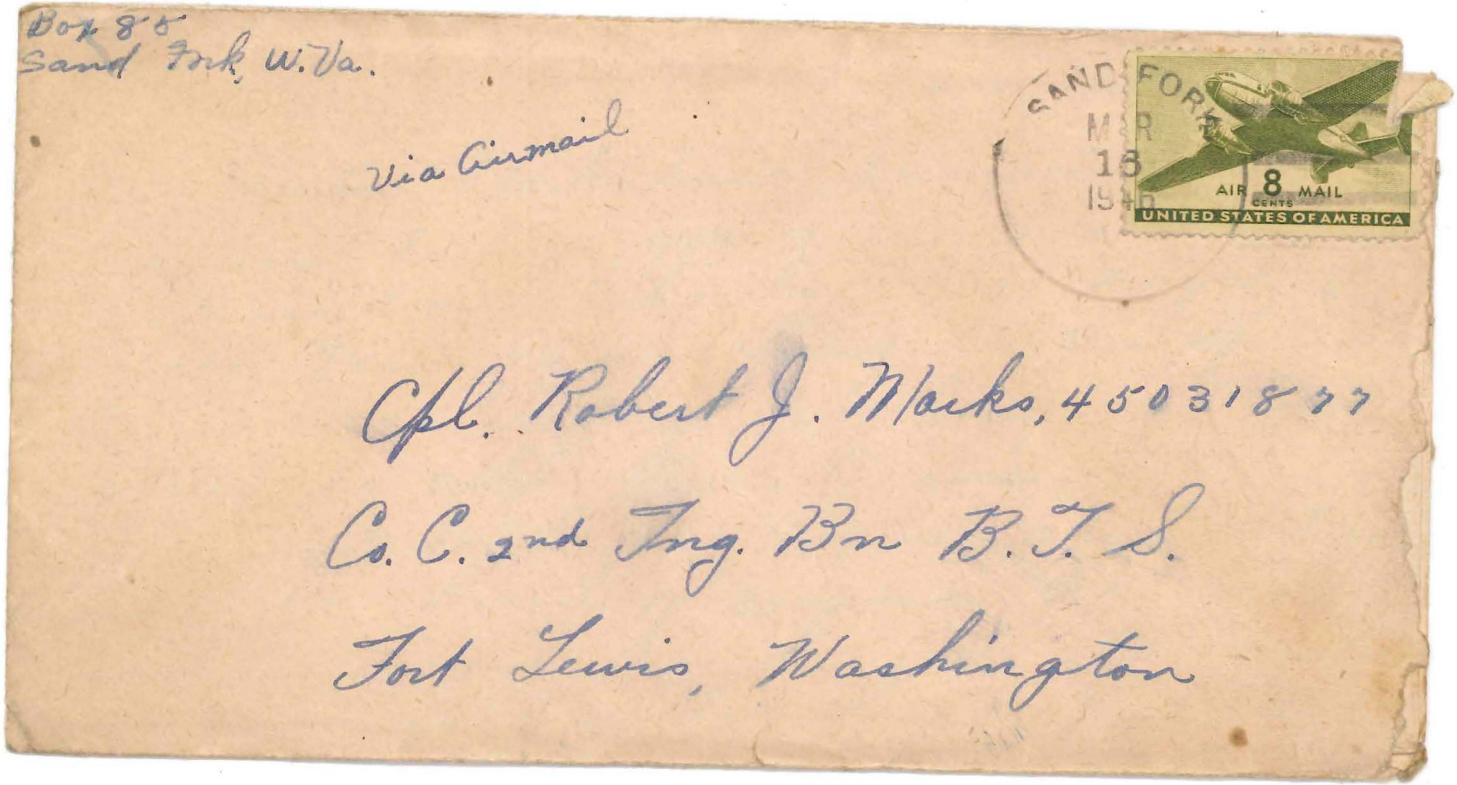

Well I hear the car horns honking in town, so I take it they won the ball game. I suppose Betty will take another cry now.

Well, Jack, I'm in a bad mood for writing a letter so will quit and try to do better next time. Write soon, and keep letting me know you are alright.

Love,

Mom

Hello Jack,

My address is Still Sand Fork, Box 85 in case you have forgotten. I thought you might be on maneuvers or sent some where else, but Doris said she was hearing from you often so guess maybe you had forgotten my address. Now that you have it again, how about dropping me a line?

Basel is home again. He and Betts and Doris are at the show. It is almost time for them to be back.

Guess what the boys have been doing to-day? Flying kites. And sure enough when I looked out through the kitchen window, there was Jim (your dad) with a kite high in the air and Jimmie and max watching. (remember about carrying string?)

Your dad is bringing in his bath room pieces a few at a time. When he gets it all he is going to lay off long enough to install it. He has the Pump, Lav. Commode and fixtures to them at home now. He expects his reception tank and Bath tubs in a few weeks.

He said to tell you he had looked

in Weston, Clarksburg, Shinston and Fairmont to find you a Camera and could not find one like he wants to get you. Paul is watching to see if any comes in at C— burg and is going to call him. A man at Fairmont took his name and address and the kind of camera he wanted and as soon as he gets them in he will write him. That seems to be all he can do toward getting it. He could get you a cheap Kodak no doubt, but he wanted a certain kind of folding one that you could carry with you at all times. Well lets hope he can find it soon.

Glenville High won the tournament last night. Mossy was chosen all state from this section and recd. several prizes.

Bob Marshall was in again this weekend. He went to the Tournament last night, but had to go back to camp to-day.

Your dad wants me to do some figuring for him, so will close. Hope to hear soon.

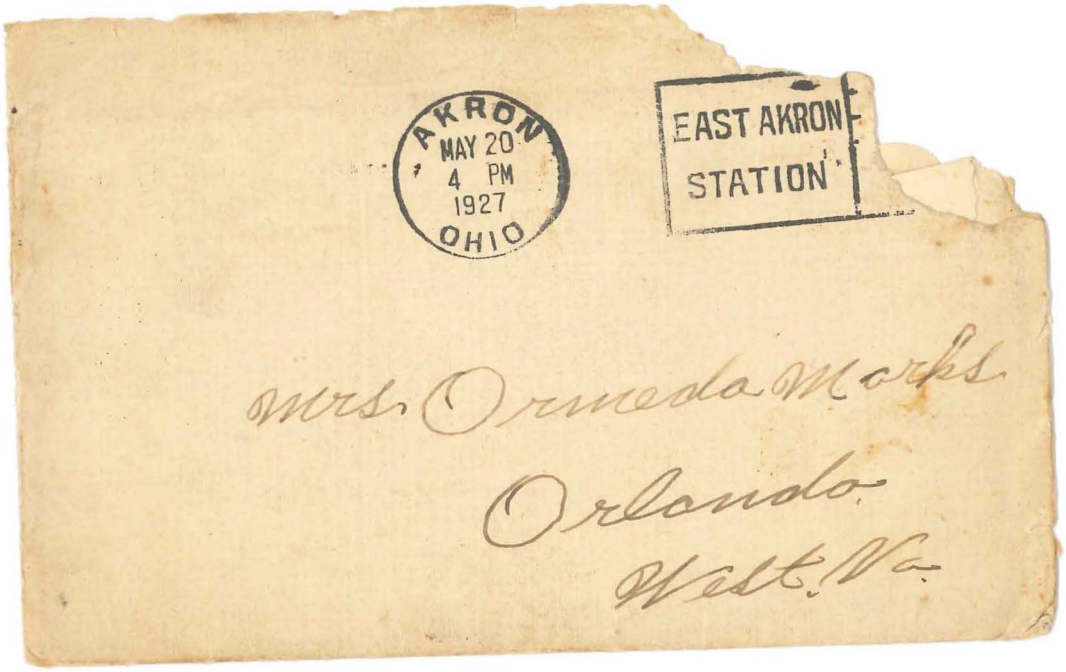

Love,

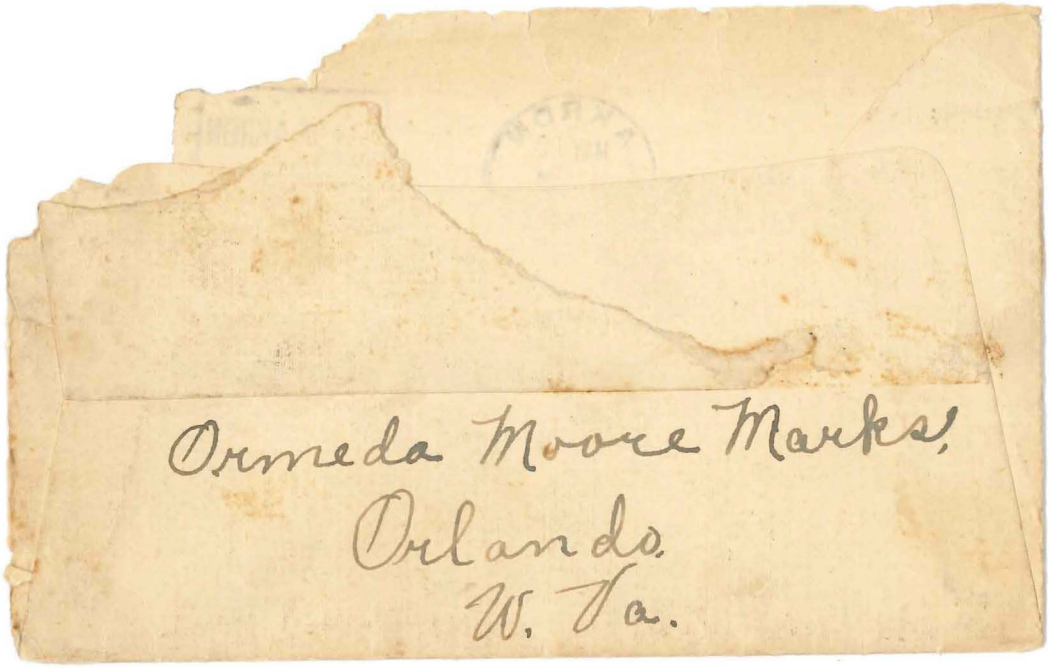

Mom.

AMERICAN RED CROSS

Dear Mom & Dad,

Please forgive me for not writing more often but they do keep me pretty busy. I'm in the 391st Station Hospital now with a bad ear. It is much better now & I'll be out in about a week. So don't worry about me. I received the cigarettes all & they really came in handy. I sold two cartons as I was broke & got $20.00 for them. That will run me until Payday.

There is one question you keep asking that

FORM 539 A

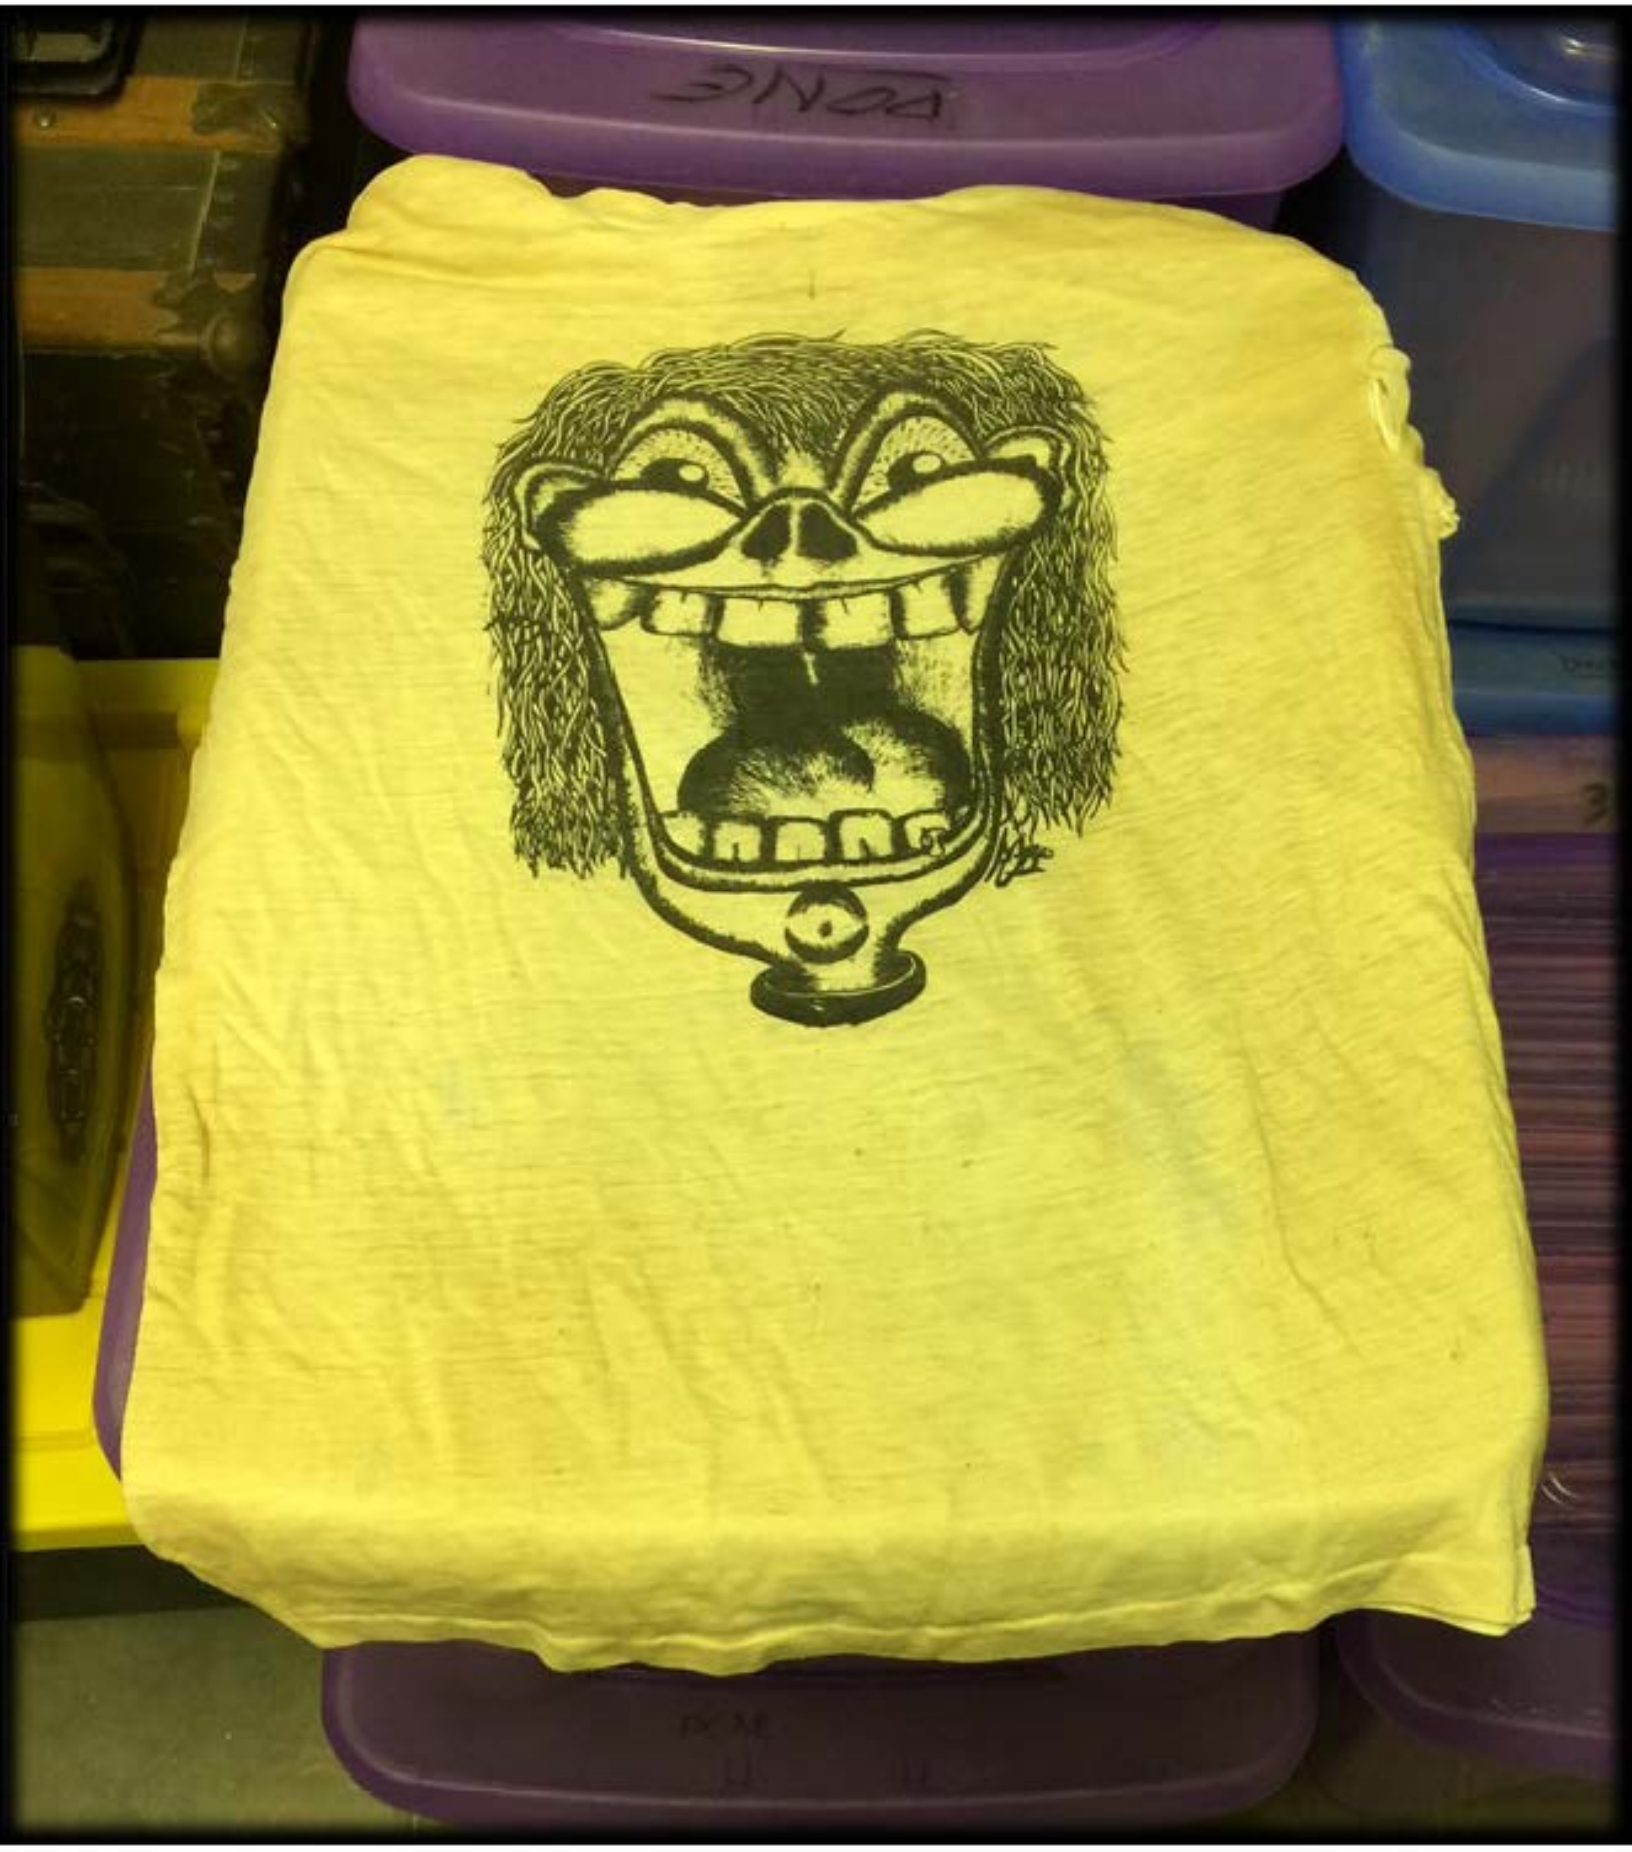

AMERICAN RED CROSS

I want to answer.
No. I didn't get sea sick.
Almost but not quite.
As for the Italian History
& the sights I am getting
your pictures of all the
beautiful & historical
parts. I bought a camra
(for $50.00) which will
come in very handy.
If you can get me
some 120 film I'll send
you what many more
as film is hard to get
here & what you do get
isn't much good.

From now on
I'll write more often

Love

FORM 539 A

It's Just Nature.

Ormeda Marks*

September 20, 1984

My name is Ormeda Moore Marks.

I was 81 years old Sept. 20, 1984 and I live at the mouth of Moore's Run. This small stream was called Moore's Run because my Grandfather Arnold Moore owned the land at its mouth and beyond.

Moore's run extends perhaps a half mile up a narrow valley to a small divide at the Locust Knob peak. On the other side of the divide the waters flow into Sliding Run.

Soon after the Civil War several negroes and their families settled at the very peak of this divide and established a community. They had all been slaves in Virginia and had travelled by foot to this area. The men walked over the hill to the Gilmer and Copen Creek Coal Mines and worked. These mines closed down after several years and most of the Negroes[1] left.

One family - John and Sally Kinney - bought their small farm and remained. It is of this family that I write.

John & Sally had each been married before and had several children but only one son was born to them. His name was Ross. Ross was somewhat deformed. He had a long body but very short legs. He could work however and made his living buying small pieces of copper rubber and brass. I have sold him many pieces for a penny or two. This I used to buy candy.

*transcribed from the handwritten document by Robert J. Marks II

[1]Sometimes Negro was capitalized. Other times not.

As my younger sister and I grew older, Mommy would send us to the little store on top of the hill to get some grocery items she needed and we had to pass very close to Mr. & Mrs. Kinney's home. There was no road, just a walk path. Mrs. Kinny[2] would always see us and call us down for a drink of cold water. She would always, it seemed, have cookies baked or a nice apple, or a pod of grapes. One time I remember she had some white grapes vining up a tall cherry tree. There were just a few pods left, and they were high. She called Mr. Kinny and had him climb that cherry tree and get the white grapes for us.

This, then, was my introduction of the colored race. Until this time I had never seen a negro. I got to know this family better as I got older.

Two daughters lived at Parkersburg and came often to see their parents as they grew older. The store on the hill had closed and my father had established a store and a Post Office here at the mouth of the run and they were forced to come down the run by my home to get to the store and Office. I must have followed Mrs. Kinney around like her shadow because we were washing out hands outside where mommy kept a wash basin and towels for this purpose, and after Mrs. Kinney had washed and was drying her hands I said to her "You didn't get your hands clean." She turned her hands over and they were white on that side, but the tops were dark brown. She said to me "That's just nature, honey, that's just nature."

Some years later, I was perhaps 6 or 7 yrs. old, the daughters from Parkersburg were here to visit their parents and they had brought some of their own children with them. I remember there was a little girl as black as ebony and another little girl that was blind. I was walking across the meadow toward church hand in hand with the little blond girl and I heard Rachel say, "Look Mrs. Moore, those girls' hair is exactly the same color." There was one difference in us that I noticed for my self. When we ran and got hot my cheeks would be pink, but hers would not be pink. Another thing that

[2]The spelling of Kinney is inconsistent.

seemed strange to me was the fact that these negroes always sat together at the back of the church. I was never allowed to go back farther that the middle which I judged by the two old burnside stoves by which the church was heated. To my recollection they never took part in the services.

As time went on Sally and John grew older and less able to care for their own needs. Then one day their daughters came and took them away. The daughters lived at Parkersburg W. Va. I had a son living there too, and one day much later asked him if he knew any colored people by the name of Ogden down there. He said his sons had two friends whose name was Ogden. They went to school together and were good friends.

Later I had a back injury and was taken to the Parkersburg hospital for treatment. I had a nurse who reminded me so much of Rachel Ogden. I wanted to ask her about her people but decided the story was too long, and I never did.

Over the years I have learned of the racial inequality of the white and black races. I have seen on T.V. the work of Jessie Jackson, the assassination of Martin Luther King. Jr. I have seen many colored people who have important jobs in the Fed., State and local offices in government. Yes, the black race if our nation are now honored for their contribution to our society. Their contribution has been enormous, and I am glad I never see a black man that the words of Sally Kinney do not return to my mind, "It's just nature, honey, just nature."

Dear Son,

I received your letter of the 30th today. I am sorry you are broke and have a chance to leave camp. I hope you did as you suggested, and borrowed some money to go to town on. Your dad gives me $20.00 a week to run the house on and I'll save what I can from that and send you each week if it will help you out until you receive your pay. I'll send you $5.00 tomorrow. You know your dad doesn't like for anyone in the family to spend money he makes but himself and I'm entirely broke. I doubt if I even have a dollar in the bank. Living expenses are awfully high and he isn't making so much, and saving less.

About your grandma. I'll not send for you unless she passes out, which is quite likely any time from the way the Dr. talks. He says there isn't a thing he can do but ease her suffering at times. Of course she may be with us for some time, and then again she might not.

Vick went by to-day and stopped to get Tip and he said if she was any worse he would drive down and tell me. He hasn't come so I'm taking it for granted she is the same.

You never told me how you made it Christmas night. I suppose you had it any trouble.

I just had a round with Betty. ~~Saturday~~ She wanted to go to B-ville to a ball game and I wouldn't let her go. She first wanted to get a bunch of girls and have Wayne Keith to take them. I vetoed that so she went to Helens and Garretts and Helen were going and of course they asked her to go. I knew they were just doing it because of Helen so I wouldn't let her go on Helens popularity. Well she threw a fit = to yours. Maybe I did wrong but she is only 14 and she can't keep up with Helen & Hannah Lou and she just as well not start it. Well we hit troubles everywhere don't we?

Helen said she saw a girl named Ann at Clarksburg, and she asked her who her boy friend was, and

Ann said she was trying to make up her mind between 3 sailors and a soldier. She said she guessed the soldier was eliminated since she had a letter from him saying he wanted to just be friends, and she guessed that was the way she wanted it too. Doris told Helen that the soldier was you.

Yes, your dad is working on the machine. Thats where some of his money is going. He spent $16.00 for some little gadgets that I believe he could have substituted until he gave it a trial. He says he couldn't, so probably I am wrong about it. Anyway he has high hopes. But he is awfully slow.

If you think of an improvement send it to him some way.

Well I hear the car horns honking in town, so I take it they won the ball game. I suppose Betty will take another cry now.

Well, Jack, I'm in a bad mood for writing a letter so will quit and try to do better next time. Write soon, and keep letting me know you are alright.

Love,

Mom

Betty addressed the envelope. Pretty good even tho' she did misspell Lewis.

Hello Jack,

My address is Still Sand Fork, Box 85 in case you have forgotten. I thought you might be on maneuvers or sent some where else, but Doris said she was hearing from you often, so guess maybe you had forgotten my address. Now that you have it again, how about dropping me a line?

Basel is home again. He and Betts and Doris are at the show. It is almost time for them to be back.

Guess what the boys have been doing to-day? Flying kites. And sure enough when I looked out through the kitchen window, there was Jim (your dad) with a kite high in the air and Jimmie and Max watching. (remember about carrying string?)

Your dad is bringing in his bath room pieces a few at a time. When he gets it all he is going to lay off long enough to install it. He has the Pump, Lav: Commode and fixtures to them at home now. He expects his reception tank and Bath tub in a few weeks.

He had wanted to tell you

in Weston, Clarksburg, Shinnston and Fairmont to find you a Camera and could not find one like he wants to get you. Paul is watching to see if any comes in at C-burg and is going to call him. A man at Fairmont took his name and address and the kind of camera he wanted and as soon as he gets them in he will write him. That seems to be all he can do toward getting it. He could get you a cheap Kodak no doubt, but he wanted a certain kind of folding one that you could carry with you at all times. Well lets hope he can find it soon.

Glenville High won the tournament last night. Mossy was chosen all state from this section and recd. several prizes.

Bob Marshall was in again this weekend. He went to the Tournament last night, but had to go back to camp to-day.

Your dad wants me to do some figuring for him, so will close. Hope to hear soon.

Love,

Mom.

Hello son,

Everyone is on the mend and I got a nights sleep last night and it looks favorable for another tonight. The children are all in bed now anyway.

See Jack you are heavy. Don't get fat now. Grow an inch or two taller won't you? Of course I didn't, but you can do things your mom can't do. You know this Henline boy from Burnsville that came down here with Andy when I took him to Clarksburg to get his suit? Anyway I believe it was Henline. He grew 6 inches taller while he was in the army. That's true too, for he was to see Clarice and Basel and they told me. I guess the chow must be good anyway nourishing.

I'm thinking you won't get a whack at Bob or Massy either. Massy wasn't called, none of this bunch were, and they are going to put him in College as soon as they can and ask for a deferment. I doubt if Massy passes anyway. You know he faints every once in a while now. Bob Marshall says he enlisted but I wouldn't be afraid to bet a lot, that he won't go either. He'd blow the whole works up anyway with his gab. I forget whether I told you about his little fuss at B-ville

or not. I'll just outline it again for fear I didn't and it was too good to miss. He called a boy from B— team a Son——— and he jumped off the floor and grabbed Bob before he could get away. He jerked him and said "Will you take it back", and just then the B-ville coach & players started after the boy to make him get back in the game and Bob thought they were after him. He said "Yes I'll take it back, I didn't say anything but I'll take it back." At last the gang pulled the player back on the floor and Bob beat it. He got loose and took after him again but Bob got down in the basement and through a window and went out & laid down in the truck. Fine Soldier he'd make wouldn't he? Well that's Bob, anyway. Nothing to back up his blow. He'd better show up or shut up it looks to me.

I'm glad the army is teaching you to fight and now since you can, I hope it teaches you that in a world at peace you seldom have to. In war the beast that is in you is brought out & fed, but in normal life the beast in man is best asleep. Lying dormant will not kill the fight in man of good breeding. When the need arises it comes out as strong as ever. Look at the trees in winter. Just a little sun & rain in spring and they are ready to come out and do battle with the elements. Man is like that too. It takes only a necessity to arise and he is ready for battle. Let the army change you physically if it will Jack but don't let it change your good heart.

This sounds like a book & since I read it. But dead I never copied it.

Protect your rights & pride of course, but don't settle old scores with fights when it will do no one any good. If Glen D. tries again since you are grown to pick a fuss why accomodate him, but I don't think he will unless everything is to his advantage. Just forget that. But I don't care if you do punch Bobs nose a little. Dont hurt him you know, just punch him.

Eight weeks will soon roll around if you are doing work you like, and I believe you are liking it some now. That will be sometime in March. Yes, I know you will get to help me plant potatoes. Chee hee

No, Jack I haven't received any bonds. They will probably mail them when they make up your pay. Don't they take the money for them from that? I think you were wise, and you can rest assured they will be yours when you come home. If it become necessary for me to cash any, it will only mean a loan from you to me, and I don't think the necessity will arise. You will need some money when you leave the army, and as you say that will be the only way you can save. I hope to have some kind of business for you to look after when you come in, but I don't know, son, whether I can handle it or not. It seems as if your dad never does anything but build mental pictures. If I were so I could push him a little kid

be O.K. but I can't get away on time to help him.

Sutton plays at Sand Fork to-morrow after-noon. They are having the game in daytime so the school children who ride the bus can go. Jimmie wants to go.

Well I must go fasten my chickens and go to bed. See I wish you were here to do it as it is blowing and snowing to beat everything. And then you liked to so well you know. ? ? ?

Don't worry about Basel marrying. You aught to hear him preach about the others. Andy especially. He says a sane man won't get married. Wouldn't surprise me if he doesn't pick up some girl and make a fool of himself. He hasn't come home yet.

Jack, Wanda & Beck are the happiest two people I have seen in a long time. I'll just bet they make a happy life for themselves. I do hope so.

Good-night son,

Love,

Mom.

OIL CITY, PA.

D. L. THOMAS
AGENT

April 12, 1933.

Mr. U. G. Moore,
R. D. 1,
Orlando, West Va.

Dear Sir:

In going through our unfinished business, we find that under date of February 2, 1933, we wrote to you in relation to the estate of J. L. Moore, who, according to our records, is interested in the account of J. L. Moore et al, which account is being credited with a 1/16th royalty interest in the South Penn Oil Company's wells on the Arnold Moore farm, Glenville District, Gilmer County, West Va., tank No. 99295. In the above mentioned letter we stated that in order that we would know to whom the interest of J. L. Moore in the account of J. L. Moore et al should now be credited, it would be necessary that we be furnished with certain papers in the estate of J. L. Moore, and for your information and guidance we enclosed a printed form showing the requirements of The Eureka Pipe Line Company in settling estates, which would fully direct you in the matter. Up to the present time, however, we have not been furnished with the necessary papers in the estate of J. L. Moore, nor have you favored us with a reply.

If J. L. Moore left a will, we should be furnished for our files with a certified copy of his will with a certificate of probate attached, and we should also be advised the exact date of his death. If, however, J. L. Moore did not leave a will, but died intestate, we should be furnished with an affidavit, made by someone familiar with the facts, to the effect that J. L. Moore died intestate, giving the date of his death, leaving to survive him a widow, naming her, or no widow, as the case may be, and the following children, naming each of them, as his only heirs at law and the only persons entitled to inherit any part of his real or personal estate under the Intestate Laws of the State of West Virginia. If any of the children are minors, the affidavit should note the exceptions, and it will be necessary for the appointment of a guardian for them, and we should also be furnished with a short certificate of the guardian's

appointment.

On receipt in this office of either the certified copy of J. L. Moore's will or the affidavit, we will then prepare the necessary division order crediting the interest of J. L. Moore in the account of J. L. Moore et al as directed, and will mail it to you for execution.

The oil in the account of J. L. Moore et al is being held awaiting receipt here of the above mentioned papers, and the value of the oil is slowly being eaten up by delayed shipment charges which are charged monthly against the oil.

As stated in our letter of February 2, 1933, the account of J. L. Moore et al, J. L. Moore, Attorney, is composed of J. L. Moore, U. G. Moore, Nathaniel Hefner, Sarah Tomblin, Thermutis Mich, Sibyl Devol, Lona Cox, Archie Cox, Elizabeth Cox, Lillian Moore, Clem Cox and Mable Cox. The division order whereby J. L. Moore et al certified to their ownership of the above 1/16th royalty interest was filed in this office on December 16, 1908, and it is possible that some of the other persons composing this account are now dead. If so, we should be so advised, and it will also be necessary that we be furnished with the above mentioned papers in each estate.

Thanking you for your kind attention to this matter, we remain

Yours very truly,

D. L. Thomas

COMMITTEE ON
EDUCATION AND LABOR

Dear Friends:

Relief workers have been fired because the administration claims there is not enough money. In West Virginia, between ten and fifteen thousand workers have been discharged. My battle has always been to see these workers get a fair deal. Here is one incident:

Forty-five West Virginia W. P. A. project bosses who receive $200 or more per month had salary raises since the November election. These are charged to the projects, not to administration.

Eighteen of the forty-five were receiving $200 or more before the raises were given. Twenty-seven were boosted into th select $200 or more class.

These 45 favorites had received at the rate of $97,240 a year in November. They were boosted to a rate of $115,560 a year in May.

The raise of these 45 would pay the salaries of 44 W. P. A. workers for an entire year. Every one of the 45 bosses could still be employed at their former salary and the salary raise would have paid the wages of 44 workers for a year.

Forty-five W. P. A. project workers received $18,900 a year for a year's work (without any loss for any cause). They continued to get $18,900 a year. No raise with them.

My other letters have shown the rise of W. P. A. rolls before election and a decline afterward. The cause given to many workers was "lack of funds", yet, money was available to raise the salary of those in the $200 class.

Who has been the real friend of the W. P. A. workers? I say salaries should not be raised when thousands are begging for work to feed their families. Five hundred W. P. A. workers in West Virginia could receive their next monthly check if the salary raises had not been given. Could these raises have been caused by work in the November election? You be the judge.

Sincerely,

Rush D. Holt

Dear folks

Sit setting here on my bunk thinking of you all & what your a doing. You are all probably in bed & asleep as it is 10:30 here & three hours later there.

I haven't heard for sure when I go to Texas but I heard a rooner that a bunch of us was leaving the 20th of May. When we do go I get 15 days delay in route & 5 days traveling time. If you think it will be a good idea to come home I would love it. If you don't have the money to spare you can let me know. The other day when we signed up to go I took the 15 days as it would be my only chance & I didn't have time to ask you all.

Is the old car in running shape. I hope so as I have some plans which involve it. I want to see Ja for one thing and another is to have a talk with Lenora. Don't worry about me being soft but I just want to get things straight.

How is fishing now Dad? I'll bet they are thick up at the farm. I would like to see Grace pull in a shiny nice one. I'll bet he would be tickled pink.

How are you doing in school Jim? I bet you learned a lot this year. When I come home I want to see you write my name so practice, will you.

How are you Max? Think you can whip me when I see you? I'll bet you are good with that

Mr. U. G. Moore,

Dear Sir:

We have your letter of the 10th inst., continuing our correspondence in relation to the account of J. L. Moore et al, J. L. Moore, Attorney in Fact, which account is credited with a 1/16th royalty interest in the South Penn Oil Company's wells on the Arnold Moore farm, Glenville District, Gilmer County, West Va., tank No. 99295. In your letter you state that the division orders we prepared and sent out for execution are not correct, as the above 1/16th royalty interest should be divided up into seven separate accounts instead of six accounts. You further state that Lillian Moore Hall is the only heir of R. M. Moore and has a full share of the oil and gas in the above farm. This is the first intimation we have had that Arnold Moore had seven children, and when we sent out the division orders for execution we were of the opinion that Arnold Moore had only six children.

It now appears that you are the owner of 1/7th of the above 1/16th royalty interest, or 1/112ths royalty interest, and we have prepared and are enclosing herein a new Eureka Pipe Line Company's division order, including oil in lines, whereon you may certify to your ownership of a 1/112th royalty interest in the above farm. If you find this division order correct, please sign it yourself on the line where we have penciled for your signature and return it to this office for our files, and this 1/112th royalty interest will then be credited to your account. It is only necessary for you to sign this division order as we are sending out division orders whereon the other persons whose names appear on this division order may certify to their interest, with the exception of Thermutis Mick, as we have not been furnished with papers in the estate of Thermutis Mick. Please do not execute the division order we mailed you on June 5, 1933.

We are also enclosing a standing purchase order for your account, and if it is desirous that oil credited to your account be transferred, as run, to the credit of the South Penn Oil Company, please sign this standing purchase order on the line where we have penciled for your signature and return it to this office with the above division order for our files.

In your letter of the 10th inst. you state that you

do not have the address of Ernest Mick. In your letter to us of May 6, 1933, you state that Grant Mick was the only heir of Thermutis Mick. Will you please advise us the correct name of this heir of Thermutis Mick, ~~whether it is Grant Mick or Ernest Mick, and, if pos-~~ sible, will you please advise us to whom we could write in relation to the estate of Thermutis Mick?

The Great Imitator

This pamphlet is presented by the Metropolitan Life Insurance Company as a contribution to the campaign against venereal diseases, *and especially syphilis*, carried on by the U. S. Public Health Service, the American Social Hygiene Association, State and local Departments of Health, and medical societies.

Prepared with the cooperation and advice of
the AMERICAN SOCIAL HYGIENE ASSOCIATION

THE GREAT IMITATOR

SYPHILIS is a disease which does not respect any age, sex, race, or social class. It has inflicted misery and death for hundreds of years; in past centuries, because no one—not even physicians—knew the nature of the disease or how to cure it; and in this present age, because the knowledge which science has attained for its prevention and treatment is not generally applied.

The fight against syphilis is hampered because the nature of the disease has prevented open warfare against it. It can be stamped out only if the facts about it are known and used to prevent its spread and to secure prompt treatment for its victims. Every man and woman and every adolescent boy and girl should be acquainted with the seriousness of the syphilis menace, the manner in which this disease is spread, what its symptoms are, and how it may be cured.

The Prevalence of Syphilis

On good evidence it is believed that syphilis strikes at least one in every 20 persons—or 5 percent of all the men, women, and children in the United States. More are infected in some localities, less in others. While the preva-

lence of syphilis varies greatly with the race, age, location, and customs of the individuals studied, these figures mean that there are now, in the United States, about 6,300,000 individuals who have been attacked by syphilis. This number includes both old and new infections. Approximately 500,000 people a year seek treatment for syphilis for the first time. In addition, an unknown number of infectious cases go untreated. A large proportion of these untreated infected persons are an unrestrained menace in the community, because they are not taking precautions against spreading their infections. Many are attempting self-medication or are going to advertising quacks—measures which are useless and even detrimental to the patient and to all those with whom he comes in contact.

What Causes Syphilis

Syphilis is caused by a germ called *Treponema pallidum*, which may enter the body at any point through the skin or mucous membranes. The moist mucous membranes of the lips, mouth, nose, throat, and genital organs are particularly susceptible, and the organism can penetrate even though there is no perceptible break in these tissues.

How Syphilis Is Spread

Communicable disease germs are carried from the sick to the well in various ways. In typhoid fever the water, the milk, the housefly, or the healthy human carrier is usually responsible. In yellow fever it is a mosquito; in bubonic plague it is a rodent flea. In the case of venereal

disease the germs are spread by people who are already infected. Most cases of syphilis are acquired during sexual intercourse. However, many cases come from contact with other sources of infection.

Syphilis may be passed from one person to another by kissing. Occasionally it may be acquired by contact with an object recently soiled with discharges which contain living syphilis germs. Common drinking cups and towels, pipes, and articles which are used where sanitary precautions are not taken are among the sources of infection discovered in certain cases. Fortunately, infection from such sources is comparatively rare because, while the germ of syphilis is difficult to kill once it has entered the body of a victim, it is easily killed outside the body by drying in ordinary air, exposure to sunlight or to soap and water, and by such sanitary measures as are practiced by careful and well-informed individuals.

Congenital Syphilis

A pregnant syphilitic woman may infect her unborn child; in fact, she is almost sure to do so if she is not treated during pregnancy. A large proportion of the children of untreated syphilitic mothers are born dead, and many born alive die in early infancy. Those who survive may suffer all the destructive effects of the disease —defective bodies or minds, blindness, deafness, and other serious results—if they are not properly treated. Fortunately, through timely and adequate treatment of the woman during her pregnancy, the child can be given a 90

percent chance of being born healthy and free of the disease. Recent statistical reports reveal that if a syphilitic woman is treated by a qualified physician before the fifth month of her pregnancy, she will probably give birth to a normal and noninfected child. Every pregnant woman should insist on blood tests as part of the general examination and prenatal care given her by her physician or clinic.

There is a record of one family of six children in which every child was afflicted with what was supposed to be tuberculosis. Upon investigation, however, it was found that the mother had syphilis and that she had been infected by her husband. The children were suffering from this disease and not from tuberculosis. Under treatment the children improved. Understanding on the part of the parents might have prevented the infection of the children or at least have given them a better chance for cure through early treatment.

The Great Imitator

SYPHILIS is all the more insidious because often those suffering from it are not aware that they have it. They may be a constant source of danger to others and, because they do not know that they have been infected, they fail to get the treatment that would check the ravages of the disease or effect a cure. A person may have been infected without his or her knowledge and have no idea that the disease is entrenching itself in the body, slowly bringing serious harm to the heart, blood vessels, nervous system, and other vital tissues and organs.

It is not ordinarily possible for the lay person to detect those who are suffering from syphilis. Most people suppose that the condition of the skin is evidence of infection with this disease, but this is not always so. The skin may or may not be affected. Often those suffering from a severe attack of the disease show no skin blemish and are not incapacitated in any manner which may be detected in any way other than by a suitable medical examination which includes a blood test for syphilis.

So frequently is syphilis the cause of illnesses attributed to other diseases that many hospitals of the country and many of our leading physicians make blood tests a routine practice in the thorough examination of patients.

Dr. William Osler called this dangerous disease "The Great Imitator," for in its late stage it may be mistaken for many other diseases—as, for example, psoriasis, tuberculosis, cancer, sciatic rheumatism, arthritis, and various other diseases of the skin, heart, lungs, kidneys, and brain. Syphilis is the common cause of locomotor ataxia and of general paresis, or general paralysis of the insane.

The Course of Syphilis After Infection

The First Stage. Syphilis runs through several more or less characteristic stages. The primary stage usually begins as a local sore, called the chancre, at the point of contact with the infection. The chancre appears from 12 days to 40 days—on the average, three weeks—after exposure. It may be merely a red spot or blister or pimple, or it may develop into an ulcer of considerable size. As a

rule, the chancre is very hard and feels like a button or a piece of cardboard under the skin. It is usually painless. The lymph glands that drain the area which has become infected become markedly enlarged. Therefore, if the chancre appears on the sex organs, the glands in the groins become enlarged. If the chancre is on the lip, the glands in the neck will become swollen considerably. As a rule, these enlarged glands are not painful. A chancre on the lip may resemble an ordinary cold sore. Within a few weeks the chancre will disappear, even without treatment, leaving nothing obvious to show that the disease is present. Syphilis is a great deceiver.

The chancre stage of the disease is very infectious, although the blood in this stage does not show a positive reaction to the Wassermann test for active syphilis. However, the germ can be detected by microscopic examination. Treatment begun in the chancre stage offers the greatest chance of cure and of escaping the destructive results of the disease. Hence, early diagnosis is extremely important.

Even experts can seldom diagnose syphilis with certainty from its outward manifestations alone. Often there are no outward signs. Laboratory tests which include microscopic examination must be used as aids in diagnosis.

Comparatively few people realize the importance of consulting a physician as soon as possible after symptoms appear, or as soon as there is reason to think they have been exposed to infection. If the infected person places himself under treatment immediately after exposure, or before the blood becomes positive, he has an 86 percent

chance of cure. If he waits for only a few days or weeks the Wassermann or other tests may become positive, and then his chance of cure is reduced to 64 percent. If he is irregular in receiving treatment his chances are much further reduced. The medical care he receives *must be competent.*

The Second Stage. The secondary manifestations of the disease are often characterized by a skin eruption which may resemble the rash of measles or chicken pox. This rash may or may not be accompanied by other disturbances, such as mouth sores, fever, headache, sore throat, falling out of hair, feeling "under the weather." The skin eruptions are infectious if they are moist. Mouth sores, which in this stage may resemble canker sores or trench mouth, are dangerously infectious. The patient may infect others through kissing. The secondary manifestations also are often so inconspicuous or mild as to escape notice or the recognition of their true character. They, like the chancre, will disappear after a time, even without treatment.

The Latent Stage. The disease now tends to pass into a latent stage. During this stage there may be no symptoms for many years to indicate its presence to the patient; or skin eruptions, mouth sores, and other disturbances may come and go from time to time. But in this latent period the disease is undermining vital structures and organs so that in a period of two to 20 or more years the infected persons may become seriously crippled or completely destroyed.

The Late Stage. The more common late effects of syphilis are fatal affections of the heart and blood vessels, blindness, deafness, and tumorlike growths which may destroy any of the tissues or organs of the body. Among the most serious effects are the attacks of the disease upon the brain and spinal cord. These bring various forms of mental derangement, convulsions, and paralysis, leading on to that almost hopeless condition, paresis, or general paralysis of the insane; or, if the spinal cord is mainly involved, progressive loss of muscular control (locomotor ataxia or tabes dorsalis) and loss of other important muscular functions. These later destructive changes of syphilis constitute the last stage of the disease.

Syphilis Can Be Cured

THE terrible results which have been noted come from neglected syphilis. With early and adequate treatment none of the destructive consequences need develop and the disease can be arrested and often cured. But this cannot be achieved in a week or a month. The patient must be under the care of a competent physician for from 18 months to two years, regardless of how well he feels or of negative laboratory tests, before he can be certain of his cure. He must receive continuous treatment by his physician with certain specific remedies. He must have blood tests and perhaps spinal fluid tests at intervals in order to ascertain the state and the progress of the recovery. The physician will give him rules to follow at home to help with his cure and to prevent transmission of

the disease to other persons. The disappearance of symptoms does not mean that the germs which have penetrated the innermost parts of the body have been killed. The symptoms may recur, and in a more painful and dangerous form. Only the physician can tell when the cure has been effected.

When after a year or more of persistent treatment repeated examinations show satisfactory progress, the patient may hope that not only an arrest but a cure of the disease has been or will be accomplished. He may eventually be discharged as cured, but he will require periodic examinations by his physician for several years to make sure.

Summary of the Consequences of Untreated Syphilis

It is responsible for many children being born diseased, most of whom die in early life.

It is the cause of many abortions, miscarriages, and stillbirths (children born dead).

It is the cause of 15 percent of all blindness.

It is the cause of paresis or softening of the brain.

It is the cause of locomotor ataxia.

It is responsible for more than 10 percent of all insanity.

It is often the cause of apoplectic and paralytic strokes.

It is responsible for a large proportion of diseases of the heart and blood vessels.

It may affect the kidneys, stomach, and other vital organs.

It decreases earning capacity.

It decreases the length of life.

The Importance of Competent Medical Treatment for Syphilis

THOUSANDS of people have made tragic and needless sacrifices of life and happiness to this disease. Too often they seek treatment from the medical charlatan who advertises sure cure, or they try self-medication. There is no quick, easy way to cure syphilis. No individuals, except qualified private physicians and experienced members of hospital and clinic staffs, are competent to give the skilled treatment that is required to cure syphilis and other venereal diseases. Many of the larger cities have established free venereal disease clinics to which are attached staffs of specialists, and these clinics give treatment to individuals who cannot afford to go to private physicians. Any health officer or local medical society can give information about these clinics and about qualified private physicians.

Self-treatment and the use of medicines advertised as a cure for syphilis are worse than useless. Syphilis can be cured only by treatment with certain special drugs which are dangerous in the hands of anyone not trained in their preparation and use. They must be freshly prepared and standardized by trained persons and carefully administered by physicians. The quack does not know what the proper remedies are or how to give them. While he is giving fake remedies the disease is spreading unchecked through the body of the infected person. The patient

thinks he is being cured, but he is wasting his money, losing his health, and risking his own life and the lives of his intimate associates.

The Value of a Health Examination

EVERY person should have a competent physician look him over at least once a year. Only a physician can properly diagnose his physical condition. A thorough examination will often bring to light evidence of serious diseases such as cancer, tuberculosis, or diseases of the heart at a time when these conditions can be arrested or even cured. A blood test for syphilis included as a routine measure in the periodic health examination is a valuable precaution to take. Early evidence of infection followed by adequate treatment offers the best hope of cure.

The Control of Syphilis

Syphilis is a disease that can be conquered only when the facts about it are known to all the people and when a knowledge of these facts is used to prevent its spread. The reliable physician is the friend to whom one should go immediately for assistance upon the first suspicion of having been exposed to danger.

Further information on this subject may be secured by writing to the American Social Hygiene Association, 50 West 50th Street, New York, N. Y., or to your local medical society, or to your City or State Department of Health.

NOTE: Syphilis is only one of the group of diseases known as the venereal or sex-borne diseases. Gonorrhea is another of this group—a disease entirely distinct and not to be confused with syphilis. Gonorrhea, at first a local inflammation, is highly infectious. When it invades the internal organs it causes serious trouble, particularly in women. If the germs get into the eyes of the newborn baby during birth, blindness may ensue. Drops of a 1 percent solution of silver nitrate put in each eye as soon as the baby is born will in most cases prevent eye infections. Every mother should expect this treatment for her newborn baby. In most places it is required by law.

Gonorrhea is a difficult disease to cure, and the only wise advice which may be given to anyone infected is: "Go to a competent physician at once."

Dear Sir:

We are in receipt of your letter of recent date, and in view of the facts related and the manner in which you have heretofore met your obligations, we are pleased to advise that we are marking our records ahead to May 5th on your promise to pay on or before May 1st. Dear Randolph.

I'm sending you. Pa's bill
Mamma sent ink to get you
some stamps and Tobacco with
and I'm down with mumps and
can't go to store so I'm sending
it to you may be you can get it.
You tell Mam. that I sent it
to you.

Mom has been awful sick
some better now.

I tried to get her to stay here
this winter, and Victor wanted
her to stay but she wouldn't.
Victor stayed here 3 or 4 weeks
but headed for work again, can't
keep track of him, for he says he's
not one place long enough to
vote. I under stand. They are

letting the mortgage foreclose on the farm right now, so it looks like we're all losers. one could not keep up payments for all the rest; then all come equal with each other.

Mom talked about buying your share if you'd sell, but she has to have help from some source to run this farm she can not run it alone nor she can not keep the farm going with two or three families living off of it; and making nothing in return. As far as my self I'm interested only in her welfare. we can live, but can't save much. I've been sick now for over two weeks. wasn't well to begin with then took mumps on one side, waited a week and then took them on the other. four of us has them. Mildred is out of school now, and she has tried so hard to graduate this year.

Well Randolph let me know, and if you can't get your tobacco, I'll manage to get it when my mumps are gone. Write to Mom — if you never write me and when you get out don't get in again I'm praying for you yet to be good and quit worrying Mother. I tell you she's in bad health my love is for you and hoping you are well.

Dear Jack,

I received your letter the other day and decided to answer back sooner than I did the other time.

How is everything treating you? Fine, I hope.

I was over at Dan's a little while ago. She has been sick for about two weeks. Jackie didn't go to school today either, but naturally I did, why can't I get sick. Maybe I'm just too darn lucky.

I have been spending most of my time, skating, which is only natural for Dan and me to do. I am learning a few things on skates and it is a lot more fun to skate now.

Nothing much happens around here worth while writing about, same

old Clarksburg busy as ever doing nothing.

You asked me if I would date you while you are in Clarksburg - yes I will & would like too.

I have a test in Social Science tomorrow, and should be studying, but I would rather write to you.

Well, so long and take it easy. Write soon.

Love,

I haven't any pictures of myself at the present, but as soon as I get one, I'll send it to you. How about you sending me one of yourself ? ? O.K. ? ? ?

Dear Sir:-

It seems fitting in these times of economic distress, with the resulting low and inequitable prices that farmers are receiving for their products, that we should indicate our attitude toward our borrowers.

We wish to express our appreciation to and admiration for those farmers who have had the will, the ability and the skill to operate their farms successfully and who have met their obligations to this Bank. The great majority of our borrowers have done this but some have not and, since the success of the Bank and of its future operations hinges on the ability of its borrowers to pay, it would be a source of considerable concern if the number of delinquent borrowers should increase.

The Bank's collection policy does not favor a moratorium or general extension of time on all maturing and past due obligations, but it recognizes that it is not always desirable to take advantage of those provisions of our mortgage which enable us to foreclose a mortgagor who is unable to comply with the terms thereof.

It is the purpose of the Bank to consider each case individually on its merits, and to give every reasonable consideration to deserving farmers unable to meet their obligations. The Bank's definition of a deserving farmer is one who is making an earnest effort to meet his obligations, is giving the land and buildings good care, is using such skill in the operation of his farm that there is a reasonable prospect of his ultimate success and who is applying the production of the land to the payment of his obligations in the order of their importance; namely, the operating expenses, the necessary living expenses of himself and his family, the taxes, and the installments on the Land Bank mortgage. Where these conditions exist and this performance is had, THE BORROWER IS RECEIVING EVERY CONSIDERATION.

Dear Jack,

Sorry I have taken so long to answer your swell letter and thank you for the lovely valentine, it was sure pretty. I liked it a lot.

Well, how is Army life treating you now, fine I hope. My brother was home for 60 days, went back last Friday. I sure had a lot of fun while he was home.

It is snowing now, it is about time for it to, as we have hardly had any at all. Yesterday it was too hot for February. In fact I am hot now - Dad just put more coal in the furnace - no wonder, huh?

As for school and me, we are getting along as usual together, which is good

sometimes and sometimes not. We haven't got our class rings yet, we were supposed to have gotten them in Dec. sort'a odurdue - huh?

This is all for now and answer when you find time.

Dear Sir:

We are in receipt of your letter of recent date, wherein you request additional time in which to take care of your indebtedness to this Bank.

On April 14th the Board of Directors of your local Association, with a Fieldman of the Bank in attendance, will hold a meeting to pass on the delinquent borrowers' accounts. If you will attend the meeting your request will be given due consideration. Please be prepared to make a payment, or at least present a definite plan for payment.

The Association endorsed the loan, and consequently must furnish the Bank with suitable recommendation.

I may not go to work tomorrow for I'm still sick & overwhelmed with home work.

I'm waiting outside of Psych. class to get a paper signed for my income tax. I'm going to get it. But sorry sheet slick may arise later on.

I love you a lot & miss you. Today I was really wishing you were here to rub my neck & kiss me. I feel a closeness towards you which keeps growing deeper.

Hi Honey,

I couldn't resist this card - so you get a bonus - 2 in one week - - - besides I miss & love you alot. I went home last night - Rick may or may not get our pictures ready - Mom said he is super busy right now. I'm going to spend more time at home now, if I can, for my mother needs me. She is truly starving to death! She doesn't look it because her excess water is swelling up her tissues. She isn't eating anything - one day all she had all day long was 1/2 cup of soup & some days nothing. She has lost her appetite since it's so much trouble to get something to eat. No one can fix her anything & unless she goes to the store she doesn't eat. Being emotionally upset she burst into tears when I'd walked in the room & she felt I got her to eat an egg & she felt better. I'm really worried about her honey, because she could easily get in a very sick condition

May 9th

Dear Bob,

Hi Nancy. Here it is - another few weeks of this place and then it's the Friday after next, June 13th, is our last day. Some of the kids are leaving this week it now, but I can't blame them.

Well, about getting our different ways. I think the word independence has a different meaning to each of us. The way I talked about it, you gave to the conclusion that I wanted to be this island you spoke of. That's where you were. I'd hate to be isolated, because I love people & couldn't live without them, I couldn't want to try to. You still didn't really understand what I meant, since my ideas must of seemed somewhat vague. In answer to that, I don't think of independence as being cut out of life. I want to live as much as anyone else. You got the impression of not wanting a social life, etc. which isn't true. By being independent, all I want is to be able to do as my own when it comes to solving my problems. I don't want to have to put my weight on the shoulders of others, though I do lean on people for help in other situations, but why should I make myself

a date? Nobody likes to hear a person brag & complain to them all the time, and so I try not to. But I do like to help others. Most of the people I know think of me as a happy person generally, & it isn't a cover-up. I am happy, but everyone has their troubles, really. I prefer to keep them to myself. I don't pry into the personal affairs of others & expect to get the same, but you always think of things more serious than they are because you try to get deeply involved, & then the real problems start. Maybe it's the right thing for you you to do, to try & get involved in a situation in order to help, is probably one of the best ways to go about it, but there isn't any need to create more, though we all do sometimes.

After I first met you, I got definite impressions that you wanted to be that island, somewhere. You told me once, that you don't need anybody, but Saturday I sensed you saying everybody needs somebody, contradicting yourself just as I have, so evidently we both are mixed-up, but it isn't anything to be ashamed of. Will find our way, just wait and see.

So all along I've been relating this independance thing to my problems & you thought of it as in correspondence to all my social life. There is a difference, but sometimes the two shall get confused.

Anyways I wanted to have a few words about our relationship. There isn't anything wrong, but, that's why, I wanted to mention it. This year we had a pretty healthy relationship and things could be better. I do think however, we've had too much sex. I'm not saying I don't believe in it, but it's not like a nice thing, because there is a proper time & place for relationships like that, but not like ours. I don't want to have any more part of it in the manner which I'm speaking. You (know how I am) it is, you said yourself, the guys down there aren't interested in anything that doesn't deal with cars, sex & booze. & you said also, it's why sickening the day they make their lives that way, sometimes. So I assume you (even that love-making is fine, but [illegible]

decisions, we will regret it later when it really counts. We have plenty of time (days) to do plenty of things, every night now, our sex one of them. Please think about it, and I hope we will be able to talk about it when you come back home. I don't think we have to be afraid to talk to each other about such things, especially if we can be truthful & trustworthy. I've also been thinking about that tax property, & if we don't take care of it, or let time take care of it, then we both know what a problem it can mean.

Other than that, I want you to realize, that I have more respect for you, if you didn't ask me to go out to drive-ins, and places like that anymore. It would be showing you care & if you do, let me know. It isn't only a matter of keeping up a good reputation, but there are other reasons that play an important part. Personally, I was never the type to enjoy such places & never had any desire for them.

Also, a lot of kids just drive-ins & parks & just parking to love. They, like & do go anywhere

they can give, except to
them. When I see a person
wearing you, I want to be proud
of it without need to hurt off &
hide. It's good enough for me to
get. Have me go to a movie or
just driving around rather than
wearing around. I read about
a guy at this school who got the
discipline & they must be pretty low-
down. It's sad saying there are
girls like that, or there is, I read,
but what good will life do them &
I do you sorry for young kids
like that, that don't read any
better. So, if you don't respect
you must earn it & I read you
will, as all they may have to earn
yours because it, mean alot.

I don't want you giving
that I'm depriving you of any
"good times" by asking you to
give-up drive-ins, dolls. I don't
want you giving up anything.
If you want, you can always ask
Grace or Jerry to go out to
those places & I think they'd be
happy to. I wouldn't have any
hard feelings as I'm trying to
[illegible]. They may be the types

My girls who enjoy going out anywhere but I can't change for you Laxey, so please don't ask me to be like them. I have to be myself & if you do enjoy their type of company, then I can't do anything about it. It hurts me to try & be like them because I simply can't be someone I am not. I didn't mean to bring up the same old grounds for arguments but only to express myself the best way I can. If you don't like me any suggestions so don't attempt to play the role you can't, and I won't try to be like someone else either. Do you understand now? If there any questions in your mind, come out & ask me.

I think I've been bringing up a touchy subject now. Don't take this the wrong way, but I've noticed that Jack & Chris have been getting into it lately, & things just haven't been smooth for you recently. I know that Jack wanted to do has been taking Spanish and. You know who I'm talking about, Robin. Don't worry - I've known & learnt said a word since & I don't intend to. This is between you & me. So I hope

it ask me. He asked I waited until now to tell you is because I didn't want you telling Jack & getting him more upset. I know Jack emotional he gets, but I didn't want to worry him. I figured if he saw you Friday night like you said, that he told you about it, & I'm sure he did. I didn't want to say anything because it's his affair & he has a right to do what he wants. I do know more but I don't think I'll tell you all I know, but I didn't get any of it from Christ. Now I hardly talk anymore, only to stop & say hi. Robin is a cute girl too but also my kids don't like her attitude, but she's friendly sometimes. I do think Christ is cuter in her features. Well, I didn't mean to bother you by this, but I also thought you should know. I know all along it's your ticket & I promise to respect it. Be good & take care of yourself.

Love,

Karen

Dear Madam:

We were recently employed by the Louisville City Hospital, which placed in our hands for collection its account in the amount of $66.00 against your son, Randolph L. Moore. Hospitalization and services were rendered him following an automobile accident in Louisville in February.

Will you please advise us just how this account can be taken care of? We are quite certain that our client would be willing to settle for $50.00 cash if paid promptly.

Please discuss this matter with the proper persons, and let us hear from you favorably.

Have been easter then?
A regular day here, three

just old enough to
know what is going on.
Remember when I
went up to there
lilly bunches & found
ark eggs or two then a
few in the tall grass
on up the hill. Maybe one
or two around the trunk
of the tree. Remember
when I put the cake out
for Bunny rabbit & something
ate it. Ged — Jim home
sick. So home sick I can't
think of any thing else.
Don't worry I won't go A.W.O.L.
4000 miles of water I want

Called again. to the Hospital. my other Card mailed late, R The Nurse said is in Fair condition. I called Mrs Burk supose you have message by now. Said he wanted Mom to Come I can't get any thing from them unless I pose for Mom. guess he has it in for me right and Dam not going down for it would make him worse. I'll call but wont go unless he wants me to.

I'm sending you all the message I can get from them. I understood the nurse. he had Internal Injuries. am looking for you. Nellie

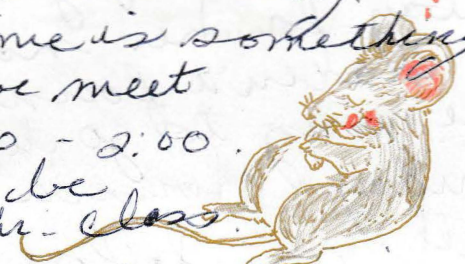

Hi Love!

I can't believe it's only Tuesday, I miss you enough for it to be Friday. Things have really been hopping around here. I registered Monday & went home to Flo. I have really got my work cut out for me. The class is held at Allendale, right near my grandmothers. I also didn't realize we'd have so many marathons - I have a 10-hr one on Thurs. & 10 hrs. on Friday from 6:00 - 4:00.

I just went swimming - my body feels so different. I wish I could swim every day. (esp. with you, for you make it so much fun to play in the water)

I'm really excited about my class, however, for it to be of great value I'm really going to have to study. When I'll find time is something else. Tomorrow we meet straight from 8:00 - 2:00. its suppose to be for 9:30 - 12:00 - 4 3hr. classes. Probably next weekend were going

to have a 24 hr. class. I can hardly believe it. Unfortunately it will probably be next weekend.

Now for some super good news I got Sat. off from work. I told them I had a marathon. Goldie was mad, I told don't care because I really want to go with you. I love you

I met a girl in class from W. Va. She was wanting to go home. Since she lives right off the interstate & it's on the way I suggested she ride with us if it was o.k. with you. She volunteered to pay for some of the gas.

Now I kinda wish I hadn't said anything for I would really like to be with you alone. However the idea came into my head & popped out my mouth.

I hope you really don't mind to much & if you do I can find a way for her not to go with us. I haven't found out yet if we are going to go to Stunkels this Friday. However you'll probably call me before you even get this letter. I hope to find out tomorrow

afternoon.
I love you. Sunday was such a beautiful day. I felt very comfortable being with you (that is a compliment). I know our union together can be nothing but good for we have so much going for us (US) + Love

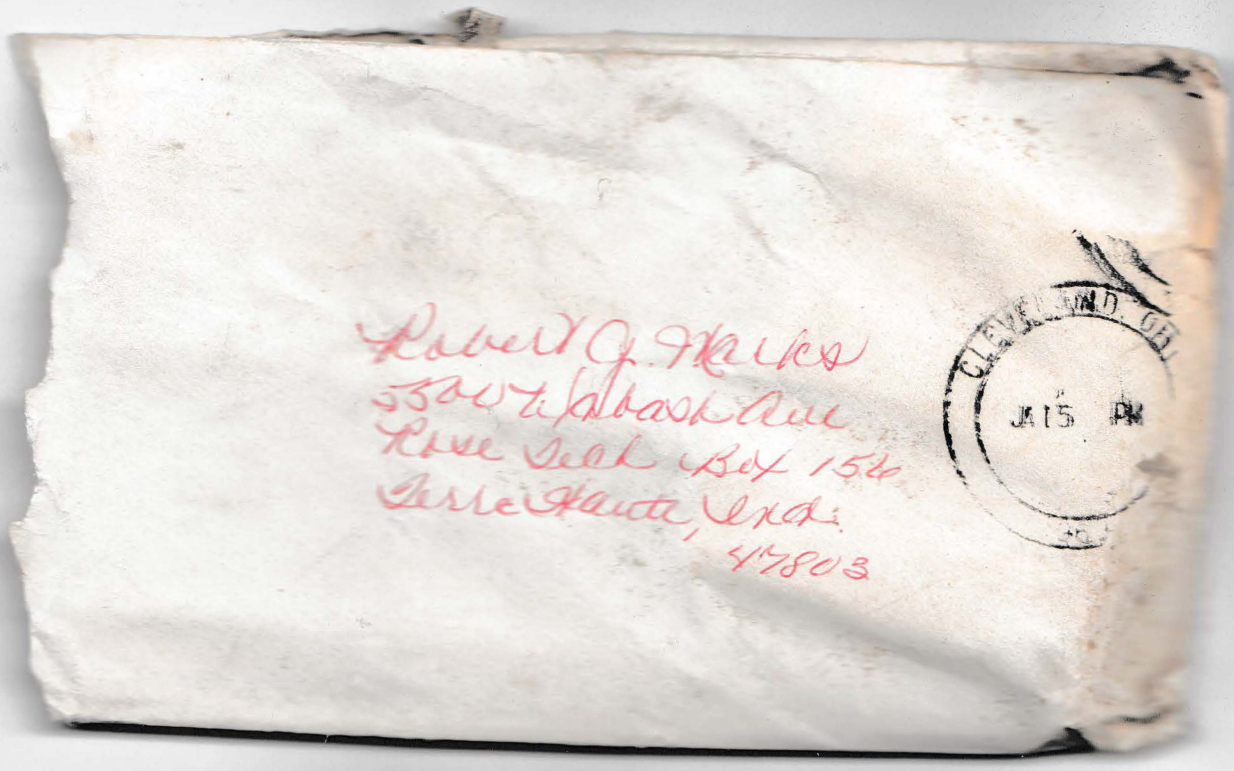

Grove of Christ

The song "Everything all Right" from Jesus Christ Superstar has been going through my head especially when I think about you. I've got some good news to share with you when you get here. I almost cried I was so happy!

I'm reading Games People Play + I better get busy.

Remember I love you whole bunches. I'll be expecting you by 6:30 Friday evening. Wear something nice + comfortable in case we go to Pastors house.

Lots of Love
your girl

Bob,

Hi there! I'm in school & I forgot the rest of my letter; I don't have anything to do. Besides, I have to look studious for the S.K. teacher. All we been doing lately is talking! I don't feel like getting any more guys in trouble. I do enough of that the way it is. There isn't any good people up here today. In here, they come & go. You see the same old gang day in & day out. Gotta get use to it, ya can't change the looks on their faces. I'm tired of this place. You would be too, if you had to put-up with the way things are now. Oh, I guess you've been through it all before.

Judy said she saw us the last Thursday night when we were with Jack. He says you are cute. You what did I tell you? (I'm going to build up your ego. What would you do without me?)

He was telling the others too. I wonder if they were just tryin to make me feel good. No, I doubt that. If you were over so-called mad to me or couldn't care less, they'd do cute & attract-ive as you are, they'd rape the heck out of me. That's for sure. Not the girls I've seen all. I get along O.K. with them, but I can't pick out a best friend. Many of them tell me I'm their best friend they know, but that's mostly cause the other girls in the classes look-up to me. It's a good thing when they learn me when they need help, and they expected me to come to them for help in return, which didn't work out since they found out I'm better off when I help myself. I just depend on me, & nobody else. (dealing with friends) I prefer being independent anyways.

They know what my philos

play of life happens to be & I suppose they think I must have high standards of living the way they talk, & what gives me self-satisfaction is when-ever I give advice, they use it to the letter, & it's never let down anyone as of yet. If my ways of thinking crack-up, I hope its on myself. Then I wouldn't have any guilt. Though most of the kids consider me independent & all, I need someone in this all world, and Ryan's the one I need.

Last period I had hygine. Oh, it's not irrelevant as anything, (as a matter of facts I like it) but it's the way one gets bored stiff in that class. For example, someone will ask some question (& they can come up with some good ones.) and the discussion begins, but guess who always gets to lead them on! Me! that's right! Somehow, my name is the one who gets to take over

the teachers place, which isn't so bad. I'll always believed you learn more from other people than you do from books, (not that I have anything against 'em) so when I take over, it's feel free to talk. But I really do study alot, I like to; but you wouldn't believe some of this ones study habits. As the leader in here we don't really care for. I'm trying to think who she reminds me of. Wait a minute... I got it, Ricky. Thats right! They are the ultimate in repulsive. One of the main reasons you are disliking them is they act as a vent for my emotions. All the hatest too strong of a word you see. I have I take out on him. I'm tempted to just drop it, but then I'd just have extra time to get bored, unless I then continue to write to you, of which I haven't any stamps

Did you ever write anything in a big hurry & when you re-read what you've just written, it doesn't seem to make too much sense.

I think thats what I just did. I dont think I even know what I'm saying. Unfortunately, you know how I get when sleepyness overcomes me. I feel dizzy again. Its been happenin' to me all week long. I don't know whats wrong with me, probly, it's nothin.

A strange thing happened the other day. It's nothin', but we were messin around in gym an awful lot lately & we have to climb ropes (which is funnier than...) and then there's these 5 rings hangin from the ceiling & we have to swing from one to the other. So, anyways twice, I fell to the ground & kind of passed out. You wouldn't exactly call it that, but it seemed more less a black-out. Thats when you fall down on the hard ground (with no mats) & I couldn't see or hear

anyone. It was kind of like a dizzy spell when someone faints for a little while. Thank God, it wasn't anything serious. Do you think I'll live, doc? I think my memory is going to pot, too. I can't remember much of anything! I'm sick of it.

I tried calling Jack for you, I understand the situation, but his mom said he wasn't around; I couldn't leave any message. For obvious reasons. Then later on there wasn't any answer, for quite a while. I believe I haven't seen him yet today but if I do, I'll talk to him for you. I know you're the clear, your mom said so. But she doesn't know you called about it the other night, since I didn't say anything. She's pretty calm about it & very understanding. She seemed to think the whole thing was me

mistake, but it'll straighten out soon. Don't worry too much about it.

Speaking of Jack, he seems to be changing some. I noticed it, probably because I know him well, but didn't mention it, because I didn't think much of it, but quite a few people have been asking me if there's anything wrong & I haven't said anything about anything because I don't know anything! That makes sense! Dumb!

Some of his buddies said he's turned kind of cold, if you know what I mean. I guess I'll get over it! Probly growing pains! By the way, I've been getting growing pains too, but I'm disappointed since I'm not growin' any. How come?

What was happened to Jack paying you a visit? He never got down, did he? What's wrong? I think he's just

having a hard time with everyone. I can understand his recent actions, considering the amount of pressure on the kid. I hope he gets what he wants. Its just that everyone hits him at one time with different situations which consists alot of patience. He'll be alright pretty soon. Give him a few days to relax, he can use it.

I'm trying to erase my problems, though I haven't any of much importance, one by one. It's the best way I might do the trick.

So you see a lot has been happening around this place, Hayfield. It has its short-lived moments too, I only hope no one suffers.

Have you heard any-

having a hard time with everyone. I can understand his recent actions, considering the amount of pressure on the kid. I hope he gets what he wants. Its just that everyone hits him at one time with different situations which concerns alot of patience. He'll be alright pretty soon. Give him a few days to relax, he can use it.

I'm trying to efface my problems, though I haven't any of much importance, one by one. It's the best way I might do the trick.

So you see a lot has been happening around this place, Harfield. It has its short-lived moments too, I only hope no one suffers.

Have you heard any word on whether or not your going out to Maryland for the summer job or not? It'll be

real nice if that's what you want. I told you before, I don't want to be in the way of any of this. I would feel terribly guilty if I was your excuse for staying home. After all it would be a vacation from home. I know you said before you weren't going but don't get any hopes up. I think your parents will want you to go for the idea behind it but spending summer vacation away would be, maybe a disadvantage.

I guess my summer is well-organized. If you happen to go to Maryland, as always, I'll probably go to D.C. for the summer. Washington that is. I usually go every summer. I went in '67 but had it better of in '68 summer. It was wonderful. I could swear we were together hours after hours, day & nite. It was fun; I loved it all.

There couldn't be anything

for me to worry about in D.C. I'll can get along by myself if I have to, that's an advantage of being able to care of yourself, being Independent, but not totally. I won't need a shoulder to cry on anymore, but should I need your comfort, I'll always turn toward you.

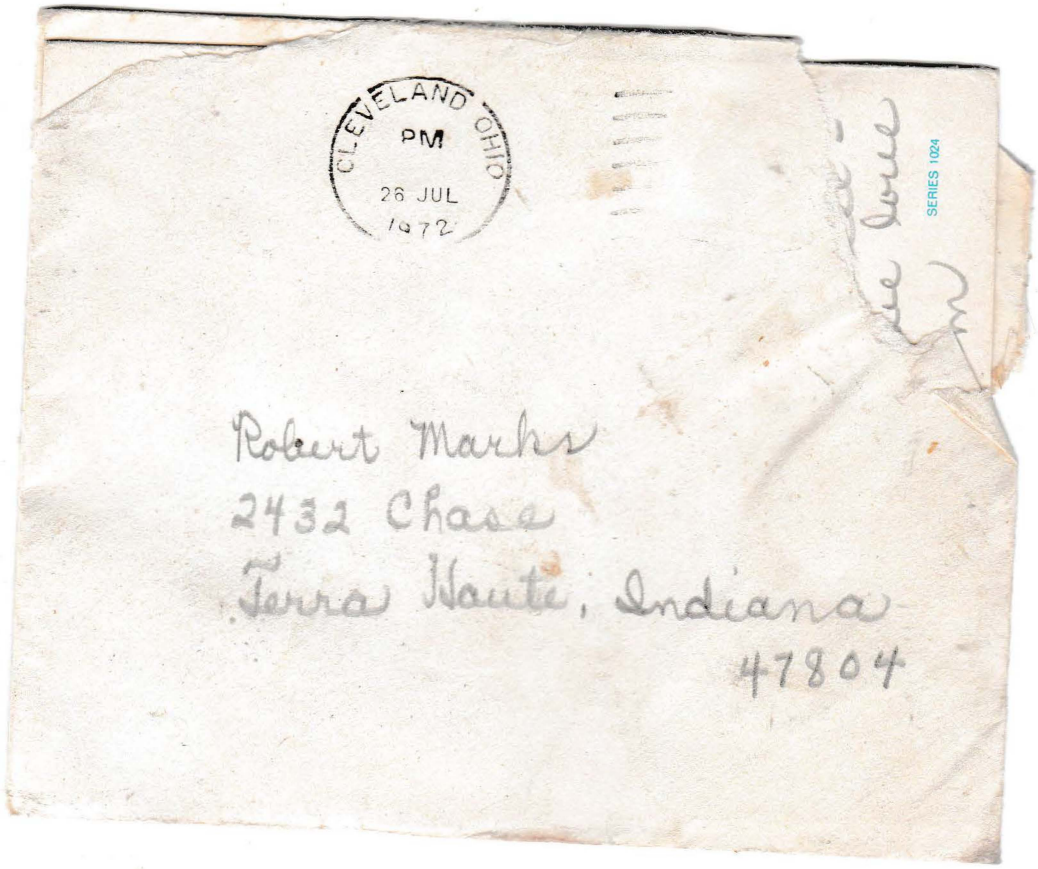

My grandmother has an aptmt in D.C. & lovely place it is, & her & I would be together if anything should happen. Nothin' could go wrong because the aptmt. is in the capital city, with lots of friends I already know there. Besides my aunts & relatives live near-by my grandmothers place in case she ever needs help or anything. You know what I mean, it's only 2 blocks away from the families. So you've got a general idea on how I will spend my time. Of course, I'll work & write you, & all the

time think of you. I do now. Every day & nite. It's a beautiful feeling to know you're love, & I love you very much. I was never much of one for words, but I do miss you very much & I pray every nite God keeps you well.

And how's this for a quick letter? It took me 2 full periods of Study Hall to say little but write all. I'll get to be more careful. & I'm taking care.

2 minutes left & I need these to make up so please be good & take care of my love.

Love Always

Dear Bob

Hi Larry. Thanks you for the cute cards, I much appreciated them.

It's Friday night and everyone's going out for the evening, except me. I did have some plans to go out but I cancelled them for now. I have other things to take care of.

I didn't get my temp. yet, but what do you mean I better have it before you come home & I should get it this week but why are you coming home? Is something wrong?

No thank you, I'd like to drive your car but I'd rather not. I don't have that much confidence in myself yet. I advise you not to. I know when I'm not so good at something & I think this happens to be one of those times. I'd be afraid to take out the car. It's to leave it at that until I'm good enough to know what I'm doing (say a couple years!!)

I did what you wanted. Al came earlier and I gave him your address. Are you having any trouble making the tapes?

Als been having some trouble

2. with my brother lately. As he said, you knew about it when he talked to you about him the last time you happened to be here. Perhaps haven't been getting letters fast enough at the Jr. High date like all girls & my brothers are of them. I wish someone would take care of Ricky, he's making the family cry. Study, not purely. I realize it isn't his fault but I don't know what. Since this thing has been going on I found out (quite by accident) my mothers back on tranquilizers. Grandmother has been on them (now 3 yrs) & now she never stops at night. I understand what it must be like for her & what my parents are going through. My father developed a slight case of bad nerves about 7 mos. ago & mom afraid for him & for Ricky & for whatever else. She shouldn't worry herself. But it should be ending now, those papers in a little while. Why wouldn't you mention this before & to me? It's more serious than I thought.

I hope you do good this quarter. Spring fever is no excuse. Everyone feels like that during Springtime &

3.

that shouldn't interfere with your class work. I haven't let it bother me & neither should you.

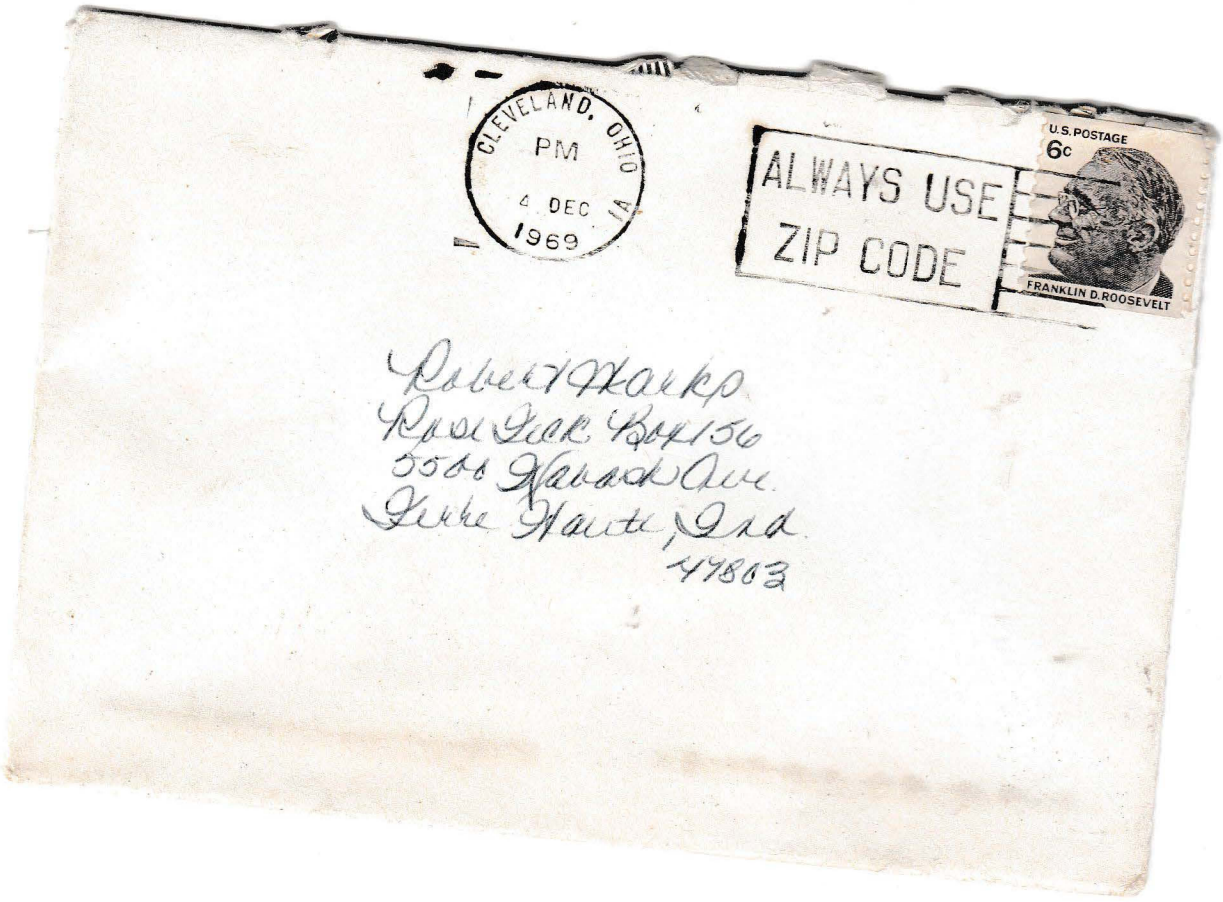

What are you going to do about the summer. As far I mean. It would be better if you tried to get one ahead of time (before summer gets here.) It is important you know, and there should be a few other matters you have to take care of. I only hope you do.

Finally, after about 2½ months I got the 25 packs of matches I ordered. Have you gone back yet? Anyway I was stuck with 25 packs & neither of us smoked so all the kids at school helped themselves to them. If the mail doesn't muck it up I might get it through to you. I'll see.

All I have to go and do some studying for now. It might help. Be good & take care.

Love, Kenyt

P.S. Stay out of trouble! ha!

Dear Bob

Hi Honey. Sorry I haven't written sooner but I haven't been doing much of anything lately. Got one I haven't sent it ahead since Tuesday so there went my week. Tomorrow Friday so I don't know if I'll get it or not.

Ya know it's 8:45 in the morning now. I won't have much time cuz the railroad passes pretty soon, but I'll try to make the most of it for now.

I was really surprised to hear how you will doing this quarter but shouldn't worry so much cuz I know you'll make it through and work up for it next quarter.

I know I'm not to get your mystery as yet as school's good. Think I stand now it's bad but could be better so I haven't much pix and all work with any on. Jim does have a lot and

glad to get quite a while.
I wish I had more time
to write any things else I
want to say about a few
things which I'll mention in
my next letter.

Did you guys get in all-
night Sunday? Ope may be
homesick, but I miss you a
lot more. It sounds quite hot
its true.

Haven't put Roxie lately.
Since the time he talked to
my mother (Saturday) about
whose ~~dd~~ new thing she was here, he
hasn't called once; but I do
believe he has - my mother call-
ing him; every time I go out-
no matter who with, he gets on
the phone & the other day I saw
Rose smoking in his room. I
don't know why - but I feel so bad
about what I said to him (Ope
know - deep -) Even though I was
hepatitis sick - I feel I owe

time for an apology. I guess I'm a sensitive person at times.

I'm sorry you didn't have a better time when you were here. Things could of gone a lot smoother. & I wish they did & promise — something will make up for it next time. & you, the house is only 4 wks. old & I'll save every minute of it.

Finally got my certificate in Driver Ed. which is ready to take Driver School that you took the course in high school. I can go do it any time now & take my driving test — but my temp. expired 2 days before I got the certificate so I have to get it again. I'm now on the road runs & now in the classroom for 7 wks — which then only 1 or 2 more wks. left to go. But since I got my certificate early I can't work but all I want now in the classroom is, they can't take it back from me.

Of course I'm not going
to work out. I'm pretty sure of
a strong A going for me now.
I'll be using the hours
you have all that time for
a project. (a report related
to cars, etc.) Well I'm doing my
two reports in 2 wks long
now
I won't be doing any of it
anymore
Anyways I'm planning to live
up here as just as well as a
job in such like this and I'm
I'm doing more work now I'm
that any of the pics in the
more time doing it now. I'll
get an A paper I know so for
my work I do a project I go
into great detail, while I only
a few pics all done. Well de.

Well I have to go & give
this to the mailman cause
it pick around here & never
reaches you. Be good & take
care of yourself for me.

All my love, Karen

On May 6th, 1933, you wrote us in relation to the account of J. L. Moore et al., J. L. SECTIONS OF THE GENERAL CODE OF OHIO RELATING TO SUPPORT OF INMATES OF STATE INSTITUTIONS

SECTION 1815. (101 O. L., v. 157). All persons now inmates of, or hereafter admitted into, a benevolent institution, except as otherwise provided in this chapter, and except as otherwise provided in chapters relating to particular institutions, shall be maintained at the expense of the state. They shall be neatly and comfortably clothed and their traveling and incidental expenses paid by themselves or those having them in charge.

SECTION 1815-1. (102 O. L., v. 63). When any person is committed to a state hospital for the insane, to the Longview Hospital, to the Ohio Hospital for Epileptics, or to the Institution for Feeble-Minded, the judge making such commitment shall at the same time certify to the superintendent of such institution, and the superintendent shall thereupon enter upon his records the name and address of the guardian, if any appointed, and of the relative or relatives liable for such person's support under Section 1815-9.

SECTION 1815-2. (111 O. L., v. 80). The maximum rate for the support of inmates of such institutions shall be five dollars and fifty cents per week. Less amounts may be accepted by the * * * (department) when conditions warrant such action, or when offered by persons not liable.

SECTION 1815-3. (101 O. L., v. 158). The * * * (Department of Public Welfare) shall appoint an agent * * *. Said agent shall investigate the financial condition of the inmates now in the aforesaid institutions, or hereafter committed or admitted thereto, and of the relatives liable for the support of such inmates, in order to determine the ability of any inmate or such relatives to make payment in whole or in part for the support of the said inmate; provided, that in all cases due regard shall be had for others who may be dependent for support upon the estate of said inmate.

SECTION 1815-4. (106 O. L., v. 504). Such agent in making investigation shall have power to subpoena witnesses, take testimony under oath and to examine any public records relating to the estate of an inmate or of a relative liable for his or her support. All his information, conclusions and recommendations shall be submitted to the * * * (Department of Public Welfare). The * * * (department) shall determine whether such relatives shall be required to pay for the support of such inmate or whether such charges shall be made against the estate of such an inmate. An order shall be issued to the persons who are determined liable for such payments, requiring them to pay monthly, quarterly or otherwise, as may be arranged, to the state such amount as it or the committee shall deem proper, but no order shall be issued compelling payment for the care of an inmate prior to May 2, 1910.

SECTION 1815-5. (101 O. L., v. 159). Any person who has been ordered to make payment for the support of an inmate may petition the * * * (Department of Public Welfare) for a release from, or modification of such order, and said * * * (department), after an investigation by the agent, may cancel or modify such former order. The * * * (department) shall at any time for due cause have the power to increase the amount previously ordered paid.

SECTION 1815-6. (101 O. L., v. 159). The superintendents of the state institutions shall submit to the * * * (Department of Public Welfare) such information as they may obtain concerning the financial condition of any inmate or of relatives liable for his or her support.

SECTION 1815-7. (101 O. L., v. 159). In case the estate of any inmate is sufficient for his or her support, without hardship to any others who may be dependent thereon, and no guardian has been appointed for such estate, the agent shall petition the probate court of the proper county to appoint a guardian.

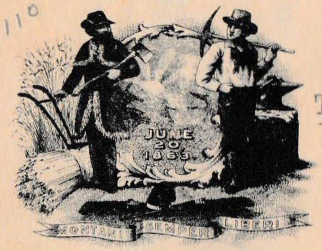

SECTION 1815-8. (103 O. L., v. 879). In order to facilitate the investigation of the financial condition of the inmates in such state institutions, and of persons liable for their support, the * * * (Department of Public Welfare) may employ assistant agents not to exceed five in number * * *.

SECTION 1815-9. (101 O. L., v. 159). It is the intent of this act that a husband may be held liable for the support of a wife while an inmate of any of said institutions, a wife for a husband, a father or mother for a son or daughter, and a son or daughter or both, for a father or mother.

SECTION 1815-10. (102 O. L., v. 64). Upon the death of a person who is an inmate, or has been an inmate since the passage of this act, of any of the aforesaid institutions and who is possessed of property, it shall be the duty of the executor or administrator to ascertain from the * * * (Department of Public Welfare) whether the deceased person was supported while an inmate, and if not, the * * * (department) may present a claim for support, or for the balance due in case less than the maximum rate has been paid. Such claim shall be allowed and paid as other lawful claims against the estate; provided that the * * * (department) may waive the presentation of any claim when in their judgment an otherwise dependent person will be directly benefited by the estate. It shall be lawful for the * * * (department) to accept from a guardian or trustee of an inmate a contract agreeing to pay to the state from the property of his ward before or at the death of his ward a fixed annual amount for the support of such ward while an inmate, and with interest at four per cent per annum. A copy of such contract shall be filed in the probate court of the proper county, and duly entered as a part of the records concerning such ward.

SECTION 1815-12. (108 O. L., v. pt. 1, 554). The county from which an inmate of an institution for the feeble-minded was committed shall be liable for such inmate's support provided the same is not paid otherwise as provided by this act. The treasurer of each county shall pay to the treasurer of state upon the warrant of the county auditor the amount chargeable against such county for the preceding six months for all inmates therefrom not otherwise supported, upon the presentation of the statement thereof. When any person committed to an institution under the control and management of the * * * (Department of Public Welfare) other than an institution for the feeble-minded, is transferred or removed, as provided by law by said * * * (Department of Public Welfare) from such institution to an institution for the feeble-minded, the county from which such person was committed shall be liable for the support of such person while in said institution for the feeble-minded, as hereinabove provided, and to the same extent as if such person had been originally committed from said county to said institution for the feeble-minded.

SECTION 1974-1. (111 O. L., v. 80). The provisions of law applicable to the payment of charges for their support by inmates committed to state hospitals shall apply to persons received on voluntary application * * *.

If you are still unable to furnish us with a regular policy, a check or money order for $ 15.20, will enable us to continue the insurance we are now carrying.

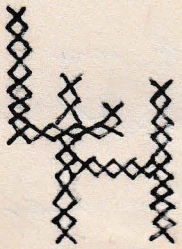

Thanking you in advance to give this matter your immediate attention, we are

Dear Carmeda,

I received seven letters from Jack today - the first for what seems like ages and he says he may be in in June. Won't that be nice? But we won't say definitely until we see him, will we? He again asked me to write you and said he had heard from you. I know you're hearing too and he's probably telling us the same thing. He said in one letter he hadn't heard anything out of one ear since it'd been infected but I don't know just how he meant it. It'd be awful if it were a permanent thing.

Hear you're planning to return to teaching. Nice in one way but H (C C K) (spouse please) in another. I hope you aren't blessed with 40 as I have been this year. That's really too - too many for comfort.

I wanted to come down Easter but we had so much company

I couldn't run away. Maybe I can make it June 14 when school is out — if I come to S.F. I don't know for sure what this summer holds in store for me. Guess you'll be at S.S.C. I feel that I should be there since I have for so many summers but I won't. May go to the U. here, may work or may loafe in S.F.

Went to the Cherry Blossom Festival this week end and decided we'd (Ruth & I) see a newsreel to see what it was all about. We did see some Indians, the prongs on the queen's crown & a helicopter, but we strained our necks & toes to do that. Wasn't hardly worth the effort. The blossoms were beautiful but no more so than our plum blossoms in our back yard. Don't appreciate nature, do I?

So long. Gotta' grade some papers. Miserable moments — & I will it to upon next year.

Love, Grape

Dear Bob,

Hello there! How are you? I've been meaning to write sooner to see how you've been doin, but I guess I just never got around to it, until now. Sorry it took so long.

Well how is college coming along? Are you learning anything? What are you taking, by the way?

I haven't been up to much really. Just working mostly. I work for a printing company. I'm a press operator. How's that grab you.

I've tryed getting a hold of you a couple times when you were home but you were hardly ever there, so I keep missing you. Oh well, can't win them all. When are you planning on coming home again? Maybe,

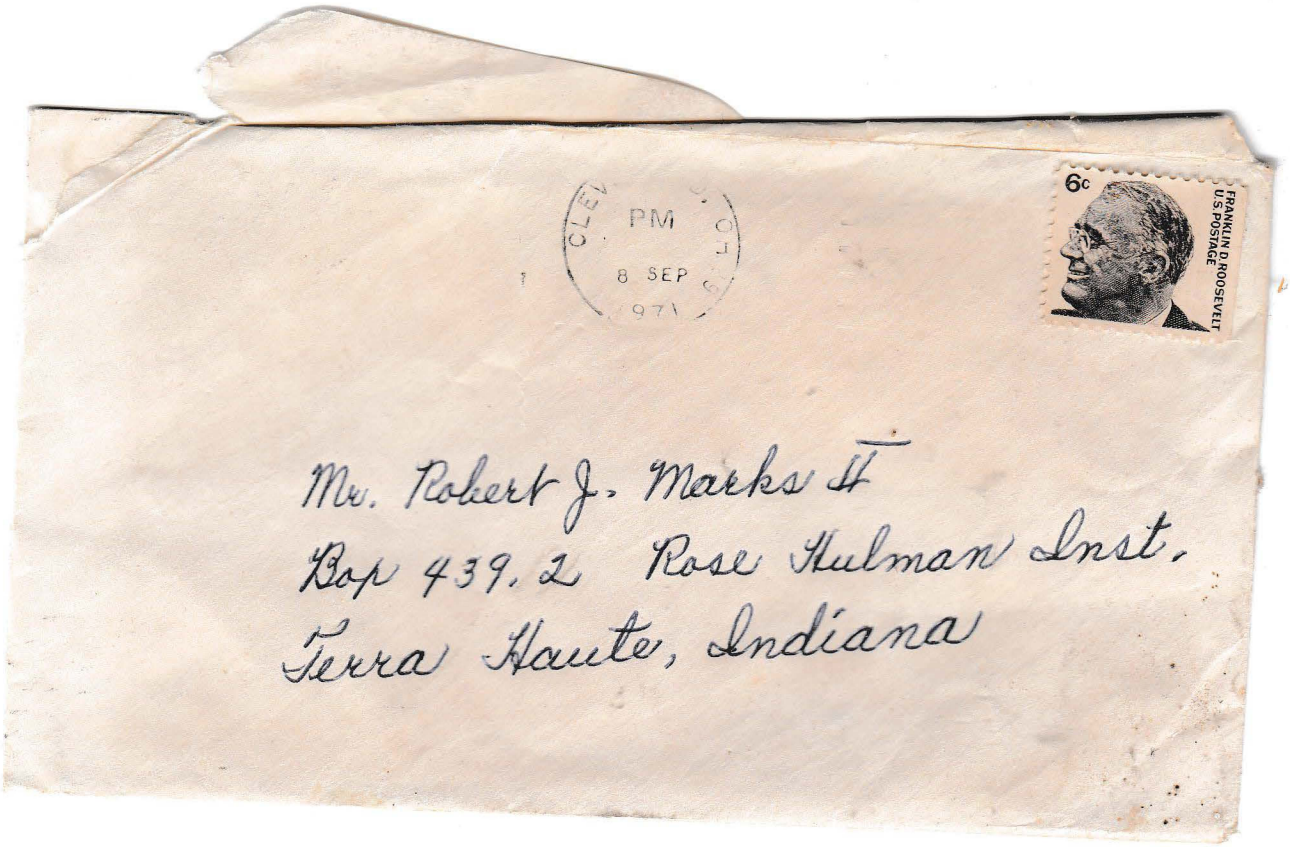

next time, Dll ya you.
Well I really don't have anything to say, so I guess I'll close for now.
Write sometime when your not doing anything.
Bye!!!

Dear Dad and Mom,
We are doing a lot of school work. I'm writing a book. We're leaving on the Monday, and we're going the southern route.

Jeremiah

The Cabin

Jeremiah, Joshua, Grandma and Grandad Jack were going to the cabin. The car was crowded with food, games and clothes. It was a bumpy, frozen road and we almost got stuck.

At the cabin we unloaded the car. It was work, but it was fun. There were two rooms, one with two beds and one with two bunkbeds. The one with two bunkbeds had pictures drawn on the wall, I wrote my name on it.

After we unloaded, I shot a rifle, my best shot was by the bull's eye.

We also played risk, ate, slept and Rode the four wheeler. When I was riding the four wheeler I crashe in the creek.

It was hard work packing up the car, after we packed up, we hitched up the trailer to the

four wheeler. Then we left.

Dear Mom. How are you? I am cold. It seems it is never going to warm up here. And it is so windy. Grandma and I had to hurry before dark to get warm and I have my coat on.

Well we are expecting any time to hear Germany has surrendered. I hope it comes tonight. We got a letter today from Paul written 18 of April in Germany. I know he is anxious to come home.

Do you still think June isn't going to find

a calf? I talked to Roy
something about taking
care of our Cow when she
is fresh. I would like for
the calf to be taken from
her but if Roy cant do
it just let them go. You
arent able to do any thing
with them.

How's your garden doing?
We were out to a farm
yesterday. Where Grace
Foley lives. They work in
a flower hot house. They
have beautiful flowers
of all kind. and cabbage
tomatoe and pepper
plants. I bought 2 ~~glass~~
geraniums and a couple
small fuschias. They have
buds on them tho. and the

red geranium has one bunch of bloom out and three more bunches almost ready to bloom. The pink has one bunch blooming and more small buds. I brought them in the house tonight its so cold. I had your flower and the pot mine was in out in the yard while we were cleaning and some one took them my little dishes and all. I intended going back to Wards today but grandma isn't feeling well. So decided I would wait a while till she gets better or goes back to Akron. She talks like she wants to go back this week. Got Post to go

with her to work and sell her farm.

I haven't seen Wiants yet about their farm. As usual God is teaching me trusting. He thinks it is too high. He said if his mothers farm was only worth $3000 That one was away too high. Grandma is offering hers for 3000 and there are 270 some acres. Thats her business tho.

I went down to see Mrs Smith this afternoon. They are all well. Alice is getting to be a great big girl.

I have only had one letter from Andrew since he went to N.C. last he

called me long distance and he had sent me $5.00.00 since he went down. I guess I already told you he was a pit Sh. now.

Well I am getting sleepy so guess I'll close. I'll send you a clipping and you can see what happened to ~~Middleton~~ Muscatine

Hard work for Grant and write when you feel like it.

Dear Dad,

Hi Daddy, I hope you had a safe trip back to Kansas, and to keep you company, I put myself in the mood for a long letter. I'd appreciate it if you will take into consideration this needless continuation of our discussion Saturday, & make yourself comfortable, please.

I do want to apologize for talking back to you & while there. As you know I've not been sick & I'm trying to catch up on my daily schedules, including my rest.

In appreciation I thank you for taking me out for dinner. It was fun while it lasted, though it wasn't our place. I know how much you were looking forward to coming home, and I'm sorry it didn't live up to your expectations but things will get better. Maybe next year for our anniversary we will spend it like we should - with our friends & we will be able to celebrate & enjoy ourselves. I don't mind us going out alone, but I do like it much better when we double. I'm sorry for you that we had to end-up in a "drive in" of all places, but it was being together, with you, that was all that mattered,

and I hope you will do me one favor which is not to ask me not to a date-ix again since he shall refuse next time to go. I said I trusted you & showed it by going out that, so there isn't any reason to go any-more. I did enjoy our "talks" most of all which served to make it easier to understand.

As I told you, I also have been thinking about us in general and so you this past year, it's been very happy & marvelous. Aboard the problems were facing concerning our interests, I don't think it's so detrimentable, but I realize it's an important role in us. It's been going together a year now, and you can't say we've been together; except when time allows. After our first 3 months, the succeeding we've been separated & have been 2 months of the time. When you first start going together, everything goes fine, but it is later problems evolve. Through past experiences, we both know how will things go in the first months or so, compared to later on. Don't saying that most of the couples going a yr. or so don't always placed under the circumstances of separation we happened to be, therefore

during their first years time, they have all the benefits of time, which is all they need to have but their disagreements etc. Now as you see, during our year, we either have to have serious problems through the means of mail, which isn't the best thing to do you know. A lot of times, words and feelings & thoughts are lost through the mail & I think you agree that if we have been together during our hard times, it would be easier as we know. Do you see now & realize how important time can be? I feel you do and in any future trips will be sharing our summer & communicating without mail once again. After 9 months of mail, I think we deserve it. We've settled a number of things that way as else it's a good idea when you were close or a quick weekend, which isn't necessarily the best ways of going about it. But we're getting this year considering everything & I'm proud of it. (I don't mean to sound excited - I'm sorry)

We do have the basic knowledge and understanding of each other, though we're not that well established, which

is one thing that does take time. You might make some math a little mixed up but things straighten themselves out too. You asked if it would help if we could help time, well it wouldn't much, and if we did, you'll be home once again & will continue on the right foot.

We are a couple of teenagers making our ways now, but by the time we finish our education & the six years you're part with us, I shall be 22 & you 25 yrs of age which is ideal to carry out the vital roles in life, that we are living for now. I feel that sometimes we try to pack a lifetime of living in our teenage yrs. which is impossible according to the standards.

I get the impression at times that you are afraid of growing old. Dear, don't ever be afraid of something like that honey. I know that the younger years of everyone is always looked back upon as the best part of the past, but think of the future. The best is yet to come, & as you mature & become an adult, you'll think of how foolish you must of been sometimes to be afraid of growing up.

Besides, God gave us this life & when he's ready, he'll take it, so it isn't wise then that we should have fears. Be yourself honey, because I wouldn't want you any other way. Your patience, understanding & kindness to me ever since a yr ago, and I distinctly remember you once asking me never to change. You accepted me the way I am, as myself & that's how I want you to be. So why change you or even try & change another completely unless it is my place or will. Even though there's always room for improvement, it's better to edit & improve things gradually instead of making a drastic change all of a sudden, but if a person needs a change, though others, God will show them the way. Trust and believe in him. I'm not asking you to sacrifice or pray but to take part in life as it were yours, mine and ours. That's the way things work out, I share my time & life with you & you share with me & may God make me the girl to come the most dear you've, if you'll let me be the woman

behind you. Agree with time & so shall I.

Well, I read I haven't any plans for this summer & I doubt you have any either, but do you have any ideas or what you'd like to do? I think you will be getting a job soon or later.

I hope you enjoy yourself at the wedding coming up. I know how you feel when you see your friends around you marrying off. Someday will make it Bob, you & I and there isn't anything in the world I'd like as much as to be the little schoolteacher, your wife. Then you'll be so proud of me & I'll devote myself to the happiness of my husband & our children. How would you like it, if we were looking at the model homes up road, when you come back? Do it alright with you if we were to go looking for one, & take it a day? That if you'd like it, too. What do you say, honey?

Bad news. - I got on the scale this morning & Lord! I gained a pound since all that I had you dinner, thanks to you! I only hope you gain some weight by the time you come home again, or else I'll get

that you do this summer. Diana-bet I could be sitting on the porch, sipping some lemonade, watching T.V. and I'll be baking a cake & cooking cookies (choc. chip. ha! I got you & then you can't say no. (Good Deal for ya !!!)

Of course you're going to pick up where we left off last summer on my guitar lessons. I just love the guitar & drums. Maybe I'll get pretty good with the music, although I can't sing, as you say.

Then we can look forward to going to have special talks on "our rock" at Dixie's Cove. Remember how quiet & peaceful it all was? Of course, I can't see you forget. It was so quiet & peaceful we could look up and watch the moon drift by. I can feel it now. You can't put your mind at ease & I'll drop the "grapes" in your mouth - that you liked so much.

Remember all the evenings we would just drive around so calmly when I was on your shoe, & you got to be a pretty good ole-skool, ole-eyed driver. Such beautiful memories I'll never forget.

If I do get my license, I might

take you driving as a puppy Sunday afternoon.

Then there was the times we'd go to a movie & snuggle up & share a piece of liquorice at each end & meet in the middle. It's the little things in life that count just as well.

I'll always remember the day you threw me into the pool, clothes & all & then came running in to rescue me. I was so surprised & aggrivated & didn't know what to do! Hey, Hershey? There was the time we went up to Cedarbrae & how Gary stuck his neck out those gondolas. He all went with a good time but then I enjoyed me more & would the way home.

All those little things made our years-filled summers & how I wish they could of lasted. We'd be together practically every day & night & we had a healthy relationship, which will be fortune. Can we have your times such as these again this summer Ben? I sure hope so. Those were the days & may we have many more like them to come.

5.

I was cleaning out my drawers this afternoon & all the little gifts you'd sent me from Rose since you started. I have it in a glass jewelry box. The postcards, the match packs, computer print outs, glass, key chains, pens, etc & of course this red & plastic ruler, you used to pick mailing needles! Oh such great writing you all this time and while your first college year is coming to an end, I wish you the best of luck in the coming year. I know you can do it & you will, our life depends on it.

Did you get a chance to see Al & talk to him about your stuff yet? You said your luck was really running, problems, thinking & everything, I feel sorry for him, & I know he could pull through if he wanted to.

Watch out for those movies you might decide to go see. Rick took Linda (from South) to see "The Killing of Sister George" last wk. & after a long hour in that place he pulled me by the arm and of there. He said he had more respect for me than to take me to a movie like that, which means it must of been pretty bad. Let us

Sometimes it's not worth it to sneak into the back of trucks, Ha! Saturday there was "Gas, Grits and Grit" at Yorktown where we went once. Hey, don't we go see it when it comes around this summer. Everyone tells me how good it is!

I got our yearbooks last week & the pictures came out pretty good. Chris & I didn't go that day so we had our class pics, & will get them in October as earlier. They got the pencil axe again this yr. with wacky blue stripes. She's sure looking.

I'm glad you weren't angry about not going to Cabot party. If it were for that stuff, I'd like to go. But otherwise you couldn't drag me to a party like that & I don't think you would want to go anyways, & I'm glad you wouldn't take me there. Thank you.

I better go now & get ready for class tomorrow. Be good & take care of yourself. Write soon, honey.

Love,

Karen, your little woman.

PORTO RICO

January 14th, 1927.

To the Stockholders
of the Federal Land Bank of Baltimore.

Gentlemen:

We are enclosing you a condensed statement of the Federal Land Bank, showing its financial condition as of December 31, 1926.

You will see that our loans now amount to $66,362,406.50, and have been made to 25,044 farmers. This has grown to be a vast banking business, and it demonstrates that cooperation among farmers is successful when each person does his part properly.

The last few years have been trying years for the farmers, but all of our borrowers, excepting a very small percentage have met their payments promptly; thus making it possible for the Bank to again this year set aside from its earnings a dividend amounting to $187,065.90. Those associations that have no delinquents, unpaid taxes, etc., are now receiving their share of this money.

By continuing our cooperation, we can render a great service to the Country as well as help each other. You can materially aid your Bank during 1927 if you will explain the benefits of this System to successful farmers who pay their obligations promptly, and who are in need of loans. Emphasize the fact that each borrower must meet his payment on or before the day it is due in order that the Bank may pay the interest on bonds sold to secure money for farm loans.

If you have suggestions as to how we can improve this service, do not hesitate to write us.

With kindest regards, we are

Yours very truly,

C. R. TITLOW

SPECIAL NOTICE - IMPORTANT

A recent amendment to Section 12 of the Federal Farm Loan Act provides that, in connection with any loan made through national farm loan associations, or through agents or purchased from joint stock land banks, outstanding on May 12, 1933, or made through national farm loan associations within two years subsequent thereto, no payment of the principal portion of any installment shall be required during the five year period commencing July 11, 1933, if the borrower shall not be in default with respect to any other condition or covenant of his mortgage.

At the present time, it appears that there is default under the terms of your mortgage, and the items causing the default are checked below:

Delinquent Payments	X
Taxes	X
Insurance	

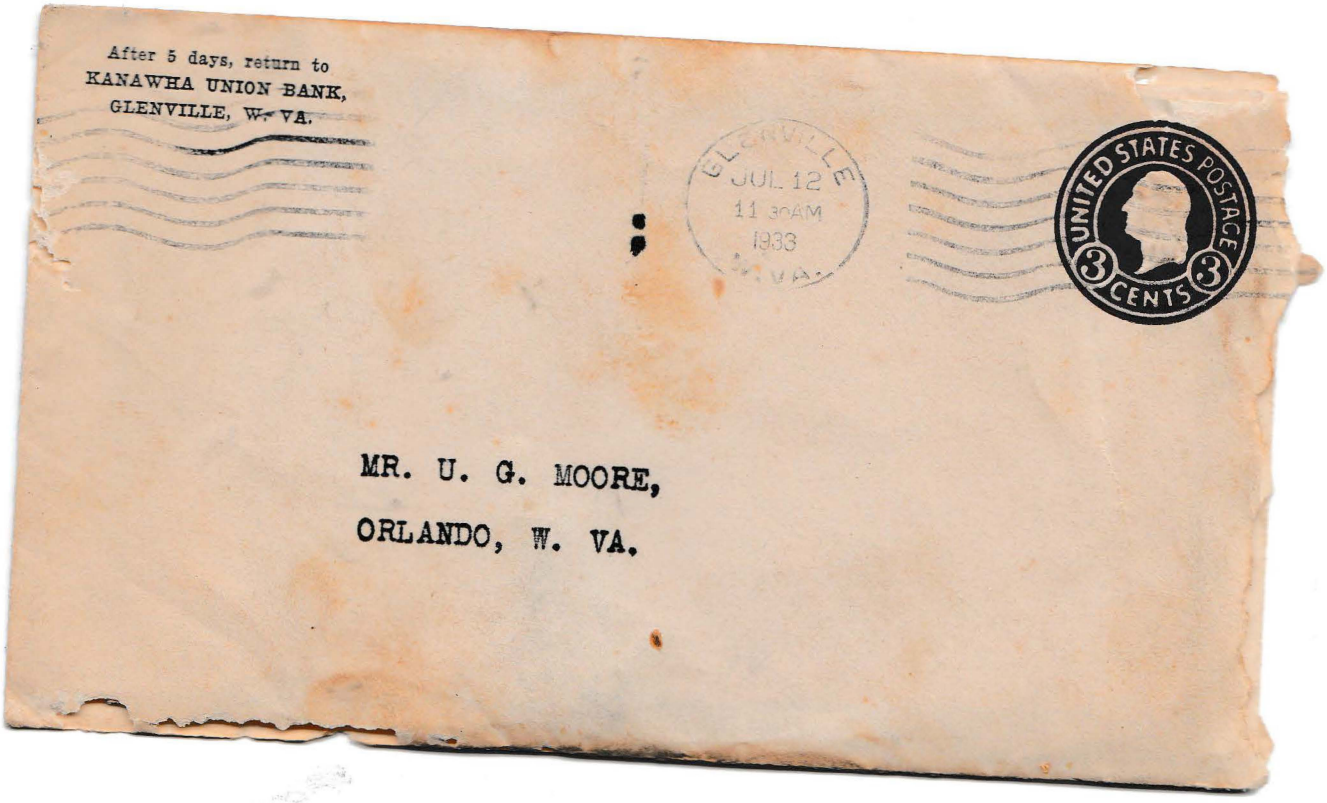

If an extension of your past due installments, unpaid taxes and insurance premiums and/or the postponement of the payment of the above stated delinquent payments, however, duly approved by the association of which you are a member, is granted by the Bank, they will not be considered as defaults and you may then file an application to defer the payment of the principal part of your installment if you so elect.

If you are unable to make payment of the above mentioned default (s), we suggest that you

See Your Secretary-Treasurer Immediately

so that you may be fully advised as to what is necessary to be done to enable you to receive the benefits of the legislation above referred to.

Hi Bob -

The C. L. E. results came in today --- about 5/6 of them. You did O.K. on all --- except one + that was a 79. + that's O.K. too, eh?

We went to W. Va. over the Labor day week-end. Bill + Kathy went too + Bill fell in love with the state. Can't figure out why we left. Betty was to come in the day we left. Grandma + Grandpa fine.

Today we had our first teacher's meeting. Our speaker was from Cleveland State + he spoke on decision making. This isn't an easy thing to do + yet it decides so much about one's life --- such as your decision to attend Rose --- etc; etc.

Have you got someplace to live? Have you got to Chicago? In short --

We sent word by John for you to call--
but maybe you haven't seen John.

Jack K. is never home--- with his
jobs + school. He sleeps at the hotel job.
He seems pleased with the challenge.

Ray Alan's first day is Thursday.--
He seems eager to meet his teacher.
That's about when you'll be registering.
Let us know about your schedule as
well as about your radio station---
+ if and how much time you sold.

We miss you + are curious
as to how you're making it since
leaving home. Let's go--- go--- go
until Thanksgiving---+ then a
breather! Good luck— chin up---
and write. No- I won't send this
any until sure of

Dear Bob,

Hi honey!

Hope you're not mad. I know you care, I'm just busy.

There's not much going on around here. I'm not doing much of anything anyways.

I had a pretty nice weekend. I was so happy when you called. I had so much to tell you but such little time to say anything in, but 3 minutes was long enough. I'm not complaining.

I've been keeping myself busy. That's why I've not been over there as often as I'd like around the end of the week. Tuesday, I went downtown, Friday I baked jelly rolls and a couple of loaves of bread, which was terrific, and Saturday I took Kim downtown to pick up your birthday gift. I had to send it to

2.

Hurry pick to get started & so they came in & we went to get it, but the thing is I can't mail it. It'll have to wait until I see you, which I hope is pretty soon. There was a parade on Sat. for Columbus Day & so that made it a happy Sunday. I took Lee to church & then with Kathy Hudak & her mom & my friend Heidi. I think I told you about that before. Okay, Lee gave you about 3 more days. Isn't that sweet.

I miss you so much also. I've been hoping hourly to get back from getting Christmas, but it doesn't work. Sat. I made a pair of slacks & also I want to make the jacket, & skirt. It'll probably take a while. But it's practice.

We're doing pretty good, as far as relations are-

cursed. She looking teacher is still threatening to kick me & Judy out but it takes a lot to get me mad. She nags on me exactly waiting for me to break down or something but I won't give her that satisfaction. I can only pause till I do as she tells. She made me go out into the hall and put up my hair. I guess she won't be back because she has to have all long hair pinned up. And I didn't like it because we didn't even look. She read all the time.

Every yes we go to my grandparents for Thanksgiving but I don't want to go to my mom's going to stay and get them into coming over here. You'll be coming home Thursday night with us? If you do, I'll see then, for sure.

2

After church Sunday, I stopped over to see your family. They all look happy, like they always are. And you sure have grown so much as ever! I suppose everything's the same as before.

How you called, you were down there. What's it like in the country, over there?

Oh! I got had my picture taken. Dad's the one got me started. We're playing archery in gym outside and I can't. It's really sad by gosh if you want it to be.

I wish we could play tennis. That would even be better. It was such a nice day, too.

But how long have you been playing music? You read, will you start crying or what? I mean your

P.S.

Well I have to go now, so take care of yourself and be good.

Sat. Night

Dear Bob + Connie,

You're a few days ahead of me getting back into the grind!! I have my teachers meeting Tues. (Sept. 2) the children come a full day on Wed. I only have 19 as of now. Beautiful, eh? I'm off to a slow start this year as it's the first year I haven't gone to school ahead of time to get books out, etc., etc. but this has me convinced (maybe?) that it's only the teachers with an inferiority complex that does this. (Think this through) Well, another way to look at it is "the

early bird gets the worm."
I climaped my vacation
with last minute shopping --
in the rain --- with Ray +
John. I bought Ray tennis
shoes + pants - Jack two new
work uniforms that are
"checked" + myself four little
glass animals to stimulate
reading (I hope) about
animals. I think everyone's
on the mark --- ready to go.

Our next big project is
to get to Lane's wedding.
My brother Ray + Va. have
been so good to my boys --
+ it's been sincere + with love.
Ray's last big thing in his life
was to get to your graduation.
Bob + then look how Va. Lane
+ Lynda came to your wedding.
all appreciated - appreciation
you don't repay --- just know
it's there.

By now you have your package + either you like - or don't like -- which really doesn't matter -- I had the fun of "doing." The things are not expensive so if they collapse in the first laundry, just say- "That's how it is nowadays. Maybe next time she'll do better.") (Maybe not. too - as I feel you're happier when you choose your own things but I remembered our talk about sales. Connie - they were on sale — which reminds me -- I bought 2 more expensive shirts which

your dad (Jack) — darn it hard
knowing what to call him
with the two relationships
involved here --- now you've
lost the trend of my tale so
go back + re-read --- now
proceed ⟶) liked + he
put one on. I said. "Jack,
it's too small. We'll send it
to Bob." — + he said, "Bob's
as big across the shoulders
as I am".
I said, "But it's across
the stomach it's too small!"

Wow!

That was the wrong
thing to say to a middle-
aged man with a "
" stomach!!

Off came the shirt!
+ the two beautiful green + blue
shirts are hanging in the closet.

my unthoughtful remarks!

I just read where a person's interest is only six seconds long — really! — so I've already exploded your span of interest (right??) with my rattling — but I figure you're a little above average (Better be - where you are now —) in intelligence so I can expand it to ten seconds, & you still maintain your sanity.

These telephone calls aren't satisfying to me at all. For example, I want to know —

What floor do you live on?
What's the color scheme of
the apt.?

Have you got everything
unpacked yet?

What's the campus &
buildings like? (profs)

Have you heard from
Dick & Mary Law?

How do you feel about
the big change - truthful
now - or is it too early?
In moving (now that's
its all over - what did you
do right? (laugh if you want)
& what would you do
differently? (Hey - I may move
again before I
die!!)

Mr. & Mrs. Robert J. Marks
13008 OAKVIEW BOULEVARD
GARFIELD HEIGHTS, OHIO 44125

Connie, how do you feel about it all? Bob, you??

Hey - 10 seconds are up!

Darn, two mosquitos just bit me - or one two times!

O.K. now don't skpeech such communications from me after Sept. 1 (whee, what a word!) esp. for 3rd grade Communications, yes I see but not "ten second span" ones - shorter! (Did I hear someone say Thank goodness!)

Confess - was it you Bob - or Connie?

We love you dearly - realize the past two weeks have been difficult ones - + we're glad they're over for you. We're hoping now you're ready to move on to your goals + as Mary Lou (your mom) said, they're reached on a day by day basis.

Connie, I have great confidence that you will find your "niche" + be at least partially happy with it --- but don't expect it overnight. Sometimes it takes patience (I'm sorry I'm so slow + you know) + we'll have to use the "equal rights" approach on these telephone calls, eh.' I missed

Mr. & Mrs. Robert J. Marks
13008 OAKVIEW BOULEVARD
GARFIELD HEIGHTS, OHIO 44125

talking with you tonight -- + later wondered if you were there. Were you?

I'm going to write Dick + Mary Lou my "farewell to vacation" letter - because they will be fewer (I'm afraid) after school begins. Then Christmas won't seem so far away (if not before (to) see you!) with getting on routine

Whee - even smiled myself up!!

Write - do your best -

+ God bless - Lenore (Mom)

+ I'll do better next time - send a telegram (you say) O.K.?

Love you!! I get it "Be Brief."

Dear Mom. How are you? I am cold. It seems it is never going to warm up here. And it is so windy. Grandma must to bed before dark to get warm and I have my coat on.

Well we are expecting any time to hear when Dad surrenders. I hope it comes tonight. We got a letter today from Dad written 18 of April in Germany. I know he is anxious to come home.

Do you still think June isn't going to send

a calf? I talked to Roy something about taking care of our cow when she is sick. I would like for the calf to be taken from her but if Roy can't do it just let them go. You aren't able to do anything with them.

How's your garden doing? We were out to a farm yesterday. Where Grace Foley lives. They work in a flower but have. They have beautiful flowers of all kind. And cabbage tomatoes and pepper plants. I bought 2 ~~geraniums~~ geraniums and a couple small fuchias. They have buds on them tho. And the

red geranium has one bunch of bloom out and three more bunches almost ready to bloom. The pink has one bunch blooming and more small buds. I brought them in the house tonight its so cold. I had your flower and the pot mine was in out in the yard while we were cleaning and some one took them my little dishes and all.

I intended going back to Wanda today but grandma isn't feeling well. So decided I would wait a while till she puts letter or goes back to Akron. She talks like she wants to go back this week. Get Post to go

with her to work and sell her farm.

I haven't seen Wiants yet about their farm. As usual Dad is bucking me buying. He thinks it is too high. He said if his mothers farm was only worth $3000 That one was away too high. Grandma is offering hers for 3000 and there are 270 some acres. Thats her business tho.

I went over to see Mrs Smith this afternoon. They are all well. Alice is getting to be a great big girl.

I have only had one letter from Andrew since he went to N. C. but he

called me long distance and he had sent me $5.00.00 since he went down. I guess I already told you he was a pal. Now.

Well I am getting sleepy so guess I'll close. And send you a clipping and you can see what happened to ~~Middleton~~ Muncklind

Hard work for Paul and write when you feel like it.

Hello Son,

Will answer two letters recd. yesterday and to-day. I'm sorry you haven't recd. mail from me for a week. Yes, I've been busy but have written you four times in the last week. I have time to write after I get the boys in bed you know. I just finished ironing to-night, since I put them in. They are pretty prompt with their going to bed. If I don't put them in by 8 o'clock they go to sleep and I have to carry them up. They are getting so big it is a job for me. Jimmie comes almost to my shoulder and Max comes to Jimmie's forehead. Betty and Gene have grown considerably this winter too.

I have been wondering since I recd. your letter to-day, how your boys stood inspection. Also wondering how the sham battles turned out. It must have been pretty difficult for you to train them since you didn't get that training yourself. I'm hoping you did alright though.

You know I wish you would get transferred to a camp nearer home. That is unless it would interfere with plans you have.

They are surveying and dividing the farm up home. Started Monday.

Bernard C- is surveying it. I'll be glad to have it fixed up right. Nellie and Frank are due in to-morrow if Frank is able to come. Hope they do so we can get our deeds fixed right.

Mom is no better. I was up Sun. & stayed with her until Clarice & Vivian went to Sundayschool.

Your Grandma Marks is O.K. She was down this evening and I addressed a letter to you for her.

I guess I get my garden harrowed to-morrow if it doesn't rain. I hope so as I haven't even planted my lettuce and onions yet.

Your dad bought a power lawn mower. It is easy to start & operate. Betty had it running this evening. The yard needs mowing now. Basel wanted to mow it the other evening, but he was pretty drunk and I was afraid he would break it, so I found excuses. Hope he comes down by Sat. and mows it for me.

You remember I told you Little Jack Marks was going to enlist in the army. Well his brother John said to-day that he couldn't pass the physical. Paul Stoner is trying to get in the Merchant Marines.

Good-night son. I will look up Jo's picture and mail it in the next letter. Lots of love - Mother.

Bob,

I am sending you copies of an apointment of officers in which I have made you and John the officers in Chiefs Towing Service Inc. Please find out what legal papers are needed and the expenses of operating a Corporation of the State of Ohio in relation to the cost is minimum then make it legal If you can't do it see that John does. John has the title to the truck and if he gets license then the title was to be transferred to his name but of the Costs of operating a Corporation in Ohio is constant with law then proceed with as is.) Records should be as I have the Feb. All receipts should be keept by month and only expences that can be verified by receipts can be entered as records. This means all expences. Gas, Parts, some meals and wages of operator and other help. but be ware of Income Tax when paying help. Check laws. — I Plan to transfer Presidency and Holdings to you as soon as you find out if you can

do anything with it then, I plan to Put 75% in your name and 25% to John And you can Darkroom any other Arrangements later if you feel necessary - 25% should be Incentive enough to get a lot of work from John with him receiving a wage of some sort.

The Library should have a book on Copyright Laws.

Make Photo Copy of "Code of Regulations" so John can have one.

Keep a file on all Correspondence & work Done for Corp.

Read the Regulations and if you want Changes, note them and we can change at any time.

Mr. Gibson called last night and said he received many compliments from all of the people but mostly ~~and~~ from the Young class. The speaker has to wait a lot of time for response and as Gibson says they seldom get to hear the best as it is told among themselves. Geb also said about the $20.00. Don't take the pleasure of giving from Gods people as this is what they want. Their answer to why did they give was "It wasn't enough" I told him you felt that it took from your gift and he said you was one and they are the Church & wanted to give. Sooooo Maybe you can get a Moody Bible course with it or in some way use it for Gods work.

Daily have one expression suitable for the occasion, and that is. "This is my son in whom I am well Pleased" God said that of Christ when John the Bob. Baptized him.

Love Dad.

Hi- "My Two"

Hope everythings coming along o.k. for your jobs- your wedding - your honeymoon. We'll be calling you.

I'm at the trailer with your dad. He needed a rest so we went up to visit Melba + Mat (+ Ray got to go into D.C. + see the monument) -- it ended not a rest at all, but enjoyable.

I'll be contacting Mr. + Mrs. Jewett too.

Keep yours + Connies goals in mind + work

quietly + steadily toward them. T. Roosevelt(?) once said---

"Walk softly + carry a big stick." I always interpreted this to mean (for my own benefit) --- Work quietly + patiently + keep my goals in mind + tolerate others (big stick) You decide for yourself what it means. Love. Mom

P.S. Tell Connie + parents my dress is apricot --- plain colored.

Lenore Marks

Love you!

+ We miss you!

But -- it won't be long now!

Tryed to call you a couple of times today but didn't get any answers. (guess you know you didn't answer)

Ordered us a corse with Moody Bible Institute. Thought a small one would be a good pilot for getting in the know of what they expect and get me in the mood of study and learning. They have a larger one. I realy want but will try this one first.

Your tape recorder is ordered and should be here with in a week. I'll let you know when it gets here. I'll probbly play with it untill you get here to take it with you.

Dimmie Mack was sick for a couple of day and Dad isn't too well so I may go down home for a couple of week and help feed. May get a chance to work on the Cabbin some.

Hi Bob.

Sunday April 9, 1972

Went to church today with Kay - He enjoied the sundyschool portion but was figity during the minister portion. I remember how I used to hate setting through preaching. Was ask by Rev. Kerby if my wife, son and myself would like to go to Jerusalem with him & the Gibsons in about 18 months from now. They are to get the reqirments together and give us some Ideas of costs time and othe incidentals connected with going. I'm flattered by being ask and proud that you was included. Eighteen months gives up plenty of time to get every thing ready and desiable if we can & want to go.

Hope you have received my other letter and are proceeding to take care of any business pertaining to Chief's towing Service Inc. Don't let any opeation go astray of the law. It is a must to get educated in operating a Corperate business if we are to keep it going. Now in Indiana as well as Ohio. Be sure that John understands this also.

You left an error of uncertainty about when Graduation was going to be. Make sure we are aware of the Correct date and time as soon as you are sure.

Zack will probably be in the Union local 18 within a few weeks. He will start as an apprentis which runs for 4 years

The first year he receives 70% of Edger rate the second 80% third 90% and the forth 95%. After the fourth year he is a full fledged operator and gets top pay.

AMERICAN RED CROSS

Hello,

How is Sandfork & everyone there? Haven't heard from you but once since I got here & that was over a week ago. Guess they haven't been able to keep track of me as I've been moving pretty often lately.

This turned out to be a pretty nice place. We pull guard three hours & get off fifteen except for a little drill & a few classes on military courtesy. Haven't had it so easy since I was in Belair.

We got our rations today. I got six packs of cigs & one pack bar of soap to last two weeks. If you don't mind I would like a carton of cigs about every week or so. Just in card something like this

FORM 539 A

AMERICAN RED CROSS

comes up again.
As for the packing of the others it was O.K.
Remember the grades you sent me? They only listed subjects that I had completed. What I need is a copy of the subjects I need ~~to~~ to graduate from & that is the school I chose to use. Hope this don't get priced if putting up with me.
Now is Basil & his pipe getting along. Tell him if he ever get in the army again to stay out of the Paratroops. They are just a bunch of kids now I have a very poor reputation with those of the army.
I'm sending a clipping from The Division Paper about Leslie. It was the class we trained that

Dear Ramsey:

Got your letter yesterday Nellie forwarded here. We looked and looked for a letter from you, couldn't imagine what was wrong, but we never got any answer from the last letter we wrote.

I can't understand why you couldn't write any time, or anything. What you say shouldn't make any difference to them if you are in the condition they say you are. C. Probably their opinion is all.

Pad took quite a laugh

over what you pulled about teaching animals tricks. You know him alright, and his opinions are stronger than ever.

We can't get one word from South Carolina. Looks like there's something wrong. Dad said for you to give him some of the men's names who were working there with you, not the officials &c. and he will try to gain some information in that way. We believes there's the place to start.

Dad & Mother both wants you transferred near home and wrote out there asking

about it, but they never mentioned it when they wrote, only saying you needed treatment yet, so you see just how it is, can't do much. you take care of yourself, and try and get your physical health gained back, and as to your mental condition, I believe that will take care of itself, according to your letters you write. I can't find any defect in them. ha. Oh well, we only live once, and we never know what we might have to endure, but as long as theirs

life their's hope, so try and be patient and dad will do every thing he can for you, as he has always done for us all. In sickness or trouble he has always come to our rescue. I'm with him now, but aiming to help mother out all I can, and my family is small, just the one. Bill is out again trying for work, but without a political pull every thing seems in vain, but we are still hoping.

We have a pretty nice snow on this morning, and quite a freeze with it.

I'm afraid fruit is gone for they were in full bloom. It has rained since the last of March. Verle has been trying to get his potatoes planted and his clearing done, but has been too wet. Dad says he has a fine clearing. He was always good with an ax you know. He and Arden both are making great musicians. Ha. Do pretty good. Verle plays any string instrument, and Arden picks the guitar and has a fine voice now.

Well I will have to close

and go up to Viviani's to wash. She is all knocked out. Looks terribly bad. Dr. Sloan from Clarksburg is doctoring her. She isn't doing any good at all.

I hope you will be able to get a letter sent here, soon, for we are all anxious to hear from you. Be good and take care of yourself and if you want to give dad a hearty laugh, just crack a few more jokes Ha.

Hope this finds you still improving. Love, your sis, Violet

Hello Jack,

I've been sort of neglecting you of late, haven't I? as I told you we've had sickness. They all seem to be on the mend now, if I can just keep them from taking cold. Mom was a little better Friday, tho when I heard last.

We were very proud of your shooting average. It was excellent. You were in the fourth group and with that many it was good. What kind of guy is that Barlow with a 200 record. He must be a western gunman we read about. I shall keep the score sheet. I like to read the names and try to guess their nationality. Guess they are all Americans though.

I had a letter from Basel the other day. He is still in Baltimore. Guess he is going to work there. He never mentioned coming home. He had left a pair of his paratroop shoes all muddy on the porch and he wanted me to clean them for him. Betty cleaned and shined them up nice. She wouldn't do that for you would she? I think she would now, because she

is missing you a lot. She said the other day she could hardly wait for you to come in. I'll bet you scrap in two hours after you get home.

Yes, we all would like to see a duplicate of your medal. The boys would enjoy it better than anything you could send them I know.

~~We may~~ get the store I was telling you about. Arthur was waiting to hear from Beck Lynch (his son-in-law) and he heard and he isn't coming to take it over, so probably we will buy it. You can work on it when you get home.

Well I want to write a line to Buzel so will quit & write more next time. I have a heavy expense this week so can only spare you 2 bucks. Hope they will tide you over.

Write soon,

Love, Mom.

Sometimes you get discouraged
Because I am so small
And always leave my fingerprints
On furniture and walls.

But every day I'm growing–
I'll be grown up some day
And all those tiny handprints
Will surely fade away.

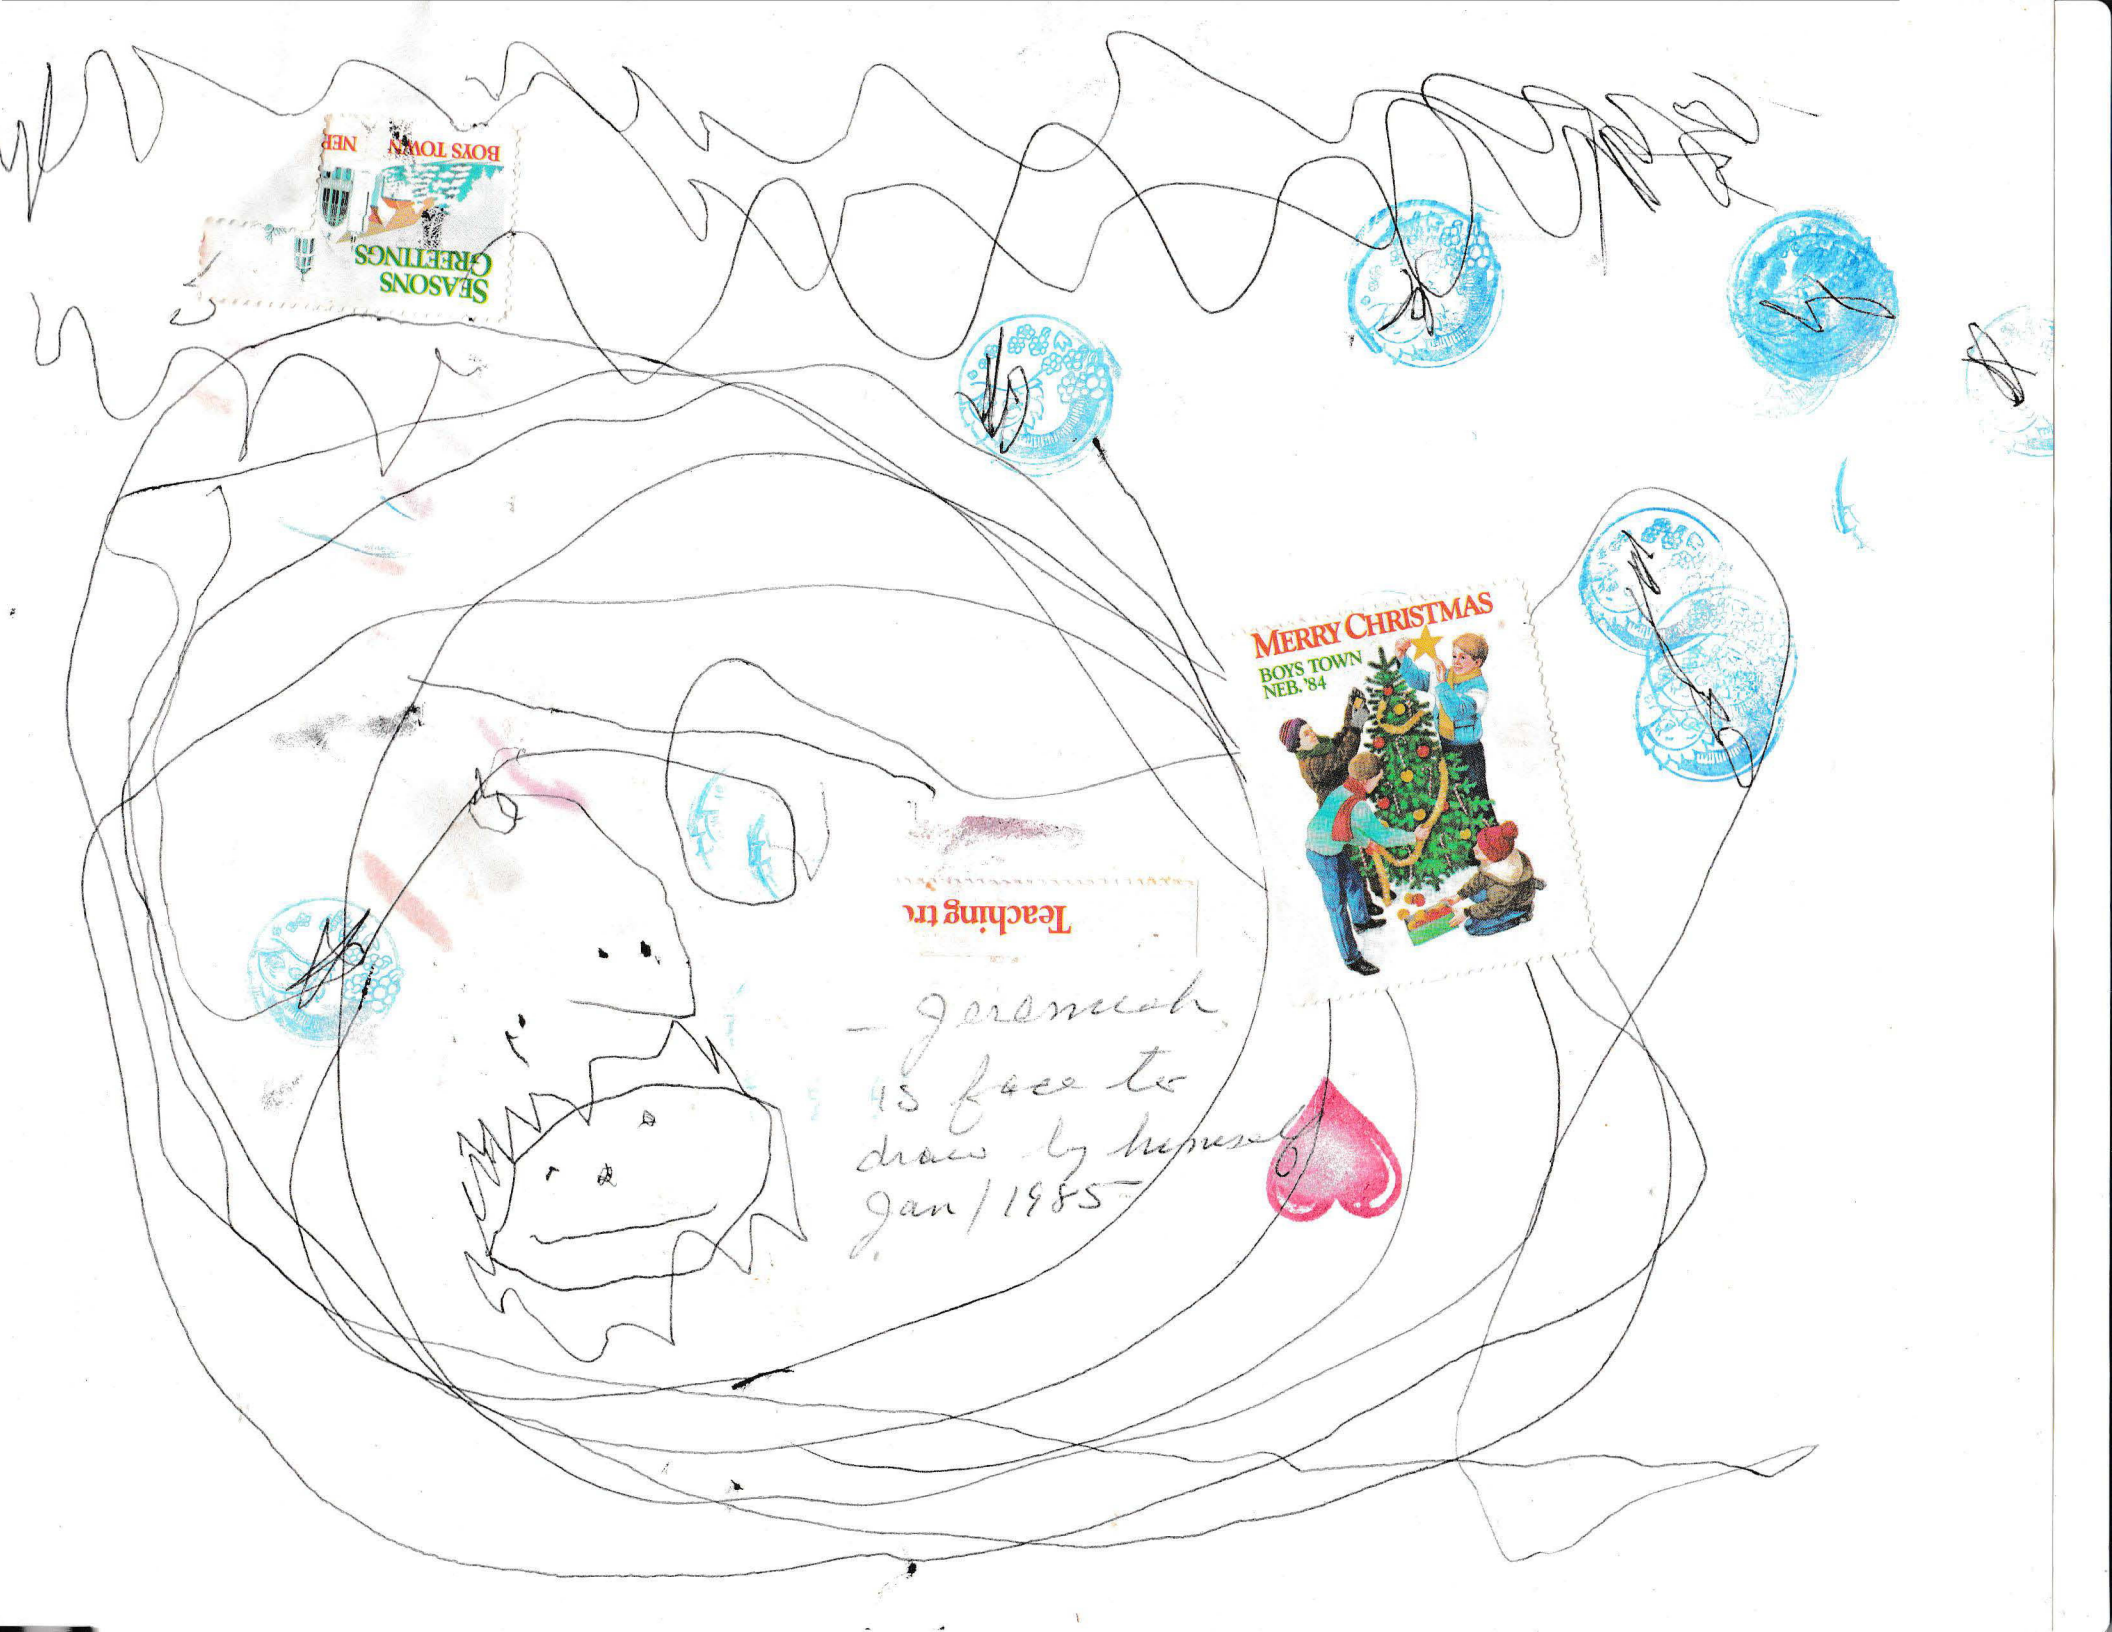

So here's a final hand print
Just so you can recall
Exactly how my fingers looked
When I was very small.

ll3l l99th St. S.W., LYNNWOOD, WA. 98036

Dear ~~Tom and Kathy Krile~~,

MERRY CHRISTMAS!

How are you? We hope all is well and that you won't mind our computer letter. I am practicing on our new computer and I thought my yearly letter would be a good motivator. Before the P.C., the friends who were at the first part of the alphabet got decent letters:but the friends at the end got very little news.

Here's a summary of the activities of our family this last year. Please read it carefully as we will quiz you the next time we see you.

January started out with a delightful time as we drove to California in our van with our family and we were able to meet Bob's brother, Ray, there . We had a magical time in Disney Land, and Knox Berry Farm. There were no crowds and we returned home just before the beautiful sunshine ended. Bob and Ray were able to see The Johnny Carson Show live. Connie and Ray and kids met a movie star on the beach. We were just about the only ones out there. Last week, Bob asked the boys where they would like to go for a special treat. In his mind he was thinking of something like McDonalds. Joshua enthusiastically exclaims, "Great Dad, lets go to Disney Land!"

Marilee is now 20 months old. She is such a joy to watch grow and develop. She is walking and running now and she has 2 and 3 word sentences. She tries to do everything Jeremiah and Joshua do. Jeremiah , now 6 1/2, stands on his head and then you see Marilee trying to stand on her head. Joshua bounces on the trampoline and throws beanbags into the basket and now Marilee does the same. Marilee has nicked named Joshua, age 4 1/2, Ya Ya.

Connie has a new career - Home Schooling. We have made a commitment to home school Jeremiah this year for first grade. He loves it! He says, Yeah, a math lesson!. We don't want the public schools to kill his wonderful enthusiasm. Every week, we go to gymnastics lessons 3x's ,swimming lessons 2 x's, Aikido lessons on self-defense. Also we participate in library story time. The Christian home school support group has weekly meetings, such as picnics, gym times and seasonal parties and many field trips of which we take advantage of. Connie teaches Reading, Writing, Arithmetic, Health, Science, Social Studies. Bob teaches Piano and Organ lessons,Drawing, Baseball, and he fills in any gaps that I might not get to.

Joshua also enjoys swimming and gymnastics and he goes to preschool 2 times a week. He also participates in many of the home school activities such as learning our new address by making playdough numbers and letters. He still is confused about the sun going down extra early in the winter. When he wakes up from his nap, he is angry with me, because he thinks I let him sleep through the night and he missed his play time and dinner since it is dark outside. Joshua is so huggable and sweet on the one hand and then the biggest tease on the other.

Jeremiah is very proud since he beat Bob in doing situps. Jeremiah can easily do l00 situps without stopping.

Lenore, Connie, Marilee and Bob went to Europe in June of 1988. It was the first time off of the North American continent for three of us. All three of us suffered severe jet lag for three days. We left Jeremiah and Joshua with our good friends, the Eitelbergs. They had fun pretending that Michael and David were their brothers.

We rented a car and drove down the Rhein river (Actually, beside it). The most memorable sites along the Rhein were ancient castles. One was named Marksburg. "Aha!" I thought. "I have found my roots!" No such luck. The castle was named for St. Mark who wrote the gospel bearing his name. But then again, we may be also.

At the end of our trip down the Rhein was Weisboden, the city of Connie's birth. We found the U.S. military hospital in which she was born. The drawl of the uniformed sentry was out of place in Germany. We explained our circumstances and showed him our passports. He let us in under the condition that we not trespass on any of the areas marked *RESTRICTED*. We found the building in which Connie was probably born. Connie and Marilee posed and I took a picture. We thought it would be great to take another picture at the entrance gate with *The Weisboden Military Air Force Hospital* sign in the background. Connie was posing when the guy with the drawl came rushing out of his little building by the entrance gate. "You all can't take pictures in here!". I smiled pleasantly. "Could we just take one of the sign at the entrance". He responded unpleasantly. "If you take another picture, I'll have to call the Weisboden police." We weighed the alternatives, got in our car and left. Two days later when we were leaving Weisboden, however, we drove past the installation and Connie took a picture of the sign out of our car window. I guess it was the challenge of getting in the last word.

Marilee learned to walk in Germany. It took us three months to get her to quit doing the goose step. (Just kidding).

While in the city of Cologne, we were able to participate in a Christian Holiday celebration including singing and parading in the streets. The procession ended at the awe inspiring Cologne Cathedral built in 1248 .We were able to worship GOD with the German people in a Mass service. Bob and I both had tears in our eyes as the experience was awesome and one we will never forget.

Because of a weak U.S. dollar, Helsinki was expensive . Bob met a man at the conference who was booked into the same hotel in which Reagan had stayed a few weeks earlier before going to a summit meeting at Moscow. The poor guy went down to dinner and they sent him back to his room for a tie. He returned, opened the menu and noticed that an apple cost 28 Finnish marks ($7). He closed his menu, walked to his room and decided that prudency was the best policy that night. In Europe, however, buffet breakfasts were included in room rates. We therefore typically porked out in the morning and fasted for our evening meal.

In September Connie's father, Charlie, had triple by-pass surgery.
Connie and Marilee flew down to Corpus Christi to be with him before , during and after the surgery. God answered our prayers as he has recuperated very well and says that his memory and energy levels are improved. We were so grateful for the fabulous hospital located on the beach as my father could look out his window and see the Gulf. However my father was released to go home early because of people needing to evacuate the city because of the hurricane Gilbert. Dad and Doris left right away to go to San Antonio for safety. After a few days there, they decided to go home. A few hours after they left San Antonio, Hurricane Gilbert struck just where they had been. We feel my Dad must have

more of his life to live. One special part of the trip was getting to know Doris's daughter, Diane and husband Dave, and son Cameron. My
brother, Rick, was able to visit him during part of his healing time.

We won't tell you of all our travels this year, as Bob was gone almost every month to one conference or another. However, one other trip was eventful. We were able to go with Bob on one of his business trips to Richland Wa., which is famous for its Hanford Nuclear site.
We enjoyed seeing the fall foliage as we crossed to the other side of the mountains. Our beautiful hotel was located right on the Columbia river. No one else was hardly there, so we had the river, the park, and the huge heated pool all for our family. The boys thought we should move there. Actually real estate is rather cheap there.

Since we enjoyed the pool in Richland so much, we finally decided we really might like to buy this new house we had looked at,which happens to have a pool. We prayed about our decision on Tuesday night and asked God to give us a sign as to what his will would be on this house. Surprise! The very next morning, our neighbor rang our door bell and said, I heard your house might be for sale. If it is, I definitely want to buy it before you would put it on the market. This is even more amazing, as only a very few people even new we were considering selling our house at all. Well he did buy our house and we did buy the other one. Our new , 14 year old house, has 6 bedrooms,plus 3living rooms, and 4 bathrooms and three fire places.It is about 4250 square feet. We like that it is on a cull-de-sac and that the property is almost an acre including a forest. We will really enjoy the master bedroom with french doors that open onto a huge deck that overlooks our forest. The things we don't like are that the house payment will be much bigger, so now we are broke and we may have to wait many years before we can afford to buy the furniture that the house needs. Also, Bob will have a longer drive to the U. of W. The house does need work, like a new fence around the pool to keep the kids out and there are even blackberry bushes growing right up to the house. Oh well, Bob, was looking for something else to do.

Our new address as of Jan. 7, 1989

1131 199th St. S.W.
LYNNWOOD, WA. 98036

We don't have our new phone number yet. But we have plenty of room, so we expect a lot of visitors.

Bob has been busier than ever in his engineering. He hopes to finish a graduate textbook in Jan.on the Shannon Sampling and Interpolation Theory. He is now the new Chair of the I.E.E. Circuts and Systems Technical Committee on Neural Systems and Applications. He is also the new Chairman pro-tem and secretary of I.E.E. Neural Network Committee which oversees all aspects of Neural Networks in I.E.E.He was awarded Honary membership into the Puget Sound Section of the Optical Society of America.Bob is in charge of 8 Ph'd students and 3 Master Students. His publication list is to long for me to include.

As part of his hobby,he completed his Gunsmoke Trivia Book this fall!

As part of his ministry, Bob has enjoyed becoming more involved with Campus Crusade for Christ this year .His fellowship with his own Grad. Student Bible study has been very important to him and we hope a blessing to the students, too.

Tanya,our live-in Christian friend will be moving to our new home with us. Next summer, she plans to leave and go to Russia as a tentmaker.(Missionary). She has been very deligent in learning the Russian language at the U. of W.

In case some of you are wondering who Monica is, she is Connie.Many of my friends now call me Monica, and the name seems to suit me.

Well, we have a new house, a new phone number coming, and I have a new name. However, we still have the same love for you. We hope to hear from you soon!

HAPPY NEW YEAR!

Meek and mild...

I am the donkey...

Great with child.

Who carried Mary...

I am the lamb...

The newborn King!

about where to find...

I am the camel...

Who followed the star...

From a land afar.

...with three wise men...

I am the cow...

Who offered my hay...

So the Savior would have...

A warm place to lay.

I am the baby...

Born to be...

Immunization recommendations and schedules vary slightly among physicians and in special situations. They may change with development of new vaccines or new information about vaccines. Recommendations depend upon health factors, risk of exposure to disease, and completeness of previous immunization record. One can usually continue the schedule at the point where immunizations were stopped.

The Many, Many Children

The many, many children
Throughout the world so fair
Are children of our Father,
Who keeps them in His care.
No matter what their color,
He loves them one and all;
No matter where they're living,
He hears them when they call.

Let us who are His children,
Who worship Him today,
Think often of the others
Both near and far away,
And send to them the story
Of Jesus and His love,
That all may join in worship
And praise to God above.

A number of people have inquired about contributing toward the purchase of a new piano. Some gifts are already being received. A "Piano Fund" has been established and you may give offerings toward that purpose by marking them appropriately in an offering envelope. We will purchase a new grand piano when monies enough to do so are received.

PALM SUNDAY, APRIL 15TH, 6:30 P.M.

Next Sunday night it will be our privilege to have POLLY PERKINS with us. POLLY is affiliated with the 'Jews For Jesus' organization. Having found Christ as Saviour, she is able to share tremendous insight into the significance of Old Testament ceremonies. Of all Old Testament festivals, the Passover and the Passover meal are among the most graphic in their revelation of the coming Messiah. POLLY will be teaching about these truths as she reenacts a Passover meal.

.....

JOYCE LANDORF, in her book, "The Richest Lady in Town," points out that talents embrace more abilities than singing, painting, or playing the piano. Among her "whatsoever" talents (Col. 3:23) she includes the art of being cheerful and hospitable, speaking with loving tact, being dependable, being a good listener, and rearing children for God.

Your news is just the greatest
And congratulations go
To quite the proudest parents
That one could ever know.

And although we're data conscious in
This vast computer age,
A baby's something so much more
Than weight and lineage.

For God has fashioned each new life
With wise and tender care,
And poured into each tiny frame
Love beyond compare.

And now He has entrusted
This precious one to you,
To train up in HIS glorious way
As only you can do.

JOSHUA

1. You will pass some good-sized clots and experience cramping. This is normal. You may go through 8-10 pads a day.
**Massage the fundus (top of the Uterus) 20 or more times a day.

2. Take both the baby's temperature and yours twice a day at the same time every day. Baby's temp. will be one degree higher rectally.

3. If you have stiches then NO bath only showers (not alone), until the stiches are dissolved. Also, with stiches, keep the area clean by rinsing (not douching) with betadine-warm water solution with each pad change and trip to the bathroom.

4. Apply rubbing alcohol to the cord with each diaper change.

5. No tube bath for the baby until the cord has fallen off. Sponge bathes are fine.

6. No heavy lifting other then the baby for a few days. Let someone pamper you for awhile-you deserve it!!

7. For Little Boy Babies only, sprinkle warm water over testicles and penis at first diaper change. This stimulates urination.

Call if:

1. There is an elevation of tempature.
2. The whites of the baby's eyes are yellow.
3. You have any questions

Hello, there!

Dear Joshua, 4-26-1984

I left Cleveland, Ohio February 14, 1984 to come to your home in Seattle, Washington to be at your birth.

When I arrived, everyone was very happy. Your mother was huge, and beautiful, your father radiant with anticipation. Jeremiah was almost two. You would be my second grandchild. My arrival meant everything was ready and you could be born anytime now.

You took your time. Each day and night we thought would be the day or night. Your mother was as large as we thought she could be. Your mother and father were much in love, following the advice of the doctor as they waited. Jeremiah added to the joy, saying "baby."

One false alarm. You wanted to wait longer. The doctor was called again. He

told us to go back to bed. The doctor was wrong. You had decided it was your time to enter the world.

Ruth, your mother's housekeeper, helped during transition. The doctor and others were called and arrived. I knew those trained in childbirth would help.

As I watched, I wanted to give my strength and courage to your mother, even tho she was strong, courageous and determined. I knew I could not cry. I watched my son, looking like a tousled-haired boy himself, lovingly and caring show his love and concern for your mother. Ruth was encouraging.

I marveled at the way the doctor, your mother and father and you worked together to make your arrival. Your birth was quicker than I thought it would be. You pushed yourself right out,

For an instant, I felt anxiety, until I heard you cry.

My first words, I think, were "He looks like Bob" because I saw a resemblance, or maybe wanted to.

My love became stronger each time I held you or bathed you. I sensed you recognized my touch. You would quit crying unless you were hungry.

I went to your dedication at Shoreline Community Church on April 8th. I left on April 11th.

A lot of living went into the two months I was at your home, a lot of love, caring, sharing, and growing to know each other. I had a new grandson and his name was Joshua. I had gotten to know your brother Jeremiah better.

You both have been blessed with Christian parents that have "bunches" of love for you and grandparents that you can come to any time you need help or just for a friendly visit and don't forget Uncle Ray - he loves you too.

Love, Grandma

I've got a theory, and some time that needs to be killed with my mind being occupied while it's being wasted (or else my mind gets wasted too), so I'll write you about something.

I started Bradfield Robe last night (this isn't some sort of rehashing of past viewpoints - it's human, not religious). Marcellus, the Tribune who crucified Christ, got drunk (and had been all day) that night at the meal, one of the guests demanded Christ's Robe, & it all ended with M. putting it on. And something changed in him ("seared his soul") and though he was drunk and tired he couldn't get the crucifixion out of his mind. His slave, Demetrius, would handle the Robe easily, and it ~~to~~ gave him strength and comfort from knowing the courage he had

seen in Christ's eyes when he came to Jerusalem and was mobbed by the zealots as a king.

Anyway, from his description of what happened, it sounded very much like my freaking out on acid (more than just sounded like — I'm sure of it). I'll find out tonight how he got over it, but for now I have some idea which, though it doesn't help me, explains some things. Awareness and interest are two separate things. Intense awareness without interest is like a state of shock. The mind can function in responses, but cannot create new thought patterns. That is what Marcellus mind was in — continual awareness. (It killed the time, but it's worth continuing since I'm organizing into thoughts what I've merely felt since last night. Maybe that is what I shouldn't do — as Marcellus said, you can know (insight)

3 too much about the unknowable.)
interest and curiosity are
equivalent to two things -
either it is a quick feeling of
unfairness (of doing something
you don't want to do) or the spark
of interest, an involvement, of
intricacy (im listening to Schmidt's
lecture while writing this, so it
might not be coherent).
Acid is pure awareness, but it
does not supply interest - which
is what causes hallucinations and
freaking out. Pleasure is the
decreasing of awareness, but
if interest is not kept up with
the level of awareness, then that's
boredom. And boredom makes
awareness painful, so you seek
a lower level of awareness and
that spirals down to clumsiness,
dullness, and general decay.

Different levels of awareness between people cause uneasiness between people meeting eyes - the lower level is made nervous by the upper, and the upper senses that nervousness and goes higher himself. The higher the awareness, the more sensitivity to another's thoughts. and if both are bored, that gets very annoying. This level of awareness also determines the rate of maturity (sexual, physical), but actual aging is caused by too high a level of awareness and too low a level of interest.

Not to just ramble on, all ties all this back to the Robe. Drinking causes decreased interest, but Marcellus was not allowed to sleep by his own sense of duty. The Robe brought all this awareness to a peak, all his memories were collected in it, and he went into shock

Dear Grandma

I will try and answer your most welcome letter. Sorry I didn't get to answer it sooner but I was just to lazy so I will answer it this evening. I am getting along alright in school only made three 7's on my reportcard so I passed one subject and it was English but I only made D on it and it was just passing. I will half to go and do my work and will finish when I have finished my work. Will back again to finish my ~~sqribbling~~ ~~or writing as you may call it~~. I will half to finish with my pencil as I ran out of ink in my fountain pen and to lazy to fill it up. I am having a pretty good time out here now as I know quite a few peoples I haven't had any quarels or fights so we are pretty good friends. Tell Arden he has one beat one girl as he has two for I have one but I wont tell you who she is for you wouldn't know her if I would tell you, but she is a freshman. They had a panther scare up here and had me scared so I wouldn't hardly go outside without a light so now as I can't find my flashlight

and I half to go out without it.

We are having fun out of Grant and Erma Stricker now since the pie supper thursday (oct. 15). He got her pie and then took her home. I got Adora Badgers pie for 45¢ but I didn't take her home for it was to far. We havn't moved yet for Jack Stones or Mr. Stones as I should call him havn't moved yet. Dady hasn't much work but is making enough money to live on. If you wonder who my girl is I will tell you she is Francis Morice about 13 or 14. Well I will half to close and eat my supper as maybe you are getting tired of my pencil marks and excuse my wrighting and misspelled words and answer soon

with love

Dear Grandma,

How are you by this time? I'll bet you thought I had forgotten you. Well I haven't. I just neglected writing. I guess we are all well now out here. Mother was sick for a few days. She's had to clean up for the "Itch" again. I got out here in time to take the cure for it. Ha ha. I didn't get it though.

I went to see Shirley Temple in "Captain January" Saturday night. It was really good. That was the show that I started to see out there. You know. Part of it was sad. I was like Helen M. I had to cry. Ho ho.

It's too bad about Arden making such low grades in school. What's the matter with him, is he still girl crazy? He surely could do better than that in his subjects. I don't think Peck is doing very good though. I didn't make such a good grades in

but still I didn't make low enough to fail I made A in Latin, B in English, C in General Business Training, and a D each in Health and History. Wasn't so bad was it to be carrying five subjects?

I went to a pie supper Thurs. night. See, I had a good time. I was scared to death that some trash had got my pie, but they hadn't. A real nice boy got it. I guess I would have eaten with the other, but I wouldn't like to.

Aunt Maude and Uncle went to Kokomo, Ind. to visit her sister over the week end. I'll bet they are having a good time now.

I wish I was out there now. The girls out here don't act the same toward me as they used to. Don't know what's the matter. I told mom that the girls out there treated me better than these do except Dolores + Lola.

even if I didn't know them so well. I thought if they didn't care so much for me of being around them I would stay away as much as I could. A person can't do that all the time though.

Mom said to tell you if she had any way of sending you some vinegar she sure would send you some.

Grandma, it doesn't look as if you can get anyone to stay with you this winter. Why don't you come and stay with us? ~~Mother said that Mom~~ You could come out here and stay easier than you could run up Aunt Emma's and stay. So if ~~nobody~~ nobody can stay with you, come on out here.

Aunt Vivian has some of the best looking sweet potatoes out of her garden. Mom got a bushel of beans to can Mom. The man said she could ~~to~~ get around 24 qts out of a bushel.

I'm sending some of those pictures we had taken while you were here. The one of the group

is not good of Pauline and Lorna. I think the rest are pretty good.

Well, I will close for this time. Ans. soon

With Love

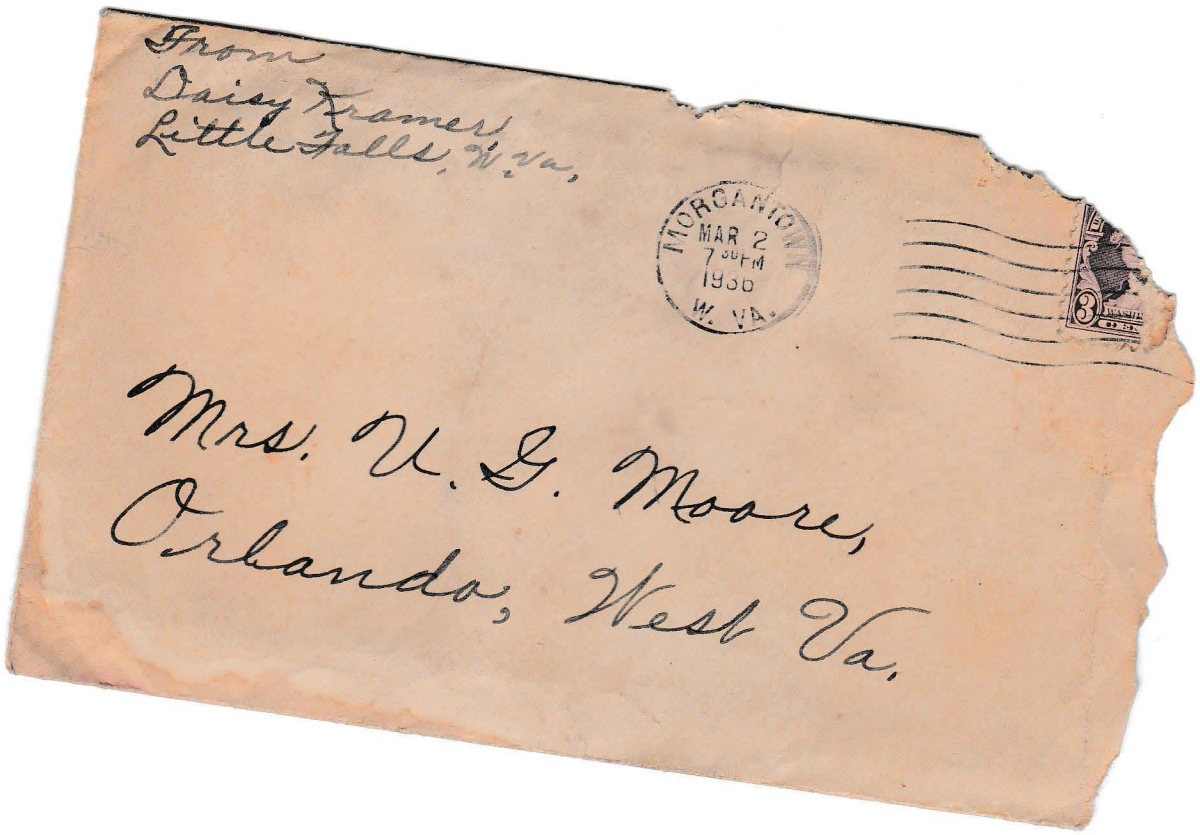

Mildred

Tell Wanda many "Thanks" for the pictures and I will write to her pretty soon when I find time.

Mildred has gone to school and left this lay long enough as I'll mail it. got to school is all she gets to do seems like I have two more but hers to can today.

I have 24 qts ready to cook we thought we had stock again but Dot fell down, but they got the stock done any way I almost burnt it up with the stuff. having a time with him hope you are well. were all well. Take a notion and come out. Nellie

Dear sister Sadie,

There isn't much to say that seems to bring any consolation on an occasion like this, but if I could say or do any that would convey to you my heart felt sympathy, I surely would do my say it.

I know how lost you feel, my how empty life is going to be for you, till the sharpest pangs of grief have faded, but your strong christian faith & fortitude will sustain you now, when no earthly help can avail. And I pray that the God who knows all our sorrows, will comfort you this day.

I never knew Lyss was sick, even, till I got the death telegram late Fri. evening. I went to a telephone at once and called Okla. She said Nellie had called her that he was sick earlier in the wk. but she never let me know. Oh, how I wish I might have been there to help nurse him. I've had a lot of experience with pneumonia. Have nursed six cases, my

and lost only one out of six. That was Mother. I know all of you did everything possible in your power for him, but I'd loved to have seen him once more alive. I just can't realize I'll never hear him laugh or joke again.

I'm an "awful" fuss driver, my Geo. has no license, my will not be old enough to get license till next Aug. or I'd have come, if I could have gotten there. Oleta is a good driver, my that's why I called her to come with me. She said their car would not stand the trip, but I told her we'd take my car, (only I have no chains-tore them to pieces in the last heavy snow, my had not the required $6 or for a new pair) and I know we have dirt road from Sandfork to your place. But Oleta could not come. (she was to come down my let me know at 4:00 P.M Sat. if she could come early this a.m.) so she never come down. my when I got home from Mgtn. Sat. evening I had a splitting headache, my I have not been well for several wk. but I'd have started this a.m. if she had come. It was clear weather this a.m. though it rained yesterday evening my part of the nite hell, my without

chains I didn't know if I'd get there or not over the dirt roads, or if it turned to snow if I'd get back. The highway has been blocked between Fairmont and Clarksburg with gauged ice. They had to clear a one-way traffic line with steam shovels. So those are the many reasons why I didn't get there.

Tell Nellie to be sure my stop to see me as she goes back. Write me where to meet her - either Fairmont or Mgtn, that will be most convenient for her, my some one will meet her whenever she comes. I want you to come with her sure, if you possibly can, my I'll see to it you get home whenever you think you have to go. I want to see you my Nellie (all of you in fact) so bad, my to know what are your plans for the future. I always wanted you my Lyss to visit me, but now he will never come, but you can, my I do want you to come.

I don't have any "rose path" through life, but I'll do all I can to add to your comfort my pleasure, if you'll only give me the opportunity, by visiting me!

So you my Nellie please be sure to come.

I hope all of you are well as usual, I appreciated Guy letting me know when the funeral was if I could not come. Tell him my Vivian to come down this summer. I hope Vivian writes me soon again.

Tell Violet, Ornea my Clarice my of their families I'd love to see them too, my to come down soon as they can.

Write me yourself if you can, you are my only sister left, my I don't see or hear from you half as often as I'd like too.

Hope to hear from you or Nellie real soon when my where to meet you.

Best love to you my all the family.

Your sister Daisy.

AMERICAN RED CROSS

Hi Mom.

I received four big letters from you the other day. As they had stopped the mail because they were breaking up Anti Tank Co. 351st Regt. all of them were shipped out to different Co's in the 350th Inf Regt. I was sent to Co H 350th & arrived there yesterday (at Co.) & was sent to this outpost. It is a small platoon of 15 men on the Jug border. We are guarding a bridge on the Isonzo River which is the margen line seperating Yug & Zone of Venizia Giulia dispute.

Tell Jimmie I'll probably be coming with those other guys anyway.

Received a letter from Mrs. Newman the other day. She seems to think Mary is doing real good at school.

How does Jimmie seem to be doing?

What's wrong with his? She broke her arm?

Write soon.

Love
Jack.

My arm is better.

Dear Mamma,- As Odbert is writing to you I'll write a scratch too, Tho you havent ans. my other letter yet.

Hope you are well. I know you are happy since you have seen Victor and know he is all right. That was the best news I've heard for ages. One lives and learns God is good dont they?

We are well as usual. I have had a pretty sore head but it is better now. I was splitting a wood block to put under my beans I was canning and caught the ax on the clothesline. I missed the block alright and the ax turned side ways and hit me beside the head. I was lucky to get off with a bruise.

I canned five qts. apples this evening didnt get them all canned. Guy bought a

bw. yesterday. My but they are nice.

Guy isn't getting so much work now He sells quite a little gas and oil. I'm a sales lady trying to help out. I sell most everything in the tiolet and household lines. Im selling for Davis Brothers and get a good comission. Can't let every body know but I get 40% of what I sell. I sent in an order of $5.00 wholesale, retail price is ~~$8.34~~ it leaves me $3.34 but I have to pay shipping charge. Maybe I can keep myself in stockings.

Jack hasn't moved yet. Guess they will go as soon as they vote. Anyway thats why he said he wanted to stay.

Guy & me voted mon. morning. Guess its in Glenville by this time.

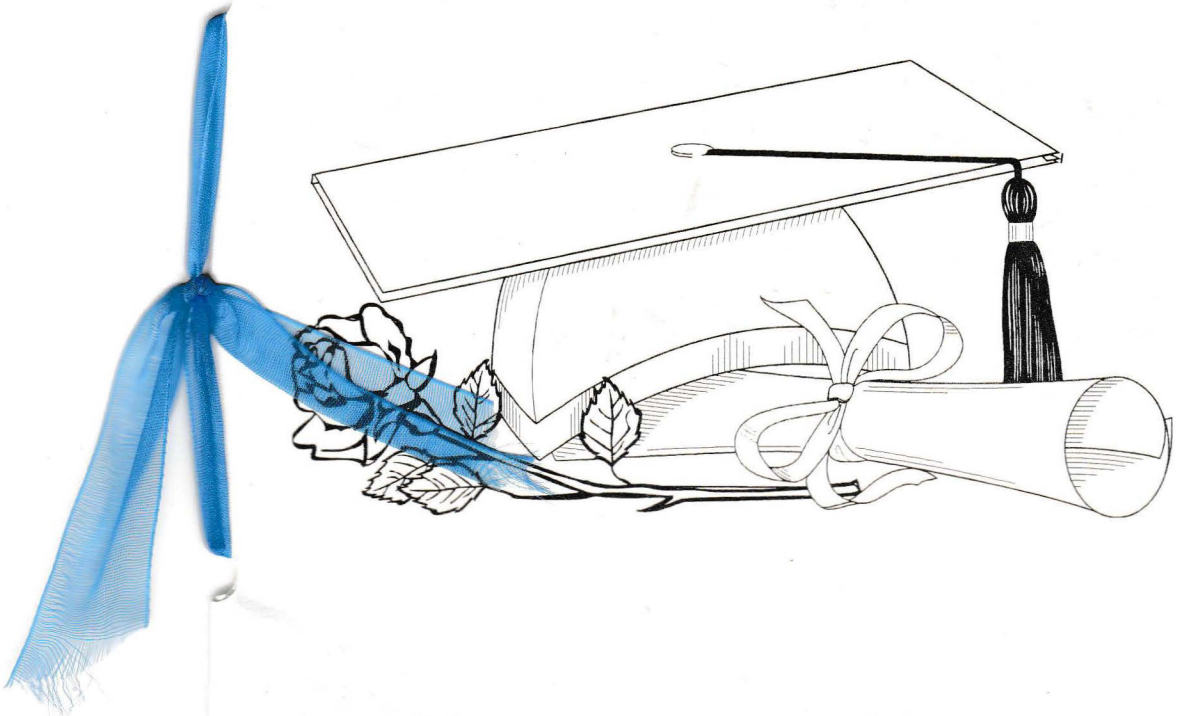

Clarice wrote me Victor was coming back in a couple wks. Is he going to stay a while or just business?

Ressie is coming out here right away. I'm hoping we get moved before she comes. We're having quite a little rain now. Have had

two hard freezes. One last night and one night before last. We had our tomatoes pulled and covered so they are not hurt. I only have 5 or 6 trees but will be planning one occasionally. I'll have to quit as Lee have more than wants will take home. Love Vivian

National Anthem

O say, can you see by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming,
Whose broad stripes and bright stars,
through the perilous fight,
O'er the ramparts we watched,
Were so gallantly streaming?
And the rockets' red glare,
the bombs bursting in air,
Gave proof through the night that our flag was still there.
O say, does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

Salute to the American Flag

Of the United States of America
And to the republic for which it stands
One nation, under God

Salute to the Christian Flag

One Savior, crucified, risen and coming again
With life and liberty to all who believe.

The Benediction

I thank my God every time I remember you. In all my prayers for you, I always pray for you because of your partnership in the gospel from the first day until now, being confident of this, that He who began a good work in you will carry it on to completion until the day of Christ Jesus. And this is my prayer: that your love may abound more and more in knowledge and depth of insight, so that you may be able to discern what is best and may be pure and blameless until the day of Christ, filled with the fruit of righteousness that comes through Jesus Christ——to the glory and praise of God. Grace and peace to you from God our Father and the Lord Jesus Christ.

Hi mom.

I received your letter saying you had sent Don was going to send Lenore a ring. Did he? She finally got that over with. She wanted to get it for a long time but things just happened that I couldn't. I liked the description of it too. I do because it will be too small as your blue one was a fraction small for her. She can get it enlarged if it is. I would rather have gotten it myself, but things over here ain't worth half of what you pay for them.

I received the pictures of the boys - Dad + sis. They all are growing like weeds. All except dad of course.

Don't get too angry with me for not writing more often. Lenore hasn't written for over a week. Oh - I don't blame her. I went two week without answering one of her letters. I never have written all I should

We had a little excitment here last night. We got a call from Bn H.Q. that there would be a Motorcycle by here within five minuts of the call & to stop it at any cost. It had been fired on by other Outposts all down the line. (Bothers & think) We loaded up & when he came one guy had gon down the road to flag him & four of us were up further with rifels. We passed the guy that flagged him & when he saw us with our rifels trained on him he came to a screaching halt. It was two G.I.s who had stolen the Cycle & were AWOL.

I don't remember whether I wrote you or not about the guy on the bridge so will give you a few of the high lights. The guy was a Yougoslav citizen about 21 or 22 years old. They ask him for his pass. He showed it & the guard ask him his name to check against the pass. He deliberately walked off. The guard halted him three times & he didn't stop. The guard fired two shots over his head & he went on (walking) The next shot hit him just to the left of his back bone & came out his stomach. From the way it looked he had his hand just in

front of him, because he had one finger shot off & another broken by the same shot that went through him. He was rushed to the hospital & died the next day. The guard that shot him was transferred & we were put on an alert for a week end. Nothing ever came of it & we are back on the same old guard again.

Dear Bob,

Well, I just received your letter & I'm so glad to hear from you. I was a little surprised cause I didn't think you'd have time to write during your first few days there. But I'm happy you did write already.

From what you say the place must not be all you expected but except for that big town you mention, the campus must be pretty nice.

Your parents were telling me all about it when they got back. You now told me everything she knows about it & quite a detail, too.

2.

Well, I'm really happy for you Paxa even though it'll be rough it'll be fun, too. I hope you enjoy yourself.

I'm glad you told me what your first day was. It was interesting to know how it turned out. I bet you have a pretty tight schedule for both, but don't worry when you get up at 7:00 you'll get used to it pretty soon. Let's not do that...

We went over to see your mom Wed. & Rox took the train home. D. Rick & Kim went with her & Ricky helped her change your room around.

I saw it & it looks so nice. The whole place is clean except the walls & ceiling. Tues more work real hard at it, & tomorrow she's gonna call me to clean out the closet upstairs & the closet.

Then tomorrow afternoon, she's got a hair appt so she'll be bringing Kay over again.

Kay was real good outside the store. She had a lot of fun & Kim & Kari Rae kept him going. He went to sleep real good on the trip home but. (Excepting when you ate!)

Guess I'm done. Write soon. Love ya. Don't want to pay my parents

I feel so guilty taking money from Aunt. I wish I could work. Ray without her paying me. Ann says I do many things for me & I feel I owe it to her. I wish she let me do it out of friendship & as a little favor.

I'm sure your family misses you. & Esp. me. I miss you so much really miss you around here. I can't really tell. And she tells me how lonely they are for you. But I feel the same way.

But I'm glad you're happy about the time you are. I'd rather you be here where you belong, but, of course you have your education

responsibilities to carry on. And I know you'll do real good.

It was easy for you to get good grades in high school & all cuz not many kids did, but now, down in college you've got competition! So do you best & may you have all the luck in the world.

As for what's happening up here, there's not much, but enough. I saw Johnny the other day & he wants to go bowling & send you a big "care" package someday, so you write me quick. He's a nice guy, but his a rough one.

I haven't seen Jack or Chris for a while now.

6.

And you mom said Jack Mary called and came over after work as soon as I do we like it and I'd be glad to give him your address.

Well, something happened to me tonight. It's nothing big but to me, it means a lot. It might sound silly to you but if you knew my feelings toward the situation, you'd understand. It's next to church Sun. & I don't believe it. Did you realize it took me 1½ hrs. to get up my nerve to face mom & dad & you know I haven't gone since April when I cried with (Mr. Dr.) I don't want to talk about it but in church I get so sick an

individual so out of place. I'm sure I just acted fit ex her. I was proud of myself inside that I don't know can you imagine how long it's gonna take me to get to confession. Will take me about a yr. before I can go myself to go. I should of done that in the first place but I was so pissed I couldn't. Well, I'll get there eventually. (I hope)

Well I shouldn't be talking to you like this in the first place, so forget that part above. O.K.?

Do yourself a favor honey and don't worry about ANYONE reading your letters. I'm the only one who has access to them. Nobody else gets into

my personal thing. I'm the only one who ~~[illegible]~~ reads them. And your letters are not anything to get embarrassed about any-way. You make it seem as though it's the first time you wrote a letter. (Well, to me it is) so I'll write you as often as you wish, and you write every chance you get. O.K.?

So, I'll be seeing you in a few wks, so be good, and take good care of yourself. Miss me, please.

Love always,

Karen

P.S.

I'm sending a picture; hope it's ok. I tried it not much, but I'll be sending [illegible]

Dear Robert:

I am pleased to inform you that your application for admission to the freshman class convening in September, 1968 has been approved. It is, of course, expected that your high school record will continue to be satisfactory through graduation.

Upon completion of your secondary studies, it will be necessary for you to have your complete record sent to us from your school.

To assure a place in the freshman class, you are requested to forward, within 30 days, a deposit of $50.00. This will apply toward payment of your tuition. If, for any reason you change your mind about attending Rose, $25.00 of this deposit is refundable up to May 1, 1968.

For those requiring dormitory space, hall preference cards will be sent to you in the spring.

We shall look forward to hearing from you in the near future.

Sincerely,

Paul B. Headdy

CAMPUS INFORMATION

In order to answer questions which are most frequently asked concerning room accommodations and campus living, we have compiled the following information.

The dormitory rooms are furnished with all necessary furniture, drapes, and bed linens. You will provide your own pillow and bedspread (twin size). A light blanket may be necessary for winter sleeping since none is furnished by the college. However, heat in all rooms is thermostatically controlled and little cover is needed. Facilities do not permit the use of an electric blanket. Each resident must furnish his own laundry bag, towels, wash cloths, and soap. It is also advised that each student should have a small first-aid kit. All floors are vinyl asphalt and no rugs or carpets are necessary.

Students are permitted to have electric alarm clocks, portable radios and record players in their rooms, but television sets are not permitted. (Television is provided in Hulman Memorial Union and Hall lounges for entertainment during leisure hours.) Additional pieces of furniture must be approved by the Dean of Students before being moved into rooms. (A record player will necessitate a small cabinet table.)

All rooms are equipped with fluorescent lighting sufficient for close study. Small table lamps, if desired, may be supplied by the student. There is no general alarm system to awaken students so each person is responsible for arising on time.

Students living on campus are furnished 18 meals per week in Hulman Memorial Union.

Dress for the normal school day is casual, varying from levis and T-shirts to slacks, sport shirts and jackets. By tradition, no corduroy is worn by any student other than a senior. There is pick-up service for laundry and dry cleaning. Also available on campus are automatic coin operated washers and dryers. Ironing boards are available but the student must furnish his own iron.

We maintain a student banking system to facilitate convenient deposit or withdrawal of funds during regular banking hours.

Freshmen are permitted to have cars on campus but a car is by no means a necessity.

The mailing address for students living on campus is:

Dear Rose Freshman:

Welcome to the Freshman Class for the fall of 1968. There are some details pertaining to housing and campus life that we must convey to you at this time.

Enclosed please find a housing request form. Freshmen will be housed in Speed, Baur-Sames-Bogart, and Deming Halls. All Freshmen will be assigned a double room. The room charges are $105.00 per quarter. Return the housing request form with a $25.00 deposit by July 15. Preference will be given in the order that this deposit is submitted. Room assignments will be mailed after September 1.

Campus living at Rose offers every man the opportunity to participate in a number of activities. These activities are of a wide variety with many of them related to the traditions here. The attached sheet will outline bedding requirements and some suggestions pertaining to clothing as it relates to above mentioned activities.

Students enrolling in Summer Institute will be notified of their rooming assignment later when further information about the Institute will be furnished. The dormitories will be open at 1:00p.m. on August 11, 1968. There will be a reception for students and their parents at 4:00p.m. with a buffet at 5:00p.m. We hope that your parents can attend. If you have a request for a specific roomate, notify me by June 20.

The health forms enclosed are to be completed and returned by August 1 to the Dean of Students' Office.

Return the housing request and deposit to Dean Ralph Ross. The housing request and health forms do not have to be returned together.

We shall look forward to meeting you this fall. Best wishes for a good summer.

Sincerely,

William R. Brown

HUNDREDS OF FLOOD REFUGEES GIVEN FOOD AND SHELTER HERE

ARMY AND RED CROSS STAFF HEADQUART'RS

Charlestown late Sunday was suddenly called upon to house and feed hundreds of fleeing refugees from the flooding Ohio.

Housing was found in schools, churches, theater, store rooms and private homes.

The refugees came in private cars, school buses, trucks and a train of 14 box cars brought 900 from the governmen depot when evacuation became necessary.

Since Sunday Charlestown has been used as a clearing point where the sufferers, cold and wet, were warmed and fed, then moved further north. Five hundred were sent by train to Indianapolis.

The first relief arrangements were made by local citizens who responded nobly to every demand. Late Sunday night military and Red Cross officials began to arrive and have now taken charge, with Charlestown staff headquarters for Clark County.

These authorities announce that the town will be evacuated of refugees as soon as provision can be made for them elsewhere, especially from the schools and churches, so that conditions can be returned to normal as quickly as possible.

Food and clothing have been brought in from many points in the country. Special trains and trucks have handled tons of these supplies, as nearly all refugees arrived here with only the clothes they wore.

MONEY SHORTAGE

First Bank of Charlestown has had to do much of the emergency banking for flood sufferers. Checks have been limited to small amounts.

Monopoly in Publishing Field!

SO FAR as can be ascertained here, THE Charlestown Shopping News is the only publication since Sunday in this area, including Jeffersonville, New Albany and Louisville outside the Highlands. Save this copy for your grandchildren.

NEWSPAPERS AT PREMIUM

Charlestown people had to depend on the radio for news from the outside after mail trains were annulled and outside telephone service was impossible for several days. The first mail this week was brought by truck from North Vernon Tuesday afternoon.

Telegrams into Charlestown were delayed as much as 48 hours.

The local phone exchange was severely taxed. It was not until late Wednesday that a direct connection could be made with Indianapolis.

SEPARATION OF FAMILIES REAL TRAGEDY

One of the tragedies of the disaster was separation of friends and families. When the first refugee train was unloaded in the rain and slush Sunday evening, a sick mother on a stretcher was brought to the high school, where a temporary hospital was first set up, while her two small children were taken to some other point up the B. & O.

Every effort was made by a capable staff of willing aides to register all refugees brought to Charlestown and they compiled records totaling around 2,000 names, but it was impossible to register all as refugees were housed in so many places, including scores of homes both in town and country.

WHY OLD MAN RIVER CREPT TO YOUR DOOR

R. A. Barnett's gauge shows that Charlestown's rainfall for month to date is 16.18 inches, heaviest in history. Heaviest period:

Jan. 21, 2.58
Jan. 22, 2 39
Jan 23, ,70 (snow)
Jan. 24, 2.82

In July, 1875, rainfall was 16 inches but no big river.

REBUILDING OF JEFF. ON HIGH GROUND URGED

A prominent official of Jeffersonville, a refugee in Charlestown, says Jeffersonville should be rebuilt on higher ground.

"In this age of motors and good roads there is no reason to build a city on a river subject to floods," says this official.

"The present site of Jeff. could be made into a park and the levees removed to relieve flood pressure from Louisville business and industrial district. The government will probably decline to spend millions upon a levee, preferring to lay out a modern city near Charlestown or on other high ground.

Guthries' Chicks

Blood tested. Hatching thousands weekly. Chicks bough in January are ready for market when the broiler price is th highest of the year. Chicks priced to make you profits.

HOSPITAL SET UP IN JUDGE WATSON HOME

Things move fast in an emergency A few hours after the Red Cross ordered installation of an emergency hospital in the mansion of the late Judge Ward Watson, vacant for several years, a pump had been brought from New Washington, installed and the house well heated with an abundance of hot water.

Besides caring for many bed patients, hundreds received typhoid immunization free of charge.

EVEN BURIALS ARE DELAYED

Funeral of John Douthitt Sharp, who was killed in an Ohio auto accident Wednesday, Jan. 20, was delayed until Tuesday because undertaker was flood-bound.

Funeral of Miss Mabel Patrick, who died Thursday, Jan. 21, was delayed until Wednesday for similar reason.

Take Precaution Against Typhoid

Martin A. Milling, of Indiana State Board of Health, here for flood relief, strongly urges every precaution be taken against typhoid since the excessive rainfall in this limestone country and so many refugees have been added to the population. Milling says either to boil all drinking water or add chloride of lime solution, which may be obtained free of charge at high school library. Also free typhoid immunization may be obtained at emergency hospital in Watson house.

"Play safe," says Milling.

Utica Nearly All Washed Away

No places will show such large percentages of loss as Jeffersonville and Utica It is believed that 75 per cent of the homes at Utica have been washed away.

Patients Taken to Indianapolis

About 35 patients were removed from Clark Memorial Hospital to an emergency hospital in Speeds Community House Later the more serious cases were removed to Indianapolis.

Mrs. Myers Van Pelt with twin sons,

STORES HERE SERVE MOST OF CLARK CO.

Charlestown places of business have been rushed since Jeffersonville, New Albany and Louisville have been flooded. Much of Clark County south of Charlestown has had to come here for food, fuel, gasoline and drugs. Charlestown business men have responded nobly. Much of the bread used has come from Scottsburg, while groceries have come from Madison, Greensburg and Indianapolis.

When he could no longer ferry to the Jeff end of the Municipal Bridge, Park Bottorff turned towards Indianapolis, making two trips there for drugs.

HIGH WATER HAPPENINGS

It looks like the drouth has been broken.

The first bedraggled refugee entering the high school carried a canary cage. The next had a pet poodle.

"Papa" Myers Van Pelt was pictured in the Indianapolis News showing him removing Mrs. Myers and new-born twins from Clark County Hospital.

"Don't leave milk in the morning," was the note left for his dairyman by one fleeing refugee, according to Frank Clegg.

Free Prisoners As Waters Rise

Sheriff Hal Hughes, with the flood steadily climbing solved the problem of disposing of prisoners by removing some to Pendleton and releasing others. Among the latter was one who had engaged him in a gun battle.

"I certainly hated to turn him loose," said the sheriff, after putting him on the Municipal Bridge and telling him to keep going south.

Military Wants to See Passes

With the military in control, a pass is demanded in Charlestown after 9 p.m. Also a pass is demanded in Jeffersonville and New Albany at all hours.

Want All PWA Funds in Valley

Congress has been asked to divert all PWA funds, totaling 790 millions

Dear Babe,

Hi Lizzy. How's life treatin' you? Pretty good here. I just finished a bookkeeping test 3° and had another one 6° yesterday. I think I did fairly well - at least I hope so.

So did you have a good weekend? I worked Saturday & Sat here Friday & Sunday nite. He did get mushing last night cuz Skeeny & I had a slight disagreement. Anyway I have this Friday off so I'm. So I don't know what I'll do yet. I told Ida Mae Hocking Sat. night but I don't care, cuz I can sleep Sunday.

It's 7:00 Friday morning here, and I just finished a small breakfast. I have to leave in half an hour so I'd better clean up & go.

When I get your letter (you'd) day I could tell you day received one to-day. Thanks for the pictures. I mailed the axe that you lent me (you got) and a pick & hoe up (you got) and a pick & whip axe with it last Friday.

I'll bet those three axes

this week I mailed one Wednesday
(pink) & one on Thursday & they
are today (Friday) I hope you
get them all soon & let me know
if I really will surprise to
the post office.
You sounded so good last night
on back as I got your letter in
one (with the money which you
shouldn't have done) I got so lonely
for you I had to talk to you, so
I decided to call on my lunch
break, about 8:00. & you answered
& was glad it was just to be able
to hear you. Sure day I'm going
to surprise you & be there one
morning when you wake up. I
can give you my word on that.
Just wait & see. It may take
time, but I'll do it.
You must believe this, but I
was proud of you when you
said you got an A- on your test
I also cried. I was so happy
especially after the last grades

of yours. I almost didn't believe it, but knowing you I did and I really am happy.

Oh honey - I miss you so much I want to be with you all the time. All I want right now is to be in your arms, just holding me, where I can have all the time in the world with you. Just you & I always for as long as time allows. Please hurry home and love me.

All my Love,
Karen

Hello Son,

It is just breaking day here and I'll bet you are still asleep. Jim just left for work and the children are still asleep. Even Tippie is stretched out on the davenport sound asleep. Spring is showing itself a lot here now and it makes the children sleep. Except in the daytime and they can't find enough to do to keep them busy then. I can and more too though.

I am almost done trimming grape vines and now I have meat to smoke and my garden to clean. The grape vines at the chicken house are about all dead. I have let new streamers grow up from several roots and I have to cut away almost all of the old vines. The new ones will provide enough grapes if they aren't killed by freeze though.

I haven't heard a line from you for almost two weeks. I hope nothing is wrong. Let me hear ~~from~~ oftener Jack.

I don't like the sound of the Russian situation, do you? It looks as if we could manage someway to stay in the same world together without fussing. I cannot understand what

I hope when this cycle of training is over that you can get into mechanical training.

I had a letter from Basel last week. He is in Baltimore now, but he said when you came home on furlough to let him know and he was coming home to see you. I hope you can come soon.

The Basket Ball Tournament starts this week and our boys drew Normantown for the first game. Thats tough isn't it? I don't think they have any chance to do anything as their players are all weak. Rolla Ray Burk is about the best of the new ones. I think Web. is about the best of the old.

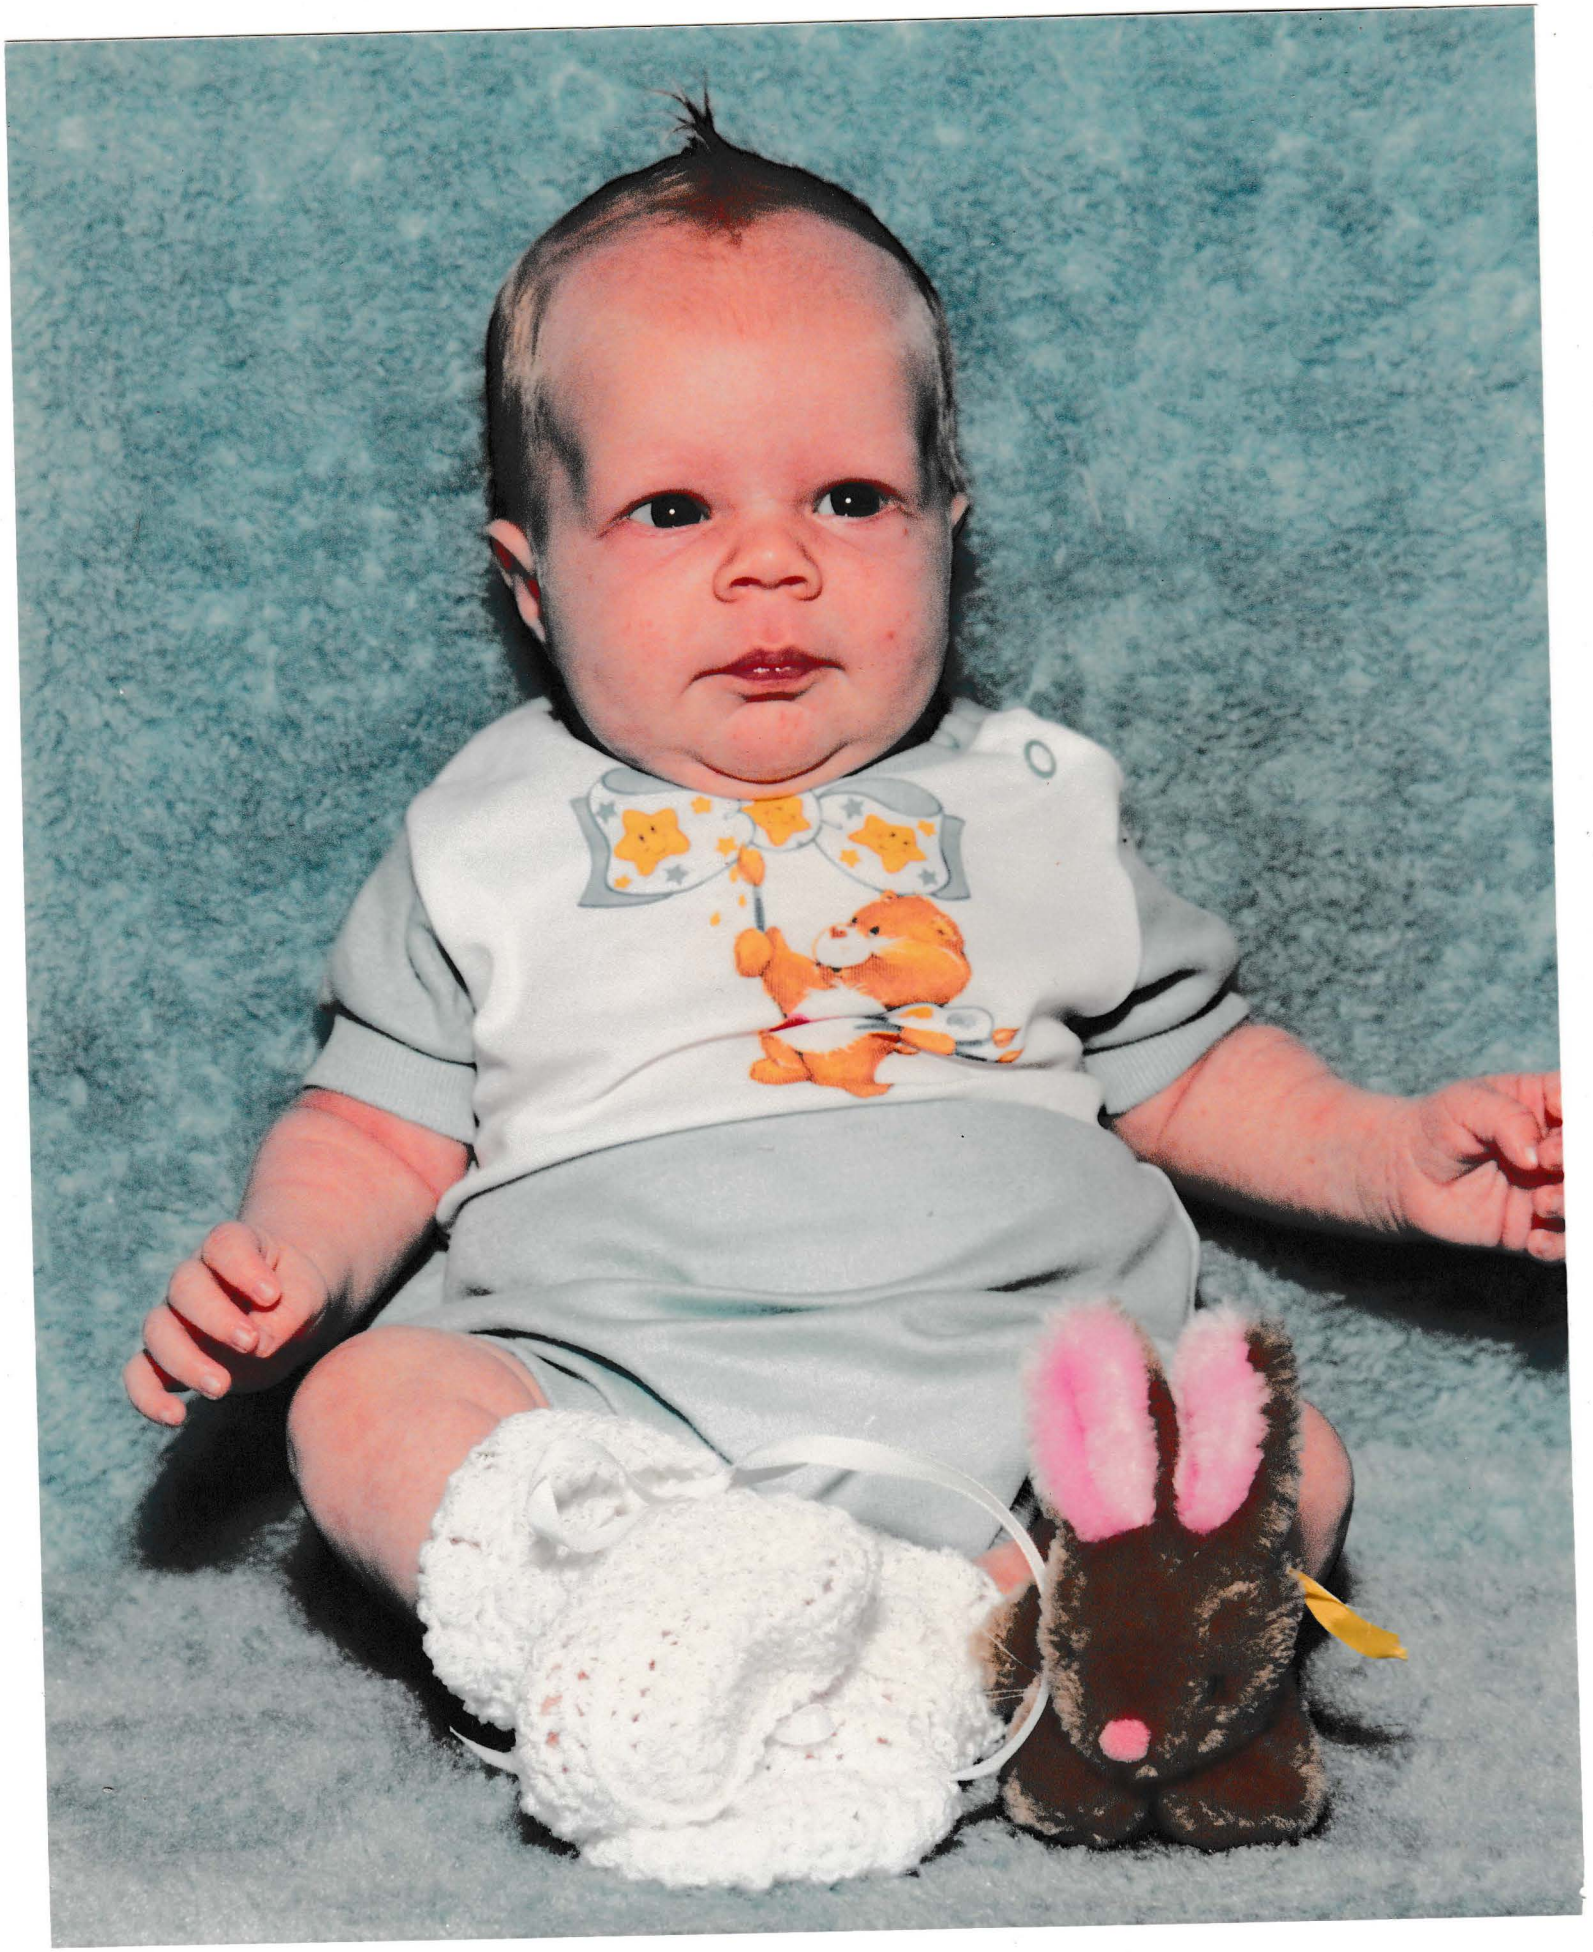

Paul Stoner is wanting to join the Maines as soon as his dad gets able to go sign his papers. He is only 17 you know.

Well Jack, I hear one of the boys coming down stairs. I'm guessing it is Jimmie. I want to get this in the mail as Beth goes to school so will close. It doesn't seem like you are getting all my mail. Notice if the address is correct on this one.

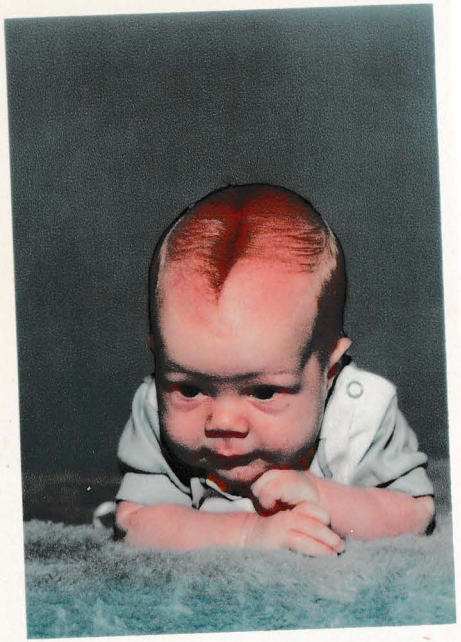

By the way, Helen said you owed her a letter, and she has been wondering why you didn't write to her.

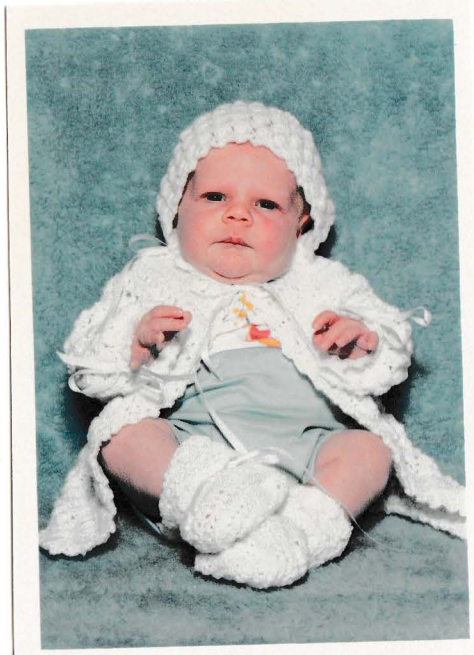

Love always,

Mom
